## **SPECIAL ATTENTION**

### **NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) STORM WATER CONSTRUCTION GENERAL PERMIT REQUIREMENTS**

Contractors are advised that 40 CFR Part 122 applies to this project. This provision prohibits point source discharges of storm water associated with construction activity to water bodies of the United States without a National Pollutant Discharge Elimination System (NPDES) storm water construction general permit, and requires construction sites to implement a range of erosion and sediment controls and pollution prevention measures to control the discharge of pollutants from construction sites.

This project is eligible for coverage under the reissued NPDES Storm Water Construction General Permit for Storm Water Discharge from construction sites, which was published on January 11, 2017. Contractors apply for coverage under this permit through the Environmental Protection Agency (EPA), Notice of Intent (NOI) website ([http://cdx.epa.gov/epa\\_home.asp](http://cdx.epa.gov/epa_home.asp)) at least 14 days prior to commencement of construction on any site which will result in the disturbance of the land and after your Storm Water Pollution Prevention Plan has been prepared.

Other provisions of the General Permit requires a Storm Water Pollution Prevention Plan to be prepared, implemented, kept current, and maintained on the project site along with inspection reports; and when the project site has been finally stabilized and storm water discharges from construction activities have been eliminated, a Notice of Termination (NOT) must be submitted.

NPDES General Guidelines, including an outline for Construction (Storm Water) Pollution Prevention Plan, Notice of Intent and Notice of Termination are available on the internet at EPA's Stormwater site ([www.epa.gov/npdes/stormwater-discharges-construction-activities#ereporting](http://www.epa.gov/npdes/stormwater-discharges-construction-activities#ereporting)).

An "active status" of the all submitted NOI's is required prior to commencing any work on the project.

On both the Notice of Intent (NOI) and the Notice of Termination (NOT) forms the information relative to the Facility Operator Information shall be that of the prime Contractor.

See the attached information for required information for filing for coverage under this permit.
