

STATE OF NEW HAMPSHIRE
INTER-DEPARTMENT COMMUNICATION

From: Erik Paddleford
Bicycle/ Pedestrian Technician

Date: September 29, 2016

At: Division of Aeronautics, Rail & Transit

Subject: NHDOT Bicycle and Pedestrian Transportation Advisory Committee

To: Victoria F. Sheehan
Commissioner

Thru: Shelley Winters
Administrator, Bureau of Rail & Transit

Patrick C. Herlihy
Director, Aeronautics, Rail & Transit

As you know the Bicycle and Pedestrian Transportation Advisory Committee (BPTAC) is the statewide committee represented by state governmental, non-profit, recreation and business interests, charged with advising the DOT Commissioner on policies, programs and recommendations to support bicycling and walking as safe, convenient and economically and environmentally beneficial forms of transportation and recreation. In your address to the committee at the April 27, 2016 meeting you inquired if the BPTAC would consider expanding its scope to also include public transit and Complete Streets. At the meeting on September 28, 2016, the BPTAC voted unanimously that, if requested, we would expand our scope to better serve the needs of the Department on matters concerning Complete Streets policies and practices.”

Thank you for your time and consideration.
