**GENERAL NOTES**

1. All ramps with a minimum roadway width of 20' shall receive both white edgeline and yellow median line whether the ramp has raised curbing or not.

2. The edge and median line markings for ramps will be a minimum of 30" from the curb or edge of pavement.

3. The minimum distance between the lines for ramps should be 14'. The median line on a ramp shall connect with the gore line marking. The edgeline shall connect with the mainline edgeline to provide a continuous line.

4. *(T) = ThermaPlastic.*

5. The 6"SSLW(T), if associated with a partial interchange, shall be paint.
