Monadnock region is known as the Currier & Ives corner of New Hampshire. Dominated by Mount Monadnock, for which the region is named, the countryside is hilly. Generally it is hilly east to west then north to south. Hills in the vicinity of the Connecticut River can be particularly long and steep. This is a mostly rural region, with Keene being the largest population center. Traffic is fairly light except in the vicinity of Keene and on the major state highways, NH 9 and 101. Bike routes avoid these roads where reasonable alternatives exist.
