### Draft TYP (2021 – 2030) Funding

**DRAFT 2021-2030 Ten Year Plan**

**All Funding**

- **FY21-FY30 Estimated Program Expenditures**
  - Pavement (state & federal) – averages $82M per year
  - Bridges (state & federal) – averages $95M per year
  - I-93 Expansion - $67M over ten-year period
  - Mandated Federal – averages $29M per year
  - Individual Projects- $840M over ten-year period
  - Transit & Airports - $633M over ten-year period
  - Total Program - $4 Billion
### FY21-FY30 Color of Money

- The TYP is a multi-modal plan and makes investments in all modes
- 85% of the funding in the $4 billion plan is eligible for use on roads and bridges
- Funding for each mode primarily comes from designated federal and state programs that come with funding eligibility requirements - reducing the opportunities to redirect funds to other modes
- FHWA funding is the largest source of funding in the plan (48%)
- FHWA funds are not eligible for Maintenance and Operations work

This plan is similar to previous plans
• Level funded and financially constrained
• Continue investing in the preservation of the existing road and bridge network
• Continue addressing Red List bridges
• Expansion mostly occurring on the turnpike system

Outcomes - over the next 5 years
• Road conditions – continue to improve statewide
• Red List bridge total – expect reductions to continue

Concerns
• Expect conditions to degrade over the long-term due to:
  – SB367 road & bridge pledge ending in 2025
  – Inflation and recent price escalation
• Federal funding uncertainty
• Limited funding for other modes & transportation assets
• COVID impact on traffic & revenue (short-term & long-term)
THANK YOU
