PROJECT DESCRIPTION

PROJECT NAME: Noise Barrier / Sound wall.

TYPE OF PROJECT

- AERONAUTICS
- HIGHWAY
- RAIL
- TRANSIT
- OTHER _____

EXPLANATION OF PROJECT NEED:

Need sound wall / noise barrier at Fordway Ext. area (Location 18). Our home is located on the southbound side of 193 amidst the highway project. Our location was not approved for a sound wall but there is a high level of noise disturbance (which DOT has confirmed). Our area is also noted to have the highest number of incidents. We are currently receiving a chain link fence (so as to avoid additional removal of trees). The trees are our main protection from the highway. We have young children and pets and are concerned for our safety. The double overpass also projects a higher range of volume and is cause for concern of safety.

DESCRIPTION OF PROJECT: (Include general scope, limits of work, duration of project, etc.)
