NOTES:
1. All dimensions are in feet unless otherwise noted.
2. A 6 foot minimum island setback is required.
3. Right turn deceleration lane - for design length see AASHTO policy.
4. Storage length will be determined by AASHTO policy or by an intersection capacity analysis.
5. Taper ends of granite slope curb from 0" to full reveal in 8 feet. 
6. All radii labeled "R" will typically be designed to fit the appropriate design vehicle.
7. Arrows shown on this plan are only to show traffic flow. These are not intended to represent pavement markings.
