SUBJECT: Standard Updates
Intersection Details (PM-7)
Word and Symbol Layout (PM-8)

TO: Bureau Administrators & District Engineers

MEMORANDUM

The Bureau of Traffic is making updates to its Intersection Details (PM-7) and Word and Symbol Layout (PM-8) Standard Plans. While these revisions are being developed, an interim design will be used to assure that AASHTO deceleration distances are achieved, and that the current version of the MUTCD is met.

The existing Standard Plan Sheets should no longer be used or referenced. They have been taken off-line and replaced with a link to the Details which replace them.

Please note that the Details will need to be inserted as part of a project's plan-set where these types of markings are proposed.
