APPENDIX B: FORMAT AND ORGANIZATION OF STATEMENT OF QUALIFICATIONS

APPENDIX C: FORMS

ATTACHMENT 1: SCORING FORM

**SUBJECT: NOTICE OF REQUEST FOR QUALIFICATIONS
FOR A DESIGN-BUILD CONTRACT
FOR THE MEMORIAL BRIDGE REPLACEMENT PROJECT**

Gentlemen/Ladies:

The New Hampshire Department of Transportation (“NHDOT”) and Maine Department of Transportation (“Maine DOT”) invites Statements of Qualifications (“SOQs”) from entities (“Design-Build Teams”) wishing to submit proposals to design and construct the Memorial Bridge Replacement Project (“Project”) through a design-build contract. NHDOT is issuing this Request for Qualifications (“RFQ”) pursuant to RSA 228:1 and RSA 228:4. NHDOT plans to request proposals from short-listed firms to perform design-build services. Pre-qualification will be based on the SOQs provided by responding firms, as set forth herein.

Design-Build Teams are advised that the Design-Builder will be required to hold State of New Hampshire and State of Maine contractor’s license.

SOQs must be submitted no later than 3:00 p.m. Eastern Standard Time on March 18, 2011. The Design-Build Team’s SOQ will have certain page limitations. See the attached Format and Organization of Statement Qualifications Appendix B for further details regarding submission of SOQs.

SOQs delivered in person or by a means other than the U.S. Postal Service shall be submitted to the following:

**New Hampshire Department of Transportation
7 Hazen Drive
Concord, NH 03302
Attention: Mr. Craig A. Green, P.E.
Assistant Director of Project Development**

SOQs delivered using the U.S. Postal Service shall be addressed as follows:

**New Hampshire Department of Transportation
P. O. Box 483
Concord, NH 03302-0483
Attention: Mr. Craig A. Green, P.E.
Assistant Director of Project Development**

SOQs and amendments to the SOQs received after the date and time specified above will be returned to the Design-Build Teams unopened. Faxed or electronically submitted SOQs will not be accepted.

It is NHDOT’s intent that all firms obtain the full content of this Request for Qualifications, Attachments, Appendices, Response to Questions, and all Addenda via NHDOT’s website located at: <http://www.nh.gov/dot/projects/portsmouthkittery13678f/index.htm>. The RFQ contains specific protocols relating to discussion and other communications regarding this RFQ. Any violation of these provisions may result in immediate disqualification of a Design-Build Team’s SOQ.

Prospective firms are encouraged to promptly notify NHDOT of any apparent inconsistencies, problems, or ambiguities in the RFQ.

1 INTRODUCTION AND GENERAL INSTRUCTIONS

New Hampshire Department of Transportation (“NHDOT”) hereby requests Statements of Qualifications (“SOQs”) from entities (“Design-Build Teams”) interested in submitting proposals for the design, and construction of the Memorial Bridge Replacement Project (“Project”) through a design-build contract. The Project, further defined in Appendix A, is intended to address the critical and poor condition of the bridge, and NHDOT is using the design-build procurement to reduce cost and expedite completion of the Project.

NHDOT is issuing this Request for Qualifications (“RFQ”) pursuant to RSA 228:1 and RSA 228:4. The Project will consist of design and replacement of the Memorial Bridge, as further defined in Appendix A, which will be funded with Federal-aid dollars, thereby requiring that the successful Design-Build Team adhere to all pertinent Federal requirements.

The purpose of this document is to solicit information, in the form of SOQs, which NHDOT will evaluate to short-list the Design-Build Teams.

ONLY THE SHORT-LISTED DESIGN-BUILD TEAMS WILL BE ELIGIBLE TO SUBMIT PROPOSALS FOR THE DESIGN-BUILD SERVICES FOR THE PROJECT.

1.1 Abbreviations

The following abbreviations are used in this document and are defined as shown below:

DBE	Disadvantaged Business Enterprise
EEO	Equal Employment Opportunity
FHWA	Federal Highway Administration
IA	Independent Assurance
OJT	On the Job Training
QA	Quality Assurance
QC	Quality Control
NHDOT	New Hampshire Department of Transportation
Maine DOT	Maine Department of Transportation
RFP	Request for Proposals
RFQ	Request for Qualifications
SOQ	Statement of Qualifications
TRC	Technical Review Committee

1.2 Definitions

The following terms are used in this document and are defined as shown below:

Term	Definition
Acceptance	All factors used by NHDOT to evaluate the degree of compliance with contract requirements and to determine the corresponding value for a given product. Acceptance activities for Design include reviews of plans, specifications, and other documents prepared by the Design-Builder. Construction Acceptance activities include sampling, testing, and inspection of Design-Builder’s Work
Addenda/Addendum	Supplemental additions, deletions, and modifications to the provisions of the RFQ issued after the advertisement date of the RFQ.
Affiliate	Includes parent companies, subsidiary companies and partners (in the reporting entity), and other financially liable parties for that entity.

Term	Definition
Contract	The written agreement between NHDOT and the Design-Builder setting forth the obligations of the parties with respect to the Project, including, but not limited to, the performance of the Work, the furnishing of labor and materials, and the basis of payment.
Conflict of Interest	Shall mean a circumstance arising out of a Design-Build Team member's existing or past activities, including past activities as a consultant to or employee of NHDOT, business interests, familial relationships, contractual relationships, and/or organizational structure (i.e., Affiliates, etc.) wherein (i) the Design-Build Team member is or may be unable to render impartial assistance or advice to NHDOT, (ii) the Design-Build Team member's objectivity in performing the scope of work sought by NHDOT is or might be otherwise impaired, (iii) the Design-Build Team member has, or is perceived to have, an unfair competitive advantage; (iv) the Design-Build Team member's performance of services on behalf of NHDOT does or may provide an unfair competitive advantage to a third party; or (v) regardless of whether accurate, there is a perception or appearance of impropriety or unfair competitive advantage benefiting the Design-Build Team member or a third party as a result of the Design-Build Team member's participation on the Project.
Design-Builder	The team, if any, which is selected pursuant to the RFP by NHDOT to design and construct the Project.
Designer	The Major Participant or in-house designer of the contractor that has primary responsibility for design services for the Project. The designer is the engineering firm of record who will have primary responsibility for design work under the contract. "Firm" shall mean the firm that employs the Design Manager.
Disadvantaged Business Enterprise (DBE)	A for-profit small business concern as defined in 49 CFR Part 26.
Final Acceptance (FA)	Written confirmation by NHDOT that the Project has been completed in accordance with the Contract, with the exception of latent defects and warranty obligations, if any, and has been accepted.
Independent Assurance (IA)	Activities that are an unbiased and independent evaluation of all the sampling and testing/inspection procedures used in the Quality Assurance program. Independent Assurance provides an independent verification of the reliability of the Acceptance (or Verification) data obtained by the NHDOT and the Quality Control data obtained by the Design-Builder. The results of Independent Assurance testing or inspection are not to be used as a basis of acceptance. Independent Assurance provides information for Quality System management. The Independent Assurance for the Project will be performed by NHDOT or NHDOT's representative.
Key Personnel	Individuals from the Design-Build Team's organization, as identified in the Design-Build Team's SOQ, to fill the positions specified in <u>Section 3.6</u> of the RFQ. Additional key personnel positions for the Project may be identified in the RFP.

Term	Definition
Major Participant	Each of the following entities on the Design-Build Team's team: <ul style="list-style-type: none"> - All partners or joint venture members; - All individuals, persons, proprietorships, partnerships, limited liability partnerships, corporations, professional corporations, limited liability companies, business associations, or other legal entity however organized, holding (directly or indirectly) a 15% or greater equity interest in the Design-Build Team; and/or - The lead engineering/design firm(s) (firms, partnerships, or joint venture members) and each engineering/design sub-consultant that will perform 20% or more of the design work.
Project	The Memorial Bridge Replacement Project.
Proposal	The proposal submitted by the Design-Build Team in response to the RFP, including any revisions thereto.
Design-Build Team	The entity comprised of an individual, person, proprietorship, firm, partnership, limited liability partnership, professional corporation, limited liability company, business association, corporation, joint venture, combination thereof, or other legal entity however organized, participating in the procurement process for the Project and that if successful, will enter into the Contract with NHDOT to design and construct the Project.
Quality Assurance (QA)	All those planned and systematic actions necessary to provide confidence that a product or facility will perform satisfactorily in service; or making sure the quality of a product is what it should be. Quality Assurance includes Quality Control performed by the Design-Builder, Acceptance activities performed by NHDOT, Independent Assurance, Dispute Resolution, Laboratory Accreditation and Qualification, and Personnel Qualification/Certification.
Quality Assurance Program	The core programmatic elements required for Design Quality Assurance implementation and Construction Quality Assurance implementation.
Quality Control (QC)	The system used by the Design-Builder to monitor, assess and adjust their production or placement processes to ensure that the final product will meet the specified level of quality. Quality Control includes review and checking of design and construction documents, sampling, testing, inspection, evaluation, and corrective action (where required) to maintain continuous control of a production or placement process.
Request for Proposals (RFP)	A written solicitation issued by NHDOT seeking Proposals to undertake the Project to be used to identify the Design-Build Team offering the best value to NHDOT. The RFP will be issued only to short-listed Design-Build Teams.
Request for Qualifications (RFQ)	The written solicitation issued by NHDOT to identify short-listed Design-Build Teams eligible to receive the RFP for the Project.
Statement of Qualifications (SOQ)	The information prepared and submitted by a Design-Build Team in response to this RFQ.

Term	Definition
Work	The furnishing of labor, materials, equipment, and other incidentals necessary to, or convenient for the successful completion of, the design-build services for the Project and the carrying out of the duties and obligations imposed by the Contract.

1.3 Project Goals

NHDOT's goals for the Project are:

- A) Minimize impact on the public during Project construction by reducing the number of bridge closure days for both the traveling public and the marine users;
- B) Successfully deliver the Project no later than October 30, 2013;
- C) Construct a high-quality Project with improved roadway and marine safety that accommodates traffic volumes, bicyclists, pedestrians, and marine vessels as defined within the Project scope;
- D) Maintain good public relations with all shareholders during construction through an effective public information program and efficient maintenance of traffic; and
- E) Implement an effective safety program.

1.4 Role of NHDOT

In the context of the Project, NHDOT is responsible for:

- A) Serving as Project sponsor and lead agency in charge of overall program administration;
- B) Preparation of the RFQ and RFP, evaluation of SOQs and Proposals, determination of short-listed Design-Build Teams, and selection of Design-Builder;
- C) Contract procurement, award, and administration;
- D) Providing due diligence information and data included in the RFP;
- E) Acquisition of rights-of-way and permanent easements identified in the RFP;
- F) Owner acceptance, inspection, and testing;
- G) Final acceptance of the Work and payment for Work performed; and
- H) Relations with media, public, and public officials.

At NHDOT's sole discretion, it may use its consultants in fulfilling the responsibilities noted in this [Section 1.4](#).

1.5 Role of Maine Department of Transportation (Maine DOT)

Maine DOT will serve as the Project's co-sponsor for finance and advisor to NHDOT on the Project. This relationship and specific responsibilities will be defined in more details during the RFP procurement process. [Maine DOT needs funding approval of their Capital Work Plan by the Maine Legislature prior to the issuance of the RFP.](#)

1.6 Design-Builder Responsibilities and Project Status

See [Appendix A](#) for general descriptions of the Project, the Design-Builder responsibilities, and current project status. These general descriptions are currently under further development by NHDOT and could be changed, modified, reduced, or expanded with the release of the RFP.

1.7 Federal Requirements

Design-Build Teams are advised that the RFP will be drafted based on the assumption that the Project's plan of finance will remain eligible for Federal-aid funds, including Transportation Investment Generating Economic Recovery (TIGER II) grants. Therefore, the procurement documents and any agreements thereunder must conform to requirements of applicable Federal law, regulations, and policies. These include Equal Employment Opportunity (Title VI of the Civil Rights Act of 1964, as amended), Disadvantaged Business Enterprises ("DBE") (Title 49 Code of Federal Regulations Part 26, as amended), Small Business requirements (United States Code sections 631 *et seq.*), Buy America requirements (49 Code of Federal Regulations Part 661), and Davis-Bacon wage rates. Details as to the extent and applicability of Federal requirements to the entire Project will be set forth in the RFP. NHDOT reserves the right to modify the procurement process described in this RFQ to address any concerns, conditions, or requirements of Federal agencies, including, but not limited to FHWA.

1.8 Overall Procurement Process

The procurement process for the Project consists of three steps. Step one starts with issuance of this RFQ and will result in the short-listing of potential Design-Build Teams eligible to receive the RFP. The second step includes issuance of an RFP to the short-listed Design-Build Teams requesting submittal of Proposals for a design-build contract for the Project and NHDOT's receipt and evaluation of Proposals. The third step will commence with NHDOT's selection of the apparent "best value" Design-Build Team and will conclude with NHDOT approval and award of a Contract to the Design-Build Team that submitted the best value proposal, or with termination of the procurement. NHDOT will score the technical portion of the proposals based on criteria established in the RFP and use this score for the calculation of "best value". The method for determining "best value" will be clearly defined in the RFP. NHDOT, in its sole discretion, reserves the right, among others, to suspend, modify, or terminate this procurement at any time.

1.9 Contract Type

The Contract will be a fixed-price, lump-sum, design-build contract.

1.10 Addenda

NHDOT reserves the right to revise this RFQ by issuing addenda to this RFQ at any time before the SOQ due date specified in Section 2.2. NHDOT will post any addenda to this RFQ on the following website: <http://www.nh.gov/dot/projects/portsmouthkittery13678f/index.htm>.

Design-Build Teams are responsible for monitoring the website identified above for information concerning this procurement as teams responding to this RFQ will be required to acknowledge in the transmittal letter (Appendix C, Form A) that they have reviewed all materials posted thereon.

1.11 Questions and Clarifications

NHDOT will consider questions regarding the RFQ submitted by Design-Build Teams in writing, including requests for clarification and requests to correct errors. All such requests must be submitted in writing in the format shown on Appendix C, Form RFQ-C to NHDOT's Chief Project Manager identified in Section 1.12. Only written requests will be considered. No oral requests or questions by phone will be accepted or considered. No requests for additional information or clarification to any other NHDOT office, consultant, employee, or the FHWA or other agency will be considered.

Include an electronic copy of the questions on Appendix C, Form RFQ-C on compact disk (CD) or by electronic mail (e-mail) with the written request.

Questions must include the requestor's name, address, e-mail address, telephone and fax numbers, and the Design-Build Team he/she represents.

Design-Build Teams are responsible for ensuring that any written communications clearly indicate on the first page or in the subject line, as applicable, that the material relates to the Project. NHDOT will provide responses to Design-Build Team clarification requests within a reasonable time following receipt, subject to the cut-off dates set forth in Section 2.2. NHDOT will post responses to those questions of general application and requests for

clarifications on the following website: <http://www.nh.gov/dot/projects/portsmouthkittery13678f/index.htm>.

1.12 Rules of Contact

The following rules of contact shall apply during the procurement for the Project. These rules are designed to promote a fair, unbiased, legally defensible procurement process. Contact includes face-to-face, telephone, facsimile, e-mail, or formal written communication.

NHDOT's Chief Project Manager, Keith A. Cota, P.E., will serve as the primary point of contact during the RFQ procurement phase of the Project. A core team of engineering, operations, contracts, and public relations staff members and advisors will support Mr. Cota, including those groups listed in Section 2.3 below. As the NHDOT point of contact, Mr. Cota is NHDOT's sole contact person and addressee for receiving all communications about the Project during the RFQ procurement process, and Design-Build Teams are prohibited from contacting any NHDOT employee or any of the groups listed in Section 2.3, regarding the Project or this RFQ. Submit any and all inquiries and comments regarding the Project by fax, e-mail, or letter as follows. Only written inquiries will be accepted:

Mr. Keith A. Cota, P.E.
NHDOT: Chief Project Manager
Bureau of Highway Design
P.O. Box 483
Concord, New Hampshire 03302-0483

Mail:

Fax: 603.271.7025

E-mail: KCota@dot.state.nh.us

Mr. Keith A. Cota is the only individual allowed to discuss this RFQ with any interested parties, including Design-Build Teams. Any information from other sources may not be accurate, and use of such information is at the sole risk of the Design-Build Team(s).

1.12.1 Communication Process

NHDOT is the single source of information regarding the Contract procurement. The procurement process begins on the date of issuance of this RFQ, and is anticipated to be completed with the award of the Contract. The following rules of contact are now in effect:

- A) Contact between the Design-Build Teams and NHDOT (questions and responses to questions) shall only be through NHDOT's and Design-Build Team's designated representative. NHDOT's designated representative is identified in Section 1.12;
- B) The Design-Build Teams shall not contact NHDOT employees or advisors, including members of the evaluation committee(s) and any official who will evaluate SOQs, regarding the Project;
- C) The Design-Build Teams cannot contact employees of NHDOT, Maine DOT, the City of Portsmouth, NH, Town of Kittery, ME, and those parties identified under Section 2.3 regarding the Project;
- D) Any contact determined to be improper, at the sole discretion of NHDOT, may result in disqualification;
- E) Any official contact regarding the Project will be disseminated in writing from NHDOT on NHDOT letterhead and signed by NHDOT's primary point of contact identified in Section 1.12; and
- F) NHDOT will not be responsible for any oral communication or any other information or contact that occurs outside the official communication process specified herein.

1.13 Pre-Contractual Expenses and Stipend

Design-Build Teams are solely responsible for all costs and expenses of any nature associated with responding to this RFQ, including attending briefing(s) and providing supplemental information.

Subject to NHDOT Governor and Executive Council approval, NHDOT intends to establish a stipend for the Project during the RFP phase of the procurement process. Specific details regarding the maximum stipend amount to be paid out by the NHDOT during the RFP procurement phase, a Design-Build Team's eligibility to receive a stipend, the timing of stipend release to eligible Design-Build Teams, and the terms of stipend acceptance will be described in the forthcoming RFP documentation.

1.14 Conflict of Interest

NHDOT has established a Conflict of Interest requirement for the Project. This requirement specifies that no Design-Build Team member that has previously provided services or that is currently providing services to NHDOT with respect to the Project may participate as an equity owner, team member, consultant, or subconsultant of or to a Design-Build Team for the Project, or have a financial interest in any of the foregoing entities with respect to the Project (see [Section 2.3](#) for a list of consultants meeting this criteria).

Design-Build Team member participating in the Project shall arrange their affairs so as to prevent Conflicts of Interest from arising. Any Design-Build Team member having an actual, potential or perceived Conflict of Interest shall disclose the matter to NHDOT in writing. A private entity's failure to comply with this requirement may result in potential liability to NHDOT and to the private entity's preclusion from participation in the Project.

1.15 Design-Build Team Requirements

Completion Capability: Only prospective Design-Build Teams that have demonstrated the capability to complete this Project in its entirety will be eligible for short-list determination.

Organizational and Personnel Changes: Design-Build Teams are advised that, in order for a Design-Build Team to remain qualified to submit a Proposal after they have been short-listed, their organization, including all Major Participants, specialty subcontractors, and key management personnel identified in the SOQ, must remain intact for the duration of the procurement process and thereafter throughout the term of the Contract. A Design-Build Team may propose substitutions for participants after the SOQ submittal; however, such changes will require prior written approval by NHDOT, which may be granted or withheld at NHDOT's sole discretion. Requests for changes must be made in writing no later than 30 days prior to the due date for submittal of Proposals. The Design-Build Team should carefully consider the make-up of its team prior to submittal of the SOQ. Changes to the Design-Build Team's organization will be justification for NHDOT to revoke a previous determination of a short-listed Design-Build Team.

Minimum Requirements: In order to be short-listed, the Design-Build Team must meet all SOQ requirements as set forth in [Section 4.3.1](#), meet the minimum passing criteria for legal, financial, and safety requirements as set forth in [Section 4.3.2](#) for non-scored elements of the SOQ, and obtain a passing score on each of the scored elements of the SOQ as set forth in [Section 4.3.3](#).

Non-Disclosure Requirement: The Design-Build Team may be given access to records, which are confidential under State laws, solely for the purpose of performing the required services under the Contract. The Design-Build Team shall be required to sign a non-disclosure statement prior to its receipt of such documents obligating each employee, agent, or subcontractor of the Design-Build Team not to make inappropriate use of or improperly disclose any of the contents of such documents.

1.16 Equal Employment Opportunity

In connection with this RFQ and the Contract, Design-Build Teams shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, age, marital status, sexual orientation, or being physically challenged. Design-Build Teams shall take affirmative action to ensure that all applicants are treated during employment without regard to their race, color, religion, sex, national origin, age, marital status, or being physically challenged. Such action shall include, but not be limited to, the following: layoff or termination; rates of pay or other forms of compensation; employment; job assignment; upgrading; demotion; transfer recruitment/recruitment advertising; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training. Davis-Bacon wage rates are required.

1.17 DBE Goal

Policy: NHDOT shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any U.S. Department of Transportation (DOT)-assisted contract or in the administration of 49 CFR Part 26. For Federal-aid contracts, projects are subject to U.S. DOT DBE Design-Build provisions as set forth under Title 49 CFR Part 26 and subsequent publication of the Federal Register dated June 16, 2003 (Volume 68, Number 115). The Design-Build Teams shall take necessary and reasonable steps to ensure that businesses owned and controlled by socially and economically disadvantaged individuals are provided with a fair opportunity to participate in this Project.

As a part of the SOQ submission, Design-Build Teams responding to this RFQ must include with their submission a signed affidavit acknowledging the Firm's commitment to comply fully with U.S. DOT DBE Design-Build provisions as set forth under Title 49 CFR Part 26 and subsequent publication of the Federal Register dated June 16, 2003 (Volume 68, Number 115) and the Overall Project DBE Goal requirements as further defined in the RFP, when issued. Design-Build Teams shall complete and return Appendix C, Form T as part of the SOQ.

DBE Participation Goal: The "Provisional" Overall Project DBE Goal has been established at 4%. NHDOT is currently in the process of securing required approvals of the proposed Overall Project DBE goal from U.S. Department of Transportation (U.S. DOT).

1.18 Labor Policies

Prevailing Wages: State prevailing wages will apply to this contract. For Federal-aid contracts, Federal prevailing wages will also apply. The applicable prevailing wages will be specified in the RFP.

On the Job Training (OJT) Policy: For Federal-aid contracts, projects are subject to Federal OJT participation provisions as set forth under the FHWA-1273 Required Contract Provisions Federal-Aid Construction Contracts. Firms responding to this RFQ acknowledge such requirements and commit to fully comply with the Design-Build program provisions and Federal OJT trainee participation goal.

OJT Participation Goal: The Federal OJT participation goal for this Design-Build project is **8** Trainees.

Labor Compliance Program: NHDOT has a labor compliance program. The Design-Builder will need to comply with applicable requirements of the program. Further information regarding the labor compliance program will be included in the RFP.

1.19 Insurance, Bonds, and Guarantees

Bond Requirements: It is currently anticipated that the selected Design-Build Team will be required to submit payment and performance bonds upon execution of the Contract, each in the amount of **\$90 million**. Design-Build Teams will be required to demonstrate their capacity to obtain the required bonds.

Design-Build Teams shall attach a notarized statement from an admitted surety insurer authorized to issue bonds in the States of New Hampshire and Maine that states:

- Design-Build Team's current bonding capacity is sufficient for the Project and referenced payment and performance bonds; and
- Design-Build Team's current available bonding capacity.

Insurance Requirements: Design-Build Teams shall provide evidence of capability to provide insurance as provided in Section 3.3 (D). In addition, the selected Design-Builder will be required to indemnify NHDOT, Maine DOT, NHDOT's Consultants and others with respect to claims arising out of the Contract or Work.

Guarantees: Design-Build Teams are advised that if any Major Participant of the selected Design-Build Team's team does not have audited financial statements as described in Section 3.3, if the Design-Build Team is a newly formed entity or a limited liability entity, or if it fails to meet the minimum financial requirements stated in this RFQ and/or the RFP, NHDOT may require the Design-Build Team to provide a guarantee covering performance and financial obligations by a separate entity acceptable to NHDOT. Design-Build Teams shall also note that NHDOT may, in its discretion based upon the review of the information provided under Section 3.3, also specify that an acceptable guarantor is required as a condition of a determination of short-listing. Requirements for additional financial security will be included in the RFP.

2 BACKGROUND INFORMATION

2.1 Project Description

The Project is located in Rockingham County, New Hampshire and York County, Maine. A general description of the Project is contained in Appendix A.

The estimated cost of this Design-Build project (in 2010 U.S. dollars) is **\$90,000,000**.

2.2 Procurement Schedule

NHDOT anticipates the following dates as Project milestones leading to Contract award. This schedule is subject to revision, at the sole discretion of NHDOT, by the RFP and Addenda.

Event	Date
Issue RFQ	February 8, 2011
Final Date for Receipt of Design-Build Teams' Questions	March 4, 2011
SOQ Due Date	March 18, 2011
Anticipated Shortlist Determination	March 2011
Anticipated Issuance of Draft RFP	Second Quarter of 2011
Anticipated Issuance of Final RFP	Third Quarter of 2011
Anticipated Proposal Due Date	Fourth Quarter of 2011
Anticipate Public Bid Opening	Fourth Quarter of 2011
Anticipated Award & Notice to Proceed	Fourth Quarter of 2011

2.3 NHDOT Advisors/Consultant Support

NHDOT has engaged several advisors to assist and participate in the Project development stages, as well as assist NHDOT during the procurement process for the Project. Any advisory team member is prohibited from participating in any of the Design-Build Team organizations relating to this Project; providing technical, legal, or financial advice to Design-Build Teams; or directly discussing any aspect of the RFQ or RFP with any Design-Build Team.

The advisory team consists of the following:

- HDR, Inc.
- McFarland Johnson
- Hoyle, Tanner & Associates, Inc.

3 CONTENT OF STATEMENT OF QUALIFICATIONS

This section describes specific information that must be included in the SOQ. SOQs must follow the outline of Section 5. Design-Build Teams shall provide brief, concise information that addresses the requirements of the Project consistent with the evaluation criteria described in this RFQ.

3.1 Design-Build Team's Transmittal Letter

The Design-Build Team shall complete Appendix C, Form A. A duly authorized representative of the Design-Build Team's organization shall sign the letter. For Design-Build Teams that are joint ventures, partnerships, limited liability companies, or other associations, authorized representatives of all equity members of the Design-Build Team shall sign the letter.

The Design-Build Team shall complete Appendix C, Form U (Design-Build Team SOQ Certification), verifying the accuracy of the information submitted as part of the SOQ. For Design-Build Teams that are joint ventures, partnerships, limited liability companies, or other associations, authorized representatives of all equity members of the Design-Build Team shall sign the Design-Build Team SOQ Certification.

3.2 Legal Structure

Objective: To select Design-Build Teams whose organization, legal structure, team members, and history demonstrate the Design-Build Teams ability to remain stable and viable for the duration of the Project, and be contractually bound to NHDOT.

Submittal Requirements: Design-Build Teams shall address the following and submit it under Section 1 of the SOQ:

- A) Legal structure of the Design-Build Team and its organization. If the Design-Build Team organization has already been formed, provide complete copies of the organizational documents that allow, or would allow by the time of Contract award, the Major Participants to conduct business in the States of New Hampshire and Maine. If the Design-Build Team organization has not yet been formed, provide a brief description of the proposed legal structure or draft copies of the underlying agreements. In the event that final agreements between Major Participants have not been finalized at the time of the SOQ submittal, Major Participants shall submit letters of agreement signed by an authorized officer of each Major Participant noting the type of relationship to be entered into prior to the Proposal (i.e., joint venture, subcontract), and the commitment of the parties to finalize the organizational documents prior to the Proposal submittal. If Design-Build Team is a partnership, joint venture, or other association, the SOQ must identify the percentage equity interest of each member;
- B) If the Design-Build Team is a partnership, limited partnership, joint venture, or other association, all members of the Design-Build Team must agree to be fully liable for the performance under the design-build Contract by executing the transmittal letter appearing in Appendix C, Form A;
- C) Name and describe all Major Participants as defined in this RFQ;

- D) A statement from the Design-Build Team identifying any actual and/or potential conflicts of interests the firm may have with other clients they represent (refer to [Section 1.14](#));
- E) In cases where Major Participants on different Design-Build Team organizations belong to the same parent company, each Design-Build Team must describe how conflicts of interest would be avoided by the participants through the qualification and proposal phases of the Project. NHDOT may disqualify a Design-Build Team if any of its Major Participants belong to more than one Design-Build Team organization;
- F) Major Participants or if Design-Build Team is a partnership, joint venture, or other association, all equity members of Design-Build Team shall complete [Forms L-1 and L-2](#) found in [Appendix C](#); and
- G) Major Participants or if Design-Build Team is a partnership, joint venture, or other association, all equity members of Design-Build Team shall complete [Form T](#) found in [Appendix C](#).

3.2.1 Minimum Requirement for Legal Structure

A Design-Build Team must demonstrate the following:

- A) The Design-Build Team has the legal capability in State of Maine and New Hampshire to carry out the Project responsibilities potentially allocated to it, as demonstrated by the materials provided in Section 1 of the SOQ;
- B) Each of the equity members of the Design-Build Team have agreed to be fully and jointly and severally liable for performance under the Contract, as reflected in the executed Transmittal Letter, [Appendix C, Form A](#);
- C) The Design-Build Team has agreed to adhere to the Project's DBE requirements as provided in [Appendix C, Form T](#); and
- D) The information disclosed in the SOQ (including [L-1 and L-2](#)) does not materially adversely affect the Design-Build Team's ability to carry out the Project responsibilities potentially allocated to it.

3.3 Financial Capacity

Objective: To select Design-Build Teams whose team members possess the financial capacity to enter into a contract with NHDOT and the resources to successfully complete the Project.

Submittal Requirements: Design-Build Team shall address the following and submit it under Section 2 of the SOQ:

- A) Provide a letter or other written documentation from a surety or insurance company stating that the Design-Build Team is capable of obtaining a Performance Bond and Payment Bond (refer to [Section 1.19](#) for bond amounts) covering the Project and any warranty periods. Letters indicating "unlimited" bonding capability are not acceptable;
- B) Major Participants or if Design-Build Team is a partnership, joint venture, or other association, all equity members of Design-Build Team shall complete [Form B](#) (Backlog and Financial Information) found in [Appendix C](#);
- C) Major Participants or if Design-Build Team is a partnership, joint venture, or other association, all equity members of Design-Build Team shall complete [Form R](#) (Past Revenue) found in [Appendix C](#); and
- D) Design-Build Teams shall provide insurance certifications, either a certificate of insurance evidencing current policies of, or written evidence from an insurance company or broker indicating that the Design-Build Team is capable of obtaining the following types of insurance: Commercial General Liability, Errors and Omissions, Auto Liability, Workers' Compensation/Employers Liability, Pollution Liability, and Professional Liability insurance. Policy limit requirements will be specified in the RFP.

3.3.1 Minimum Requirement for Financial Capacity

A Design-Build Team must demonstrate its financial capability to carry out the Project responsibilities potentially allocated to it, as demonstrated by the materials provided in Section 2 of the SOQ, including but not limited to the following:

- A) The surety or insurance company shall be admitted to do business in the State of New Hampshire and State of Maine;
- B) The surety or insurance company must be rated in the top two categories by two nationally recognized rating agencies, or have a “Best’s Credit Rating” of at least “A minus” and “Class VIII” or better by A.M. Best Company;
- C) Design-Build Team shall demonstrate its ability to comply with the Project’s bonding requirements, as provided in [Section 1.19](#); and
- D) Design-Build Team’s Major Participants shall provide evidence of capability to provide insurance as provided in [Section 3.3 \(D\)](#).

3.4 Safety Program

Objective: To identify those Design-Build Teams that can demonstrate the ability to develop and implement an effective safety program.

Submittal Requirements: Design-Build Team shall address the following and submit it under Section 3 of the SOQ:

- A) Complete [Form S](#) found in [Appendix C](#) for each Major Participant.

3.4.1 Minimum Requirement for Safety Program

- A) Satisfactory safety records. Design-Build Team’s safety record shall be deemed acceptable if its experience modification rate for the most recent three-year period is an average of 1.00 or less, and its average total recordable injury/illness rate and average lost work rate for the most recent three-year period does not exceed the applicable statistical standard for its business category.
- B) Design-Build Team demonstrates an understanding of an effective safety program.

3.5 Firm Experience and Past Performance

Objective: To identify design and construction firms with demonstrated design-build experience or expertise, competence, capability, and capacity in, and record of producing quality work on projects similar to the Memorial Bridge Replacement Project.

Requirements and Information: The following shall be submitted under Section 4 of the SOQ:

- A) Provide a brief narrative summary of the capability and capacity of each Major Participant and the design firm. Summaries shall be a maximum of two pages for each firm; the format is at the discretion of the Design-Build Team;
- B) Design-Build Team shall use and complete [Forms PP-1 and PP-2](#) found in [Appendix C](#) for each Major Participant, based on experience over the past 5 years.
- C) Firm Experience: Using [Appendix C, Form E-1](#) (Project Description), show the firm’s experience by providing no more than four project descriptions for each Major Participant. Highlight experience in the past 15 years on completed projects having a scope comparable to that anticipated for the Project. The Designer is considered a key part of the Design-Builder’s organization, and the Designer’s experience must be identified in the SOQ. If Designer is a joint venture or partnership, each member or partner shall submit an independent [Form E-1](#). For the projects in which several of the proposed Major Participants were involved, Design-Build Teams may provide a single project description. Descriptions of design-build projects should highlight experience relevant to this Project that Major Participants have gained in the last 15 years. Describe design-build projects with levels of scope comparable to that anticipated for this Project. Describe the experiences that Major Participants could apply to this Project. In particular, demonstrate design-build experiences in each of the following areas:

- Designer’s transportation facility experience;
- Highway and moveable bridge structures;
- Urban reconstruction;
- Construction/reconstruction using innovative designs, methods, and materials;
- Construction in environmentally sensitive areas;
- Warranties;
- Design and construction activity interaction or integration; and
- Community relations (including website development and maintenance).

Each project description must include the following information as appropriate:

- Name of the project and the owner’s contract number;
- Owner’s name, address, contact person, and current telephone and fax numbers;
- Dates of design, construction, management, and/or warranty periods;
- Description of the work or services provided and percentage of the overall project actually performed by (each of) the Principal/Major Participant(s);
- Description of how, if any, the Principal/Major Participants have worked together in the past and the experience such Principal/Major Participants have in conventional design-bid-build and design-build projects of comparable size;
- Initial construction bid price and final construction contract price for the project, including the quantity and dollar value of contract modifications and claims, and an explanation of the causes for construction contract change(s), whether upward or downward; and
- Record of cost and schedule growth or reduction, including experience with techniques to achieve goals of avoiding delays and minimizing claims.

D) Penalties, Claims/Litigation, and Termination: Design-Build Team shall use and complete Form PP-1 found in Appendix C for each Major Participant to address the following issues as appropriate for the past 5 years.

- Describe any project that resulted in assessment of liquidated damages against any Major Participant within the last five years. Describe the delays and the amounts assessed.
- Describe any outstanding damage claims for projects in which any of the Major Participants were involved within the last five years.
- Describe the conditions surrounding any contract (or portion thereof) entered into by any Major Participant within the last five years that has been terminated for cause or that required completion by another party. Describe the reasons for termination and the amounts involved.
- For each instance of litigation, liquidated damages, or termination for cause, identify the project owner’s representative and his or her current phone number.

3.5.1 Firm Experience and Past Performance Evaluation Criteria

Successful Design-Build Teams will have demonstrated design-build experience in the following:

- A) Experience in successfully managing, designing, and constructing projects of the size and complexity of this Project;
- B) A record of completing contracts on time and within the fixed price;
- C) Experience in successfully constructing major structures in sensitive environmental areas and community areas, managing the maintenance of traffic, roadway design and construction, movable bridge design and construction, marine and environmental permitting, and implementing community relations and outreach programs of projects of the size and complexity of this Project;
- D) A record of managing contracts to minimize delays, claims, dispute proceedings, litigation, and arbitration;

- E) The technical and management experience and expertise to plan, organize, and execute the design and construction of, and assure the quality and safety of the Project;
- F) The ability to effectively manage all aspects of the Contract in a quality, timely, and effective manner and integrate the different parts of its organization with NHDOT and Maine DOT in a cohesive and seamless manner; and
- G) A design firm that has completed one or more contracts for design of a major movable bridge project comparable to the Project.

3.6 Design-Build Team Organization and Key Personnel

Objectives: To identify the qualified personnel for key positions with demonstrated experience and expertise and a record of producing quality work on projects of a similar nature to this Project. The key positions for the purposes of this RFQ are identified in Section 3.6.1.

Requirements and Information: The following information shall be submitted under Section 5 of the SOQ:

- A) **Organizational Chart(s):** Provide an organizational chart(s) showing the “chain of command,” with lines identifying participants who are responsible for major functions to be performed, and their reporting relationships, in managing, designing, and building the Project. The chart(s) must show the functional structure of the organization down to the design discipline leader or construction superintendent level and must identify Key Personnel by name. Key Personnel will be committed to the Project. Identify all Major Participants in the chart(s). Identify the critical support elements and relationships of Project management, Project administration, construction management, quality control, safety, environmental compliance, and subcontractor administration. For each organizational chart, provide a brief, written description of significant functional relationships among participants and how the proposed organization will function as an integrated design-build team. Changes to the Design-Build Team’s SOQ organization chart shall abide by the requirements identified in Sections 1.15 and 3.6.2;
- B) **Key Personnel:** Using Appendix C, Form E-3 (Proposed Key Personnel Information), list appropriate information on each Key Personnel position described in Section 3.6.1;
- C) **Required Resumes:** Resumes of Key Personnel, limited to two pages each will not be counted towards the overall SOQ page limit. The listing below describes the minimum Key Personnel for the Project. Personnel to staff these key functions, listed below in Section 3.6.1, shall be identified in the required Organizational Chart;
- D) **Required Licenses:** Evidence that the Design-Build Team and all Major Participants have, or at the time of Contract award will have, all licenses, registration, and credentials required to design and construct the Project. Such information shall include any information on the revocation or suspension of any license, credential, or registration. At the time the Contract is awarded, the Design-Builder shall be properly prequalified and licensed in accordance with the laws of this State. Failure of the Design-Build Team to obtain proper and adequate licensing for an award of a contract shall constitute a failure to execute the Contract and shall result in the forfeiture of the security of the Design-Build Team; and
- E) **Subcontractor Information:** Using Appendix C, Form E-2 (Subcontractor Information), identify subcontractors, except for the designated Designer (which is included on Appendix C, Forms L-1 and L-2), that the Design-Build Team plans to use, including Major Participants, specialty subcontractors, and subconsultants. Indicate what portion of the Work each subcontractor is anticipated to undertake. Submit maximum one-page summaries of experience for each listed subcontractor and subconsultant.

3.6.1 Preferred Qualifications of Key Personnel

The following provides a brief job description and duties of the Key Personnel assigned to the Project. All Key Personnel will be required to be on-site during activities that involve their areas of responsibility or as indicated below. The Design-Build Team shall provide three references for each of the Key Personnel positions identified in this RFQ. The number of years of experience listed for each Key Personnel represents a target goal for evaluation purpose and should not be considered as a mandatory minimum requirement for that position.

A) Project Manager:

- The Project Manager shall be the individual responsible for the overall design, construction, quality, and contract administration for the Project. The Project Manager shall be assigned to the Project full time and will be required to be on-site during critical design and construction activities for the duration of the Project.
- Twenty years of experience managing complex infrastructure projects including movable bridges.
- Ten years experience managing the design and construction of major bridge projects.
- Five years of major design-build project management of infrastructure projects with a value in excess of \$50M.

B) Construction Manager:

- Fifteen years of experience managing complex infrastructure projects. The Construction Manager will be assigned to the Project full time and will be required to be on-site during critical construction activities for the duration of the Project.
- Ten years of experience managing the construction of major bridge projects with a minimum of two vertical lift bridges.

C) Design Manager:

- The Design Manager will be assigned full time and will work directly for the Design-Builder under the direct supervision of the Project Manager. The Design Manager will be the individual responsible for coordinating the design of the individual design disciplines and will be responsible for ensuring that the overall Project design is completed and design criteria requirements are met. The Design Manager will be assigned full time until the design is 100% complete and as required during the construction phase of the Project. The Design Manager will be responsible for design quality management. The Design Manager is the Engineer of Record who will have primary responsibility for design work under the contract.
- Fifteen years of experience managing complex movable bridge design projects.
- Must be a registered professional engineer (structural discipline) in the State of New Hampshire and State of Maine now or by the time the initial notice to proceed is issued.
- Ten years of experience in the design of vertical lift bridge rehabilitation and/or new construction projects.

D) Quality Control Administrator:

- Must be a registered professional engineer in the State of New Hampshire and State of Maine now or by the time the initial notice to proceed is issued.
- Fifteen years of experience managing complex transportation/infrastructure projects.
- Five years of major design-build construction management of transportation projects.
- The Quality Control Administrator will work directly for the Design-Builder under the direct supervision of the Project Manager. The Quality Control Administrator will be available to the Project full time for the duration of the Project.
- The Quality Control Administrator shall be responsible for overall management of the Quality Control System as established in the Quality System Manual.
- The Quality Control Administrator must not be assigned any other duties or responsibilities on this

Project or any other projects unless approved by NHDOT.

- The Quality Control Administrator shall have the authority to stop any and all work, including construction that does not meet the standards, specifications, or criteria established for the Project.

E) Design Quality Control Manager:

- Must be an engineer with a Bachelor of Science degree in Civil Engineering and have a minimum of 10 years experience in highway and/or bridge design.
- The Design Quality Control Manager shall report directly to the Quality Control Administrator.
- The Design Quality Control Manager shall be responsible for implementation of all design Quality Control procedures and activities as established in the Quality System Manual.

F) Construction Quality Control Manager:

- Must be an engineer with a Bachelor of Science degree in Civil Engineering and shall be certified as a NETTCP QA Technologist now or by the time the initial notice to proceed is issued and have a minimum of 10 years experience in highway and/or bridge design.
- The Construction Quality Control Manager shall report directly to the Quality Control Administrator.
- The Construction Quality Control Manager shall be responsible for implementation of all construction Quality Control procedures and activities as established in the Quality System Manual.

G) Environmental Compliance Manager:

- The Environmental Compliance Manager will work directly for the Design-Builder under the direct supervision of the Project Manager. The Environmental Compliance Manager will be available to the Project full time and will be required to be on-site during critical activities for the duration of the Project.
- Ten years of experience implementing environmental programs on complex transportation/infrastructure projects.
- Five years of experience in securing marine and environmental permits.
- The Environmental Compliance Manager must not be assigned any other duties or responsibilities on this Project unless approved by NHDOT.

H) Safety Manager:

- Work directly for the Design-Builder and report directly to the Project Manager. The Safety Manager will be available to the Project full time and will be required to be on-site during critical construction activities of the Project.
- Fifteen years of experience managing complex transportation/infrastructure projects.
- Five years of major design-build construction management of transportation projects.
- The Safety Manager must be familiar with FHWA work zone safety regulations and must have at least ten years of experience working in roadway work zone safety and OSHA Regulations.

3.6.2 Changes in Design-Build Team Organization and Key Personnel

NHDOT and Maine DOT wants to ensure that Design-Build Teams are able to develop and attract the greatest range and depth of expertise as may be necessary to participate in the procurement, design, and construction of the Project in an innovative, effective, and efficient manner. Accordingly, NHDOT shall permit Design-Build Teams to add team members and reorganize the Design-Build Team entity through the procurement process until submittal of the Proposals as described herein, except in the event of potential organizational conflicts of interest and/or deficiencies in qualifications and experience for the proposed role. Notwithstanding the foregoing, and subject to [Section 1.15](#), following submittal of the SOQs, the following actions may not be undertaken without NHDOT's prior written consent, in its sole discretion:

- Deletion or substitution of a Design-Build team member identified in its SOQ (i.e., Major Participants, Designer);
- Deletion or substitution of Key Personnel identified in [Section 3.6.1](#) of this RFQ and [Appendix C, Form E-3](#) of its SOQ;
- Deletion or substitution of an equity owner of Design-Build Team or Major Participant, or any other entity that will bear financial responsibility or liability for the performance of the Design-Build Team; and
- Other changes in the equity ownership or team membership of a Design-Build Team.

Should a Design-Build Team wish to make such a change, they shall notify and request NHDOT's consent in writing and shall provide, for any new or substitute entity, the same information required under this RFQ for such entity had it been part of the Design-Build Team as of the SOQ submission (including, without limitation, legal, financial, qualifications/experience, and other). If a Design-Build Team wishes to delete an entity, they shall provide NHDOT with information establishing that the Design-Build Team remains qualified as contemplated under this RFQ. Failure to secure the consent of NHDOT may, at NHDOT's sole discretion, result in the Design-Build Team being disqualified from the short-listing process.

3.7 Project Understanding and Approach

Objective: To identify those Design-Build Teams that demonstrate the following: (i) an understanding of and approach to the management, technical aspects, and maintenance of traffic issues and risks associated with the Project; (ii) an understanding of and approach to how the design-build process and the Design-Build Team's organization will contribute to the success of the Project and meet the Project goals; and (iii) an understanding of the risk sharing and the teaming relationship between the Design-Builder and NHDOT.

Submittal Requirements: Requirements and information to be submitted under Section 6 of the SOQ include:

- A) Narrative description of the Design-Builder's management and organizational approach for accomplishing the design-build Project. The narrative should describe the methodology for integrating the design-build entity and the different areas of expertise within the team into an efficient and effective organization. The management approach must reflect an understanding of the use of the design-build project delivery methodology for transportation infrastructure projects. The narrative shall also provide a brief description of the significant functional relationships among participants outlined in the organization chart as described in [Section 3.6](#) and how the proposed organization will function as an integrated design-build entity and how it will work effectively with NHDOT; and
- B) Brief description of how the Design-Build Team will use its organization and the design-build process to ensure a successful Project, considering the Project goals listed in [Section 1.3](#).

3.8 Quality Assurance Program

Objective: To identify those Design-Build Teams that can demonstrate the best approach in implementing a Quality Assurance Program under a design-build project in which NHDOT will manage and perform construction the Design Acceptance and Construction Acceptance functions, while the Design-Build Team is responsible for implementing a Quality Control System that addresses Design Quality Control and Construction Quality Control.

Submittal Requirements: NHDOT has established overall Quality Assurance (QA) requirements for Design-Build projects. This includes a Design QA Program to address quality in the design process and a Construction QA Project to ensure the quality of construction. Requirements and information to be submitted under Section 7 of the SOQ include a written approach with respect to Quality Assurance. The Design-Build Team's approach should demonstrate an understanding of the following attributes:

- A) Design Quality Control;
- B) Construction Quality Control;
- C) Coordination between NHDOT and the Design-Builder organization; and
- D) Coordination with other agencies.

A preliminary Quality System Manual (QSM) is not required under the RFQ submittal process but will be a requirement of the short-listed Design-Build Teams during the RFP phase.

4 EVALUATION PROCESS

Section 4 outlines the evaluation factors for the RFQ phase of the procurement. This information is intended to assist Design-Build Teams in organizing their teams and preparing their SOQs.

4.1 SOQ Evaluation

Evaluation Process: NHDOT and Maine DOT will evaluate the SOQs based on the rating and scoring information outlined in this Section 4. As a result, each Design-Build Team submitting a responsive SOQ will be eligible to receive an overall rating of either "short-listed" or "not short-listed." In order to be short-listed, the Design-Build Team must meet or exceed the evaluation and scoring criteria as established in Section 4.4. A "fail" or "not short-listed" rating in any of the categories identified in Section 4.3 will result in an overall rating of not short-listed. Only those Design-Build Teams that are short-listed will be allowed to participate in the RFP 'best-value' procurement process.

Interviews: NHDOT reserves the right to conduct oral interviews with all potential Design-Build Teams prior to short-listing determination. The Technical Review Committee (TRC) as part of its evaluation may complete these interviews during the overall SOQ submittal process and scoring. The chairperson following receipt of the SOQs, if elected by NHDOT, will determine the exact schedule for oral interviews.

4.2 Evaluation Objective

The objective of the RFQ step of the procurement is to pre-qualify Design-Build Teams having the legal, technical, financial, and management capability, capacity, and experience necessary to successfully undertake and complete the Work. The Design-Builder will have primary responsibility to plan, design, manage, and control the Project and to complete the Project on or ahead of schedule. NHDOT and Maine DOT have set high responsibility standards for the Design-Builder, which is reflected in the evaluation factors of this RFQ and will be reflected in the RFP and the Contract.

4.3 SOQ Evaluation Factors

The information submitted in accordance with Section 3 will be evaluated by the Technical Review Committee (TRC) in accordance with the initial responsiveness review as defined in Section 4.3.1, the non-scored categories listed in Section 4.3.2, and the scored categories as set forth in Section 4.3.3.

4.3.1 Initial Responsiveness Review

Each SOQ will initially be reviewed on a pass/fail basis for: (i) minor informalities, irregularities, and apparent clerical mistakes which are unrelated to the substantive content of the SOQ; (ii) the Proposal's conformance to the RFQ instructions regarding organization and format; and (iii) the responsiveness of the Design-Build Team to the requirements set forth in the RFQ.

NHDOT may allow certain deficiencies in the SOQs relating to the above factors to be corrected through clarifications, but shall have no obligation to do so. Design-Build Teams shall correct the deficiencies in the timeframe set forth by NHDOT or risk being excluded from further consideration. NHDOT may also exclude from consideration any SOQ that contains a material misrepresentation.

4.3.2 Non-Scored SOQ Categories

Each non-scored category of a responsive SOQ will be evaluated on a non-scored pass/fail basis. For an SOQ to achieve a passing rating, each of the following categories shall meet the minimum requirements as set forth below:

- A) Legal: The SOQ complies with and meets or exceeds the minimum requirements listed in Section 3.2.1.
- B) Financial: The SOQ complies with and meets or exceeds the minimum requirements listed in Section 3.3.1.
- C) Safety: The SOQ complies with and meets or exceeds the minimum requirements listed in Section 3.4.1.

4.3.3 Scored SOQ Categories

Each scored category of a responsive SOQ will be evaluated and scored by the TRC according to the following, using the scoring form provided in Attachment 1:

- A) *Design-Build Team Organization and Key Personnel and Firm Experience and Past Performance*. The SOQ will be evaluated and a single score will be established for this category by combining the following elements:
 - 1) *Firm Experience and Past Performance*: The SOQ will be evaluated against the criteria established under Section 3.5.1.
 - 2) *Design-Build Team Organization and Key Personnel*: The SOQ will be evaluated against the criteria established under Section 3.6.1.
- B) *Project Understanding and Approach and Quality Management Program*. The SOQ will be evaluated and a single score will be established for this category by combining the following elements:
 - 1) *Project Understanding and Approach*: As defined under Section 3.7, the SOQ demonstrates sound understanding and approach.
 - 2) *Quality Management Program*: As defined under Section 3.8, the SOQ demonstrates a sound approach to implementing a Quality Management Program.

4.4 Evaluation and Scoring Process

The TRC will evaluate the non-scored SOQ categories as defined under Section 4.3.2. The TRC will evaluate the scored categories as defined under Section 4.3.3 based on the scoring outline in Attachment 1.

To short-list, a Design-Build Team will be required to meet the following standards:

- A) For each of the non-scored SOQ categories, meets or exceeds the minimum passing requirements as set forth under Section 4.3.2; and
- B) For each of the scored SOQ categories, obtains a passing grade based on the following minimum scoring criteria:
 - 1) For the *Design-Build Team Organization and Key Personnel and Firm Experience and Past Performance* categories, achieves a passing score of 39 or greater. The maximum score under this category is 60.
 - 2) For the *Project Understanding and Approach and Quality Management Program* categories, achieves a passing score of 26 or greater. The maximum score under this category is 40.

Once scoring of all SOQs has concluded, the TRC rank the SOQs from highest to lowest scores. NHDOT intends to short-list between three and five Design-Build Teams for continuation in the RFP 'best-value' procurement process. If only one Design-Build Team responds to the RFQ or attains short-list status, NHDOT may re-advertise or cancel the Project as it deems necessary.

4.5 Notification of Short Listing

Upon completion of the SOQ evaluation and scoring process, NHDOT will notify each Design-Build Team in writing whether or not it has obtained short-list status. NHDOT will also publish the list of Design-Build Teams attaining short-list status on its website: <http://www.nh.gov/dot/projects/portsmouthkittery13678f/index.htm>.

Announcement of short-listing may be expected not later than the date specified in Section 2.2.

5 SOQ SUBMITTAL REQUIREMENTS

The following sections describe requirements that all Design-Build Teams must satisfy in submitting SOQs. Failure of any Design-Build Team to submit its SOQ as required in this RFQ may, at NHDOT's sole discretion; result in rejection of its SOQ. All rejected SOQs will be returned to the contact person identified in the SOQ.

5.1 General Requirements

Required forms for the SOQ are contained in Appendix C. Any material modification to the forms may result in the SOQ being declared non-responsive.

Design-Build Teams shall provide brief, concise information that addresses the objectives and the requirements of the Project consistent with the evaluation factors described in Section 4.3. Lengthy narratives containing extraneous information are discouraged.

If the Design-Build Team submits information in its SOQ that it believes to be protected records under the New Hampshire Right to Know Law (RSA 91A) and that it wishes to protect from disclosure, the Design-Build Team shall mark such information as provided in Section 6.2.

5.2 Due Date, Time, and Location

All SOQs must be received by 3:00 pm Eastern Standard Time on the day specified in Section 2.2 and delivered to the following:

SOQs delivered in person or by a means other than the U.S. Postal Service shall be submitted to the following:

**New Hampshire Department of Transportation
7 Hazen Drive
Concord, NH 03302
Attention: Mr. Craig A. Green, P.E. – Assistant Director of Project Development**

SOQs delivered using the U.S. Postal Service shall be addressed as follows:

**New Hampshire Department of Transportation
P. O. Box 483
Concord, NH 03302-0483
Attention: Mr. Craig A. Green, P.E. – Assistant Director of Project Development**

Any SOQ that fails to meet the deadline will be rejected without opening, consideration, or evaluation and will be returned, unopened, to the sender.

5.3 Format Requirements

A Design-Build Team's SOQ format must adhere to the requirements outlined in Appendix B.

The front cover of each SOQ must be labeled with "Memorial Bridge Replacement Project," "Statement of Qualifications," and the date of submittal.

5.4 Quantities

Each Design-Build Team must provide NHDOT with one original and the number of SOQ copies as identified below. Each copy must be identified on its front cover, in the upper right-hand corner, as "Copy ___ Of 10 Copies."

All 11 binders (original and 10 copies) must be packed together in one sealed package. The outside of the sealed package must be clearly identified, labeled, and addressed as follows:

- A) Return address: Design-Build Team's name, contact person's name, mailing address;
- B) Date of submittal; and
- C) Contents labeled as "Memorial Bridge Replacement Project" and "Statement of Qualifications."

5.5 Challenges

The decision of NHDOT as to Design-Build Team short-list and the subsequent award of the Contract shall be final and shall not be appealable, reviewable, or reopened in any way, except as provided in Section 6. Parties participating in the RFQ phase of this procurement shall be deemed to have accepted this condition and all other requirements of this RFQ.

6 PROTEST PROCEDURES AND PUBLIC RECORDS ACT

6.1 RFQ Protest

Section 6.1 sets forth the exclusive protest remedies available with respect to this RFQ. Each Design-Build Team, by submitting its SOQ, expressly recognizes the limitation on its rights to protest contained herein, expressly waives all other rights and remedies, and agrees that the decision on any protest, as provided herein, shall be final and conclusive unless wholly arbitrary. These provisions are included in this RFQ expressly as consideration for such waiver and agreement by the Design-Build Teams. If a Design-Build Team disregards, disputes, or does not follow the exclusive protest remedies set forth in this RFQ, it shall indemnify, defend, and hold harmless NHDOT, its directors, officers, officials, employees, agents, representatives, and consultants from and against all liabilities, expenses, costs (including attorneys' fees and costs), fees, and damages incurred or suffered as a result of such Design-Build Team's actions. The submission of an SOQ by a Design-Build Team shall be deemed the Design-Build Team's irrevocable and unconditional agreement with such indemnification obligation.

6.1.1 Written Protest Only

All protests must be in writing. Protests shall be submitted to:

Mr. Craig A. Green, P.E.
NHDOT: Assistant Director of Project Development
Executive Office
P.O. Box 483
Mail: Concord, NH 03302-0483
Fax: 603.271.7025
E-mail: CGreen@dot.state.nh.us

Any protest not set forth in writing within the time limits specified in these procedures is null and void and shall not be considered.

The protestor shall have the burden of proving its protest by clear and convincing evidence. No hearing will be held on the protest, but the NHDOT designee, whose decision shall be final and conclusive, shall decide it, on the basis of the written submissions. The NHDOT designee shall issue a written decision regarding any protest to each Design-Build Team.

6.1.2 Protest Contents

- A) All protests must include the following:
 - 1) The name and address of the Design-Build Team;
 - 2) The Project name and Project number;
 - 3) A detailed statement of the nature of the protest and the grounds on which the protest is made; and
 - 4) All factual and legal documentation in sufficient detail to establish the merits of the protest. Evidentiary statements must be provided under penalty of perjury.
- B) The protestor must demonstrate or establish a clear violation of a specific law or regulation.
- C) NHDOT will not be obligated to postpone the SOQ due date specified in Section 2.2 or short-list announcement in order to allow a protestor an opportunity to correct a deficient protest or appeal, unless otherwise required by law or regulation.
- D) If the protest is denied, the protestor shall be liable for NHDOT's costs reasonably incurred in any action to defend against or resolve the protest, including legal and consultant fees and costs and any unavoidable damages sustained by NHDOT as a consequence of the protest. If the protest is granted, NHDOT shall not be liable for payment of the protestor's costs.

6.1.3 Protest Regarding RFQ or Procurement Process

- A) All protests regarding this RFQ or the related procurement process shall be filed with NHDOT not less than seven calendar days prior to the SOQ due date specified in Section 2.2.
- B) NHDOT will promptly make a determination in writing regarding the validity of the protest and whether or not the RFQ process should be delayed beyond the scheduled SOQ due date specified in Section 2.2.
- C) If NHDOT determines that the scheduled SOQ due date specified in Section 2.2 should be delayed, all Design-Build Teams will be notified by written addendum of the delay and the reason thereof.
- D) If all or any portion of the protest is determined to be valid, the NHDOT designee will respond in writing to each material issue determined to be valid raised in the protest in a timely manner prior to NHDOT proceeding further with the RFQ.
- E) The failure of a Design-Build Team to file a basis for a protest regarding this RFQ shall preclude consideration of that ground in any protest regarding the short-list determination, unless such ground was not and could not have been known to the Design-Build Team in time to protest prior to the final date for such protests.

6.1.4 Protest Regarding Pre-Qualification Decision

- A) If the short-list decision is being protested, a protestor shall protest in writing to the NHDOT designee as soon as practical, but not later than seven calendar days after the protestor knew or should have known it had not attained short-list status. If the protest has been filed in a timely manner, the NHDOT designee will promptly make a determination in writing regarding the validity of the protest and whether or not the procurement should be delayed, or the short-list status should be considered for revision.
- B) If the procurement is delayed, all Design-Build Teams will be notified of the delay. The NHDOT designee will respond in writing to each material issue raised in the protest in a timely manner prior to proceeding further with the procurement.
- C) Should a protestor wish to appeal the decision of the NHDOT designee concerning short-listing decision, a protestor shall follow the procedures in Section 6.1.5.

6.1.5 Right of Appeal

- A) In the event that a protestor receives an unfavorable decision from the NHDOT designee to its protest, the protestor shall have the right to appeal the decision of the NHDOT designee by submitting a written appeal to NHDOT's Commissioner or his designee within seven calendar days after receipt of the decision of the NHDOT designee.
- B) The Commissioner or his designee will notify the protester in writing in a prompt manner of its decision regarding the protest and the appeal. The decision of the Commissioner or his designee shall be final and not appealable.

6.2 Public Records Act

All written correspondence, exhibits, photographs, reports, printed material, tapes, electronic disks, and other graphic and visual aids submitted to NHDOT during this procurement short-listing process, including as part of the response to this RFQ, are, upon their receipt by NHDOT, the property of NHDOT and are subject to the New Hampshire Right to Know Law (RSA 91A). None of the aforementioned materials will be returned to the submitting parties. Design-Build Teams should familiarize themselves with the provisions of the New Hampshire Right to Know Law (RSA 91A). In no event shall NHDOT, or any of its agents, representatives, consultants, directors, officers, or employees be liable to a Design-Build Team for the disclosure of all or a portion of an SOQ submitted under this RFQ.

If a Design-Build Team has special concerns about information that it desires to make available to NHDOT but which it believes constitutes a trade secret, proprietary information, or other information excepted from disclosure, such Design-Build Team should specifically and conspicuously designate that information as "TRADE SECRET" or "CONFIDENTIAL" in its filed response to this RFQ. Blanket, all-inclusive identifications by designation of whole pages or sections as containing proprietary information, trade secrets, or confidential commercial or financial information shall not be permitted and shall be deemed invalid. The specific proprietary information, trade secrets, or confidential commercial and financial information must be clearly identified as such. NHDOT and Maine DOT will endeavor to advise the Design-Build Team of any request pursuant to the New Hampshire Right to Know Law (RSA 91A) and any other applicable laws for the disclosure of any material properly labeled as proprietary, trade secret, or confidential so as to allow the Design-Build Team the opportunity to seek a court order to protect such materials from disclosure. Under no circumstances, however, will NHDOT or Maine DOT be responsible or liable to the Design-Build Team or any other party for the disclosure of any such labeled materials, whether the disclosure is deemed required by law, by an order of court, or occurs through inadvertence, mistake, or negligence on the part of NHDOT and Maine DOT or its officers, employees, contractors, or consultants.

NHDOT will not advise a submitting party as to the nature or content of documents entitled to protection from disclosure under the New Hampshire Right to Know Law (RSA 91A) or other applicable laws, as to the interpretation of the New Hampshire Right to Know Law (RSA 91A) or as to the definition of trade secret. The submitting party shall be solely responsible for all determinations made by it under applicable laws and for clearly and prominently marking each and every page or sheet of materials with "TRADE SECRET" or "CONFIDENTIAL" as it determines to be appropriate. Each submitting party is advised to contact its own legal counsel concerning the New Hampshire Right to Know Law (RSA 91A) and other applicable laws and their application to the submitting party's own circumstances.

In the event of litigation concerning the disclosure of any material submitted by the submitting party, Maine DOT and NHDOT's sole involvement will be as a stakeholder retaining the material until otherwise ordered by a court, and the submitting party shall be responsible for otherwise prosecuting or defending any action concerning the materials at its sole expense and risk. The submitting party shall reimburse NHDOT for any expenses it incurs in connection with any such litigation.

7 DEBRIEFING MEETINGS

Once NHDOT awards the Contract to a Design-Builder, NHDOT will arrange meetings with each of the Design-Build Team organizations if requested.

8 NHDOT RESERVED RIGHTS

NHDOT may investigate the qualifications of any Design-Build Team under consideration, may require confirmation of information furnished by a Design-Build Team, and may require additional evidence of qualifications to perform the Work described in this RFQ. NHDOT reserves the right, in its sole and absolute discretion, to:

- A) Accept or reject any and all submittals, responses and proposals, or any parts thereof, received at any time.
- B) Waive any informalities, irregularities, and omissions in the information contained in the SOQs, or permit corrections to data submitted with any response to this RFQ until such time as NHDOT declares in writing that a particular stage or phase of its review of the responses to this RFQ has been completed and closed.
- C) Modify all dates set or projected in this RFQ.
- D) Terminate evaluations of responses received at any time.
- E) Withdraw or cancel this RFQ or the subsequent RFP in whole or in part at any time prior to the execution by NHDOT of a design-build contract, without incurring any cost obligations or liabilities.
- F) Permit submittal of addenda and supplements to data previously provided with any response to this RFQ until such time as NHDOT declares in writing that a particular stage or phase of its review of the responses to this RFQ has been completed and closed.
- G) Adjust, increase, limit, suspend, or rescind the short-list rating based on subsequently learned information.
- H) Permit Design-Build Entities to add or delete firms and/or key personnel until such time as NHDOT declares in writing that a particular stage or phase of its review has been completed and closed.
- I) Add or delete Design-Builder responsibilities from the information contained in this RFQ or the subsequent RFP.
- J) Waive deficiencies in an SOQ, accept and review a non-conforming SOQ, or seek clarifications or supplements to an SOQ.
- K) Disqualify any Design-Builder that changes its submittal without NHDOT approval.
- L) Add or modify its reserved rights in the subsequent RFP.
- M) Make all final determinations.
- N) Appoint a selection committee and evaluation teams to review SOQs and seek the assistance of outside technical experts in the SOQ evaluation.
- O) Disallow the use of particular subcontractors and/or substitutions and/or changes in SOQs.
- P) Hold meetings and conduct discussions and correspondence with one or more of the Design-Builders responding to this RFQ to seek an improved understanding and evaluation of the responses to this RFQ.
- Q) Seek or obtain data from any source that has the potential to improve the understanding and evaluation of the responses to this RFQ.

The RFQ does not commit NHDOT to enter into a Contract, nor does it obligate NHDOT to pay for any costs incurred in preparation and submission of the SOQs or in anticipation of a Contract. By submitting an SOQ, a Design-Build Team disclaims any right to be paid for such costs.

The execution and performance of a Contract pursuant to this RFQ and any subsequent RFP is contingent on sufficient appropriations and authorizations being made by the Legislatures of New Hampshire and Maine, or the Congress of the United States, for performance of a Contract between the successful Design-Build Team and NHDOT.

In no event shall NHDOT be bound by, or liable for, any obligations with respect to the Work or the Project until such time (if at all) as the Contract, in form and substance satisfactory to NHDOT, has been executed and authorized by NHDOT and approved by all required parties, and then only to the extent set forth therein.

8.1 NHDOT Disclaimers

In issuing this RFQ and undertaking the procurement process contemplated hereby, NHDOT specifically disclaims the following:

- A) Any obligation to award or execute a Contract pursuant to this RFQ or the RFP or to issue an RFP; and
- B) Subject to Section 1.13, any obligation to reimburse a Design-Build Team for any costs it incurs under this procurement.

In submitting an SOQ in response to this RFQ, the Design-Build Team is specifically acknowledging these disclaimers.

APPENDIX A:
PROJECT DESCRIPTION, DESIGN-BUILDER
RESPONSIBILITIES, AND PROJECT STATUS

Appendix A – Table of Contents

- 1 Project Description
- 2 Design and Construction Requirements
- 3 Design-Builder Responsibilities
- 4 Project Status
- 5 Additional Project Documentation

1 Project Description

The Memorial Bridge carrying US Route 1 over the Piscataqua River is a primary artery to carry vehicular, pedestrian and bicycle traffic between Portsmouth, New Hampshire and Kittery, Maine. The Memorial Bridge is considered to be a Historic Structure and iconic with the local community. The Memorial Bridge Replacement Project includes the following primary elements:

- 1) Replacement of the Fixed spans, Movable span, Towers; and abutments,
- 2) Increase the overall cross-section of the Memorial Bridge by four feet by providing for a 11-4 typical and a clear 6-foot sidewalk on each side as a minimum,
- 3) Maintain or improve the current navigational clearances in both the closed and open position,
- 4) Rehabilitation of the piers and existing fender system with the possibility of a new dolphin fendering system, if required,
- 5) Replacement of the Scott Avenue Bridge including piers, abutment and superstructure,
- 6) Replacement of the Kittery Approach Structure including piers, abutments and superstructure,
- 7) Relocation of Utilities and services for the structure, and
- 8) Civil, Highway and drainage improvements.

The Towers, Fixed spans, and Movable span for the Memorial Bridge are to be replaced with new structure, which is in compliance with the memorandum of understanding with the New Hampshire State Historic Preservation Office (SHPO) and Maine State Historic Preservation Office. This memorandum (which will be available to the Design-Build Teams during the RFP procurement process) requires that the structure meet Secretary of Interior Standards for Rehabilitation of Historic Buildings with special attention to items 9 and 10. A major goal of the new structure will be to eliminate details, which are prone to corrosion. The new fixed spans and movable span may consist of a similar truss design, which is visually similar to the existing span or any alternative design that meets the project's objectives while meeting the Secretary of Interior Standards for Rehabilitation of Historic Buildings.

The Memorial Bridge should be able to remotely operate other bridges or be remotely operated from another bridge or location.

A new dolphin fendering system may be constructed for the main bridge river piers in accordance with current standards. Strengthening and rehabilitation of the existing piers may be required based upon the new superstructure loads.

A major goal for the design of the Memorial Bridge is reduced long-term operating and maintenance costs of the lift structure and components.

The Scott Avenue Bridge shall be replaced and does not need to follow Secretary of Interior Standards for Rehabilitation of Historic Buildings. This work will include a detour of traffic, demolition of the existing structure and construction of the new structure along the lines of the work proposed in 2008 contract documents. The work shall be coordinated with any planned outages for the movable span to minimize impacts to the travelling public. A standby generator with automatic transfer switch and bridge operator parking shall be located under the new Scott Avenue Bridge within the existing right of way.

The Kittery Approach Structure shall be replaced with a low maintenance structure. The new structure should employ longer spans than the existing bridge, thus eliminating several existing piers. This work shall include detour of traffic, demolition of the existing structure and construction of the new structure. The work shall be coordinated with any planned outages for the movable span to minimize impacts to the traveling public. The new Kittery Approach spans do not need to follow Secretary of Interior Standards for Rehabilitation of Historic Buildings.

The contractor shall be responsible for utility coordination, civil work, drainage and all other work required to complete the Project.

Overall project expectations will be further defined in the RFP. .

2 Design and Construction Requirements

Design: The Project shall be designed to current NHDOT and Maine DOT Standards, and AASHTO LRFD design standards for movable bridges. The design shall meet the requirements of the memorandum of understanding with SHPOs and the United States Coast Guard (USCG) (both are still being developed and will be in more detail in the RFP). The Design-Builder will have as much flexibility in the design of the Project as applicable standards and environmental requirements allow. If any of the above items conflict, the Design Builder shall comply with the most stringent code unless approved otherwise by NHDOT.

Construction: It is anticipated that the Project will be constructed within the existing bridge right-of-way. The Project must be constructed so as to minimize the duration of the bridge and marine closure, which may be limited to 8 days as required under the previous project. Further requirements and details will be provided within the RFP.

3 Design-Builder Responsibilities

The successful Design-Builder will be responsible for furnishing all labor, material, plant, equipment, services, and support facilities for the following project elements. Specific Design-Builder responsibilities will be described in more detail during the RFP procurement process, general description of responsibilities may include but is not limited to:

- A) Design and construction of all Project components;
- B) Management of the project, design, and construction;
- C) Support NHDOT Project-related public involvement activities;
- D) Coordination with Project stakeholders, and utility owners;
- E) Design Quality Control;
- F) Construction Quality Control;
- G) Environmental mitigation and compliance monitoring;
- H) Securing certain environmental and construction permits;
- I) Perform additional environmental investigations, monitoring, and investigation associated with or resulting from Design-Builder's activities;
- J) Maintenance and protection of traffic, including both temporary and permanent access to properties;
- K) Project safety and security;
- L) Perform preliminary engineering, such as surveys and geotechnical investigations, to supplement data provided by NHDOT during the RFP process;
- M) Remediation of harmful and hazardous materials caused by the Design-Builder during design and construction;
- N) Installation of drainage and erosion control;
- O) Construction waste disposal and handling;
- P) Required clearances, licenses, construction easements, and permits for Design-Builder Work, Work sites, storage areas, etc., both on- and off-site;
- Q) Ancillary works, such as temporary fencing, relocation of drainage, Work sites, and temporary works;
- R) Material location and storage, acquisition, permits, and transportation;
- S) Utility coordination and (as required) relocation, and protection of existing utilities;
- T) Site clearance;
- U) Maintenance of the Project during the Contract period; and
- V) Transportation shuttle for bicyclist and pedestrians during bridge closure.

4 Project Status

The status of the Work being completed for the Project by NHDOT and Maine DOT is summarized as follows.

Survey: A preliminary topographic survey of the Project corridor has been performed by NHDOT. The RFP will include survey information collected by NHDOT in an electronic format. Additional miscellaneous survey information may also be provided in the RFP.

Preliminary Engineering: NHDOT is currently preparing preliminary engineering documentation for the Project. The RFP will include these preliminary engineering documents for Design-Build Teams' information.

Utilities: A preliminary Subsurface Utilities Engineering (SUE) analysis has been completed by NHDOT under the 2008 contract. The RFP will include copies of SUE information collected by NHDOT, along with established constraints and responsibilities for impacted utilities.

Funding: Full funding of the project is being pursued. NHDOT and Maine DOT are currently finalizing a Memorandum of Agreement, including financial responsibilities of each state, and will include the executed Agreement in the RFP.

National Environmental Policy Act (NEPA): The Project is currently undergoing NEPA environmental review by NHDOT and Maine DOT. It is important for Design-Build Teams to note, at this time, that the proposed Project remains in the environmental process and that NEPA approval has not been obtained. Additional alternatives, including a no-build alternative, are being considered in the environmental process, and it is possible that the Project scope may be modified through the environmental process or that a no-build alternative may be adopted. Nothing contained in this RFQ is intended to modify, limit, or otherwise constrain the environmental process or commit NHDOT and Maine DOT or any other entity to undertake any action with respect to the Project, including any procurement or the final design and construction of the proposed Project.

A Categorical Exclusion (CE) is currently being prepared by NHDOT and Maine DOT to satisfy the requirements of NEPA. The CE includes an evaluation and mitigation measures for the following resources:

- Aesthetics and Visual
- Air Quality
- Community Impacts / Environmental Justice
- Cultural Resources
- Hazardous Waste / Contaminated materials
- Wetlands, Water Quality
- Essential Fish Habitat
- Floodplains
- Land Use / Planning / Tax Base / Business Impacts
- Noise
- Public Services
- Construction Impacts
- Recreation / Public Lands
- Coastal Zone
- Transportation Patterns / Safety / Community Services
- Utilities
- Growth Inducement/Cumulative Impacts

The CE is expected to be approved by the Federal Highway Administration in May 2011.

Plans: As-built plans for the existing highway facility are available for review by the Design-Build Teams. Copies will be made available to Design-Build Teams during the RFP procurement process. Contract documents and plans developed for the rehabilitation of the Memorial Bridge in 2008 are also available.

Geotechnical: Soil boring information collected by NHDOT will be provided during the RFP procurement process.

Permitting: The Project will require several environmental, utility, and local permits/approvals. NHDOT and Maine DOT are responsible for obtaining the environmental permits described in the table below (unless noted otherwise). Utility permits and/or local permits will be the responsibility of the Design-Build team. Though NHDOT and Maine DOT may not have received final environmental permits when the RFP is issued, they expect to have permit conditions reasonably well defined by that time. NHDOT and Maine DOT expect to have the NEPA process completed and to have acquired all of the necessary environmental permits before the commencement of construction. However, anticipated permit issuance dates may change depending on design and other factors. The Design-Builder may be required to support the preparation of any remaining permits as needed, as final design proceeds, and Maine DOT and NHDOT will submit the permit applications. If the Design-Builder varies from the conceptual plans to a degree that would necessitate additional permits or permit amendments, any delay and associated costs caused by procuring the permits, will be the responsibility of the Design-Builder. Additional permits or permit amendments may affect the Project design and schedule. The following table summarizes the anticipated required permits/approvals to be acquired by NHDOT and Maine DOT and their associated status:

Anticipated Permits and Approvals Needed

Agency	Permit/Approval	Status
Federal Agencies		
United States Coast Guard	Coast Guard Bridge Permit	The application will be prepared and submitted in February 2011. It is anticipated that the permit will be issued August 2011.
	Section 7 of the Endangered Species Act	Consultation or conferencing will occur for any listed or proposed listings of endangered species (Atlantic Sturgeon) through the Coast Guard, ACOE and NEPA processes.
Federal Highway Administration	Categorical Exclusion	An Environmental Study (Categorical Exclusion) will be prepared and submitted in April 2011. Approval by FHWA is anticipated to be received in May 2011.
Environmental Protection Agency	NPDES	NPDES construction site permit is the responsibility of the contractor
U.S. Army Corps of Engineers	Section 404 permit	The Section 404 permit for NH is anticipated to be issued under the NH Programmatic General Permit and will be concurrent with issuance of the NH Dredge and Fill Wetland Permit. Section 404 permitting requirements for Maine are anticipated to fall under the Maine General Permit and will be issued concurrently with the New Hampshire permit. Endangered Species will be reviewed under the ACOE general permit. Special Conditions and in-water work timing restrictions may apply.

State Agencies - NH		
New Hampshire Department of Environmental Services (NHDES)	Standard Dredge and Fill Wetland Permit	The application will be submitted prior to the completion of the Environmental Study. It is anticipated that the permit will be received in April 2011
	Section 401 Water Quality Certification (NH)	The 401 Water Quality Certification will be issued concurrent with the Wetland Permit
	Coastal Zone Management Certificate (NH)	It is anticipated that the CZM certificate will be received in April 2011
	Shoreland Permit	The Shoreland application will be submitted in February 2011. It is anticipated that the permit will be received in May 2011.
State Agencies - ME		
Maine Department of Environmental Protection	Natural Resource Protection Act Permit (NRPA)	Maine DOT will submit the NRPA permit application when appropriate design and impact footprints can be determined. An NRPA individual permit can take up to 4 months to receive. If Impact footprints are received in February 2011, then a ME DEP NRPA permit would be anticipated in June 2011. Water Quality Certification and Coastal Zone Management certification (for Maine) are issued with the DEP NRPA permit. Special Conditions and in-water work timing restrictions may apply.
	Dredge Spoils	Up to 100 cy (in the Maine project area) may be beneficially used on site without a permit. Dredge quantities over 100 cy will be transported to a licensed facility.
	Temporary Erosion Control Plan	A temporary erosion control plan in accordance with Maine DOT's Best Management Practices for Erosion and Sediment Control must be submitted to Maine DOT for review. This would only be for the Maine project area. http://www.maine.gov/mdot/environmental-office-homepage/pdf/bmpmanual2008/BMP2008-full.pdf

The responsibility for obtaining each of the permits/approvals will be detailed in the RFP.

5 Additional Project Documentation

To provide additional information pertaining to Project development by NHDOT, the following documents are being made available to potential Design-Build Teams. These documents can be found on NHDOT's design-build website: <http://www.nh.gov/dot/projects/portsmouthkittery13678f/index.htm>.

- TIGER II Application
- Maine-NH Connection Study
- 2008 Rehabilitation Project Contract documents

APPENDIX B:
FORMAT AND ORGANIZATION OF
STATEMENT OF QUALIFICATIONS

Appendix B – Table of Contents

- 1 Organization
- 2 Pages and Binders
- 3 Page Format
- 4 Clarity and Conciseness
- 5 Reproducibility
- 6 Submittal

1 Organization

The SOQ shall be organized as follows and as depicted in Table B-1 below:

- A) Transmittal Letter and Form U
- B) Seven text sections:
 - 1) Section 1 – Legal Structure;
 - 2) Section 2 – Financial Capacity;
 - 3) Section 3 – Safety Program;
 - 4) Section 4 – Firm Experience and Past Performance;
 - 5) Section 5 – Design-Build Team Organization and Key Personnel;
 - 6) Section 6 – Project Understanding and Approach; and
 - 7) Section 7 – Quality Assurance Program.
- C) Two Appendices:
 - 1) Appendix A Resumes; and
 - 2) Appendix B Legal Documents.

2 Pages and Binders

The sections and appendix shall consist of loose-leaf pages that are 8 ½” by 11” and white, except for charts, exhibits, and other illustrative and graphical information, which may be submitted on 11” by 17” paper and folded to 8 ½” by 11”. 11” by 17” pages will count as one page. There is a limit of **20 pages** total for Sections 6 and 7 of the Design-Build Team’s SOQ package. Specific page limitations pertaining to Sections 1 through 5 and Appendices A and B of the Design-Build Team’s SOQ package are defined in Table B-1 of this appendix. The cover letter and each section shall be combined in one three-ring binder, and the complete appendices shall be placed together in a separate three-ring binder. The sections (and, optionally, subsections) shall be separated with lettered or numbered dividers. Color photographs, renderings, and brochures, if any, shall be adequately bound and suitably protected for handling and circulation during review and evaluation.

3 Page Format

Text shall be in a standard font that is a minimum of ten points in size, single-spaced, and printed single-sided. Each page shall be numbered consecutively within each section (i.e., 1-1, 1-2...; 2-1, 2-2...; 3-1, 3-2..., etc.), and the page numbers shall be centered at the bottom of each page.

4 Clarity and Conciseness

Design-Build Teams should make every effort to present information clearly and concisely. Documentation that is difficult to read may be rejected and may lead to disqualification.

5 Reproducibility

All SOQ pages shall be easily reproducible in black and white by standard photocopying machines.

6 Submittal

One original and ten copies of the SOQs and appendices shall be provided.

Table B-1: Specifications for SOQs

SOQ Section	Section Title and Required Information	RFQ Reference
	<p>Transmittal Letter and Design-Build Team SOQ Certification <i>(no overall page limitation for this section):</i></p> <ul style="list-style-type: none"> • Form A, Transmittal Letter (to be signed by duly authorized representatives of all equity members of the Design-Build Team’s team); and • Form U, Design-Build Team SOQ Certification (to be provided by all equity members of Design-Build Team). 	3.1
Section 1	<p>Legal Structure <i>(no overall page limitation for this section):</i></p> <ul style="list-style-type: none"> • Legal structure and supporting documents or description of proposed legal structure; • Identification of Major Participants; • Conflict of Interest Statement; • Response to Section 3.2 (E) if required; • Form L-1, Design-Build Team’s Organization Information; • Form L-2, Major Participant and Designer Certification; and • Form T, Design-Build Team’s Provisional Overall DBE Project Goal Declaration Affidavit. 	3.2
Section 2	<p>Financial Capacity <i>(no overall page limitation for this section):</i></p> <ul style="list-style-type: none"> • Verification of Design-Build Team’s ability to secure Performance Bond and Payment Bond; • Form B, Backlog Information; • Form R, Past Revenue; and • Verification of Design-Build Team’s ability to secure insurance. 	3.3
Section 3	<p>Safety Program <i>(no overall page limitation for this sections):</i></p> <ul style="list-style-type: none"> • Form S, Safety Questionnaire. 	3.4
Section 4	<p>Firm Experience and Past Performance <i>(no overall page limitation for this section):</i></p> <ul style="list-style-type: none"> • A brief narrative summary of each firm’s capability and capacity, a maximum of two pages for each firm is permitted; • Form E-1, Project Description (maximum four Form E-1s per each Major Participant are permitted), each Form E-1 shall not exceed 3 pages in length; • Form PP-1, Past Performance (maximum of 3 pages), with information regarding: <ul style="list-style-type: none"> ○ Awards, citations, and/or commendations, ○ Litigation, claims, dispute proceedings, and arbitration, ○ Liquidated damages during the last five years, ○ Termination for cause, ○ Disciplinary actions, and ○ Contacts (for the above <u>Form PP-1</u>); and • Form PP-2, Environmental Past Performance. 	3.5

SOQ Section	Section Title and Required Information	RFQ Reference
Section 5	<p>Design-Build Team Organization and Key Personnel <i>(no overall page limitation for this section):</i></p> <ul style="list-style-type: none"> • Brief narrative of significant functional relationships among participants and how the proposed organization will function as an integrated design-build team, a maximum of four pages will be permitted; • Organization Chart(s) (11" by 17"); • Evidence of Design-Build Team's ability to meet license requirements; • Form E-2, Subcontractor Information and a maximum one-page summary of subcontractor experience for each subcontractor listed, including consultants is permitted; and • Form E-3, Proposed Key Personnel Information. 	3.6
Section 6	<p>Project Understanding and Approach <i>(a maximum of 20 pages total for Section 6 & 7 are permitted):</i></p> <ul style="list-style-type: none"> • Proposed management approach and project understanding; and • Keys to ensuring a successful project. 	3.7

TRANSMITTAL LETTER

DESIGN-BUILD TEAM: _____

SOQ Date: [Insert Date]

New Hampshire Department of Transportation
P.O. Box 483
Concord, New Hampshire 03302-0483

Attn: Mr. Keith A. Cota, P.E.

The undersigned (“Design-Build Team”) submits this proposal and statement of qualification submittal (this “SOQ”) in response to that certain Request for Qualifications dated as of February 8, 2011 (as amended, the “RFQ”), issued by the New Hampshire Department of Transportation (“NHDOT”) to design and construct the Memorial Bridge, Scott Avenue Bridge and the Kittery Approach Spans, as described in the RFQ.

Enclosed, and by this reference incorporated herein and made a part of this SOQ, are the following:

- Transmittal Letter (this Form A)
- Form U, Design-Build Team’s SOQ Certification
- Section 1: Legal Structure
- Section 2: Financial Capacity
- Section 3: Safety Program
- Section 4: Firm Experience and Past Performance
- Section 5: Design-Build Team Organization and Key Personnel
- Section 6: Project Understanding and Approach
- Section 7: Quality Assurance Program
- Appendices A & B (Resumes and Legal Documents)

Design-Build Team acknowledges receipt, understanding, and full consideration of all materials posted on NHDOT’s website (<http://www.nh.gov/dot/projects/portsmouthkittery13678f/index.htm>) as set forth in Section 1.8, and the following addenda and sets of questions and answers to the RFQ:

[Design-Build Team to list any addenda to this RFQ and sets of questions and answers by dates and numbers prior to executing Form A.]

Form A
TRANSMITTAL LETTER

Design-Build Team represents and warrants that it has read the RFQ and agrees to abide by the contents and terms of the RFQ and the SOQ.

If the Design-Build Team consists of more than one entity, all members of the Design-Build Team entity agree to accept joint and several liabilities for performance under the Contract.

Design-Build Team understands that NHDOT is not bound to pre-qualify any Design-Build Team and may reject each SOQ NHDOT may receive.

Design-Build Team further understands that all costs and expenses incurred by it in preparing this SOQ and participating in the Project procurement process will be borne solely by the Design-Build Team, except, to the extent of any payment made by NHDOT following short-list determination, as described in Section 1.13 of the RFQ.

Design-Build Team agrees that NHDOT will not be responsible for any errors, omissions, inaccuracies, or incomplete statements in this SOQ.

This SOQ shall be governed by and construed in all respects according to the laws of the States of New Hampshire and Maine.

Design-Build Team's business address:

(No.)	(Street)	(Floor or Suite)	
(City)	(State or Province)	(ZIP or Postal Code)	(Country)

State or Country of Incorporation/Formation/Organization: _____

Form L-2
PRINCIPAL PARTICIPANT AND DESIGNER CERTIFICATION

Name of Design-Build Team:

Firm Name:

Instructions for Form completion: Responses to each question shall be addressed within the table below, should additional space be needed, Design-Build Teams are advised to increase space following question. Form L-2 shall have no SOQ page limitation.

Complete for each Major Participant and the Designer: Design-Build Teams are advised that responses to questions contained within Form L-2 shall be governed by past performance conducted within the United States.

1. Has the firm¹ or its owners, officers, or managing employees ever failed to complete any work it agreed to perform, or had a contract terminated because it was in default? If yes, describe.

2. Has the firm¹ (no footnote 1 below only 2) or any officer thereof been indicted or convicted of bid or other contract-related crimes or violations or any felony or misdemeanor related to performance under a contract within the past five years? If yes, describe.

3. Has the firm¹ ever sought protection under any provision of any bankruptcy act or been subject to a receivership or involuntary bankruptcy proceeding? If yes, describe and provide information concerning any work completed by a surety as a result of the bankruptcy or receivership.

4. Has the firm¹ ever been debarred, disqualified, removed, or suspended from performing work for the Federal government or any State or local government in the last five years? If yes, describe.

5. In the past five years, has any serious or willful violation of Part 1 (commencing with section 6300 of Division 5 of the Labor Code or the Federal Occupational Safety and Health Act of 1970 (Public Law 91-596), settled against the firm¹? If yes, describe.

¹ Note: "Firm" includes any Affiliate.

Form L-2
PRINCIPAL PARTICIPANT AND DESIGNER CERTIFICATION

6. Has the firm¹, or its owners, officers, or managing employees, submitted a bid on a public works project and found to be nonresponsive, or found by an awarding body not to be a responsible bidder in the last five years? If yes, describe.

7. In the past five years, has any violation of the Contractors' State License Law, including alleged violations of Federal or State law regarding the payment of wages, benefits, apprenticeship requirements, or personal income tax withholding or Federal Insurance Contribution Act (FICA) withholding requirements, settled against the firm¹? If yes, describe.

8. Have any adverse claims, disputes, or lawsuits between the owner of a public works project and the firm¹, in which the claim, settlement, or judgment exceeds \$50,000, settled during the past five years? If yes, describe. Provide any information concerning any work completed by a surety during the past five years.

9. In the past five years, has the New Hampshire or Maine Labor Commissioner found the firm¹ to be in willful violation of New Hampshire or Maine Labor Code? If yes, describe.

10. Has the firm¹ been convicted of violating a State or Federal law relating to the employment of undocumented aliens in the past five years? If yes, describe.

11. Has the firm¹ or its agent made any contribution of more than \$250 to any officer/commission member of NHDOT or Maine DOT within the preceding 12 months? If yes, describe.

12. List up to five financial institutions with which the firm¹ has done the most business during the past five years and identify the individual at each institution who was in charge of the firm's¹ accounts. Indicate the address, telephone, and fax numbers of each individual.

Form L-2
PRINCIPAL PARTICIPANT AND DESIGNER CERTIFICATION

13. In the last five years, has your firm been denied an award of a public works contract based on a finding by a public agency that your company was not a responsible bidder?

14. At any time in the last five years has your firm been assessed and paid liquidated damages after completion of a project under a construction contract with either a public or private owner?

15. Has a surety firm completed a contract on your behalf or paid for completion because your firm was in default or terminated by the project owner within the last five years?

(Must be signed by an officer of the firm)

RFQ Section No. or Appendix	Question	Reserved for Department Response

Form S SAFETY QUESTIONNAIRE

Name of Design-Build Team: _____

Name of Major Participant: _____

Instructions for Form completion: Should additional lines or space be needed by Design-Build Teams to address subject areas identified in the tables and questions below, Design-Build Team shall add additional lines within each subject area as appropriate. Form S has no SOQ page limitation.

1. Provide the following information for the past three years:

Item	2008	2009	2010
Experience Modification Rate			
Lost Work Rate			
Employee hours worked (Do not include non-work time, even though paid)			
Number of lost workday cases			
Number of restricted workday cases			
Number of cases with medical attention only			
Number of fatalities			

2. Are internal accident reports and report summaries sent to management? To what levels and how often?

Position	No	Yes	Monthly	Quarterly	Annually

3. Do you hold site meetings for supervisors? Yes _____ No _____
 How Often? Weekly___ Biweekly___ Monthly___ Less often, as needed___

4. Do you conduct Project Safety Inspections? Yes _____ No _____
 By Whom? _____

 How Often? Weekly___ Biweekly___ Monthly___

5. Does the firm have a written Safety Program? Yes _____ No _____

Form S SAFETY QUESTIONNAIRE

6. Does the firm have an orientation program for new hires? Yes _____ No _____

If yes, what safety items are included? _____

7. Does the firm have a program for newly hired or promoted foremen?

Yes _____ No _____ If yes, does it include instruction of the following?

Topic	Yes	No
Safety Work Practices		
Safety Supervision		
On-site Meetings		
Emergency Procedures		
Accident Investigation		
Fire Protection and Prevention		
New Worker Orientation		

8. Does the firm hold safety meetings, which extend to the laborer level?

Yes _____ No _____

How often? Daily ____ Weekly ____ Bi-Weekly ____ Less often, as needed ____

9. (For Design-Build Team only) Indicate the safety record on the last Project to which the indicated key personnel were assigned:

Key Person	Total Hours Worked by All Employees on Project	Number of Lost Workday Cases on Project	Number of Restricted Workday Cases on Project	Number of Cases with Medical Attention Only on Project	Number of Fatalities on Project
Project Manager					
Construction Manager					

Form S
SAFETY QUESTIONNAIRE

10. Has New Hampshire OSHA cited and assessed penalties against your firm for any “serious,” “willful,” or “repeat” violations of its safety or health regulations in the past five years?

Yes _____ No _____

(If yes, attach a separate signed page describing the citations, including information about the dates of the citations, nature of the violation, the project on which the citation(s) was or were issued, and the amount of penalty paid, if any. If the citation was appealed to the Occupational Safety and Health Appeals Board and a decision has been issued, state the case number and the date of the decision.)

11. Has the Federal Occupational Safety and Health Administration cited and assessed penalties against your firm in the past five years?

Yes _____ No _____

(If yes, attach a separate signed page describing each citation.)

Form T
**DESIGN-BUILD TEAM'S PROVISIONAL OVERALL DBE PROJECT
GOAL DECLARATION AFFIDAVIT**

Name of Design-Build Team:

It is understood and agreed by the Design-Build Team that it has carefully examined all documents that form this Request for Qualifications (RFQ) and acknowledges that New Hampshire Department of Transportation (NHDOT) and Maine Department of Transportation (Maine DOT) has established a proposed Overall Project DBE goal of **4%** based on the total project value for this Design-Build Project. This affidavit further serves to confirm that (*INSERT DESIGN-BUILD TEAM NAME HERE*) will aggressively exercise good faith efforts to the satisfaction of NHDOT to meet the proposed Overall Project DBE goal in accordance with DBE Design-Build Program requirements defined in the Request for Proposal (RFP) documents, when issued. The proposed Overall Project DBE goal is considered "Provisional" at this time, as NHDOT is currently in the process of securing required approvals of the proposed Overall Project DBE goal from U.S. Department of Transportation (U.S. DOT).

It is further understood by the Design-Build Team that in the event the Design-Build Team commits to exceed the established provisional overall DBE project goal, the DBE goal of record will be that committed to by the Design-Build Team. In fulfilling the Design-Build Team's commitment to meet or exceed the established overall DBE project goal, the Design-Build Team will adhere to all DBE provisions set forth in the Authority's DBE Program, this solicitation, regulatory requirements, and any contract which results there from.
