Thank You to our Sponsors
44% of employers offer health insurance to employees, first and foremost, because they feel morally obligated to do so (eHealth, Inc., March 2013)

54% of small businesses say health care costs are hurting the business environment “a lot” (Gallup poll, January 2013)

67% of small business owners say they would not stop offering their employees health insurance; only 6% of employers say they’ll definitely stop offering (eHealth, Inc., March 2013)

62% of small employers acknowledge not understanding exchanges at all (eHealth, Inc., March 2013)

56% of small employers misunderstand the employer mandate (eHealth, Inc., March 2013)

The Big Picture for Individuals

Americans not covered under a government plan will have three options for health insurance in 2014:

1. Get coverage through employer if available

2. Buy an individual plan through either:
   - The individual market exchange — purchaser may be eligible for subsidy
   - The off-exchange market

3. Go uninsured (will pay penalty unless they qualify for an individual exemption)

The Big Picture for Small Groups

Employers who have 50 or fewer employees will have at least three health insurance options in 2014:

1. Offer a fully insured plan through either:
   - A SHOP exchange
   - The off-exchange (private) market

2. Stop offering coverage and let employees buy through the Individual market

3. Offer an ASO plan in which essential health benefits and metal level requirements don’t exist
The Big Picture for Large Groups

Employers who have more than 50 employees will have at least three health coverage options in 2014:

- **Offer health coverage** – either fully insured or ASO – that meets the minimum coverage definition (no essential health benefit or metal level requirements) and is affordable

- **Offer some level of coverage** that does not meet minimum requirements. This option exists without any penalty in 2014, but for 2015 and beyond, employers may pay a penalty if the coverage offered does not meet the minimum requirements

- **Stop offering coverage**, let employees buy through the Individual market and risk paying the employer penalty

The Affordable Care Act Reduces Premium Cost Growth and Increases Access to Affordable Care

Before ACA, Small Employers Faced Many Obstacles to Covering Workers

- Too few choices
- Higher premiums and unpredictable rate increases
- Higher rates for groups with women, older workers & those with chronic health concerns or high-cost illnesses, in most states
- Waiting periods or no coverage for individuals with Pre-Existing Conditions

Today, under ACA, insurance companies:

- Face limits on administrative spending. Most insurers must now spend at least 80 percent of consumers’ premium dollars on actual medical care
- Must disclose and justify proposed rate hikes of 10% or more, which states, or the federal government, may review

Starting in 2014, insurance companies:

- Can’t charge higher rates or deny coverage because of a chronic or pre-existing condition
- Can’t charge higher rates for women, and face limits on charging additional premiums for older employees
- Will pool risks across small groups creating larger pools like large businesses
- Must not have annual dollar limits on coverage
- Must offer plans that provide a core package of “Essential Health Benefits” equal to typical employer plans in the state
Small Business Health Care Tax Credit

- Business employs fewer than 25 full-time equivalent employees
- Employees’ average annual wages are less than $50,000
- Business pays for at least 50% of employees’ self-only premium costs

Up to 35% Federal Tax Credit in 2013 and *50% in 2014 if for-profit entity

*SHOP participants only

July 2013

More Access to Affordable Care: New Health Insurance Marketplaces

SHOP = Small Business Health Options Program

- Part of the new Health Insurance Marketplaces (sometimes called “Exchanges”)
- Spurs competition for customers based on price and quality, rather than by avoiding risk
- Provides “Essential Health Benefits” -- same level of benefits & services that would be covered in most employer-based plans
  - Most states will use small group health insurance products as benchmark for core package of Essential Health Benefits
- Helps employers better predict and control health insurance expenses
- Will pool risks for small groups and reduce administrative complexity, thereby reducing costs
- Works with new insurance reforms and tax credits to lower barriers to offering health insurance that small employers face

July 2013
Enrolling in SHOP: Who, When & How

Which small businesses are eligible?
- Businesses with generally 50 or fewer employees (Hawaii might allow businesses with up to 100 employees)
- Starting in 2016, employers with up to 100 employees will be eligible to participate
- Once a business enrolls, it can grow and still remain in SHOP

When can businesses enroll?
- Starting October 1, 2013 for coverage beginning January 1, 2014
- Thereafter, throughout the year on a monthly basis

How can businesses enroll?
- Through a broker, OR
- Directly through the SHOP. Visit www.healthcare.gov for more information and to sign-up for alerts

Employer Shared Responsibility Provisions – Effective 2015:
How does a business know if it’s subject to these rules?

An employer averaging 50 or more full-time (or combo of 50 full-time and full-time equivalent) employees is subject to these rules.

An employer averaging less than 50 full-time or full-time equivalent employees is not subject to these rules -- that’s 96% of all firms in the U.S.
Employer Shared Responsibility Provisions

If employer meets 50 full-time/FTE employee threshold, two scenarios for potential shared responsibility payment

• **EITHER**

  (1) An employer does not offer coverage to at least 95% of its full-time employees (and their dependents), **OR**
  
  (2) The coverage offered to employer’s full-time employees is not “affordable” or does not provide “minimum value”

• **AND**

  At least one full-time employee receives a premium tax credit in the individual Marketplace

---

Which employees could be eligible for premium tax credits to purchase coverage in a Marketplace?

Employees:

✓ Whose incomes are between 100% and 400% of federal poverty level [for example, a 3-person family with income between $19,090 and $76,360 for 2012] and who enroll in coverage through a Marketplace

  **AND**

✓ Who are not offered or not eligible for employer-sponsored coverage; OR who are eligible only for employer coverage that is unaffordable or that does not provide minimum value

  **AND**

✓ Who are not eligible for coverage through a government-sponsored program like Medicaid or CHIP

Small Business Resources in New Hampshire

http://www.nh.gov/insurance/
http://www.nh.gov/insurance/consumers/fedhealthref.htm

Watch for periodic updates from the New Hampshire Department of Insurance on:
• New Hampshire Marketplace and SHOP
• Consumer Assistance
  • State-wide education and outreach
  • Navigators
What is the Health Marketplace?

• The Health Benefit Marketplace, also known as the Exchange, is an online marketplace where individuals will be able to purchase health insurance.

• The Marketplace will be open for enrollment in health plans beginning October 1, 2013. The coverage will take effect beginning January 1, 2014.

• Many low and moderate-income individuals using the Marketplace will be able to obtain payment assistance to help them buy health insurance, and they may get discounts on deductibles, copays and other cost-sharing. The Marketplace will also be a place people can enroll in Medicaid.

• Small businesses will be able to use a separate marketplace called the SHOP exchange to provide health insurance to employees and to see if the business qualifies for a small business tax credit.
New Hampshire’s Marketplace Model

• The Marketplace will be constructed and run by the federal government (CMS/CCIIO) in accordance with federal standards.

• Under NH’s partnership model, the state will operate some specific functions (plan management and consumer assistance) funded by federal grants through 2014.

• The plan management function is well underway, with the state set to recommend to CCIIO by July 31, 2013 which health plans qualify for sale on the Marketplace.

• New Hampshire is still in the process of developing its model for the consumer assistance functions.

NH Health Insurance Marketplace – With Partnership

Federal Marketplace Functions

The Marketplace set up by the federal government will perform the following tasks:
• Maintain a website to provide plan information and options in a standardized format.
• Operate a toll-free hotline.
• Administer the tax credit and transfer to the Treasury and employers a list of eligible employees.
• Make available a calculator to determine actual cost of coverage after subsidies.
• Administer the individual responsibility mandate.
• Establish a Navigator program that provides grants to entities that assist consumers

The federal government will also set up the SHOP Exchange for small employers

Plan Management

• State role:
  » Qualified Health Plan certification, including licensure and good standing, Essential Health Benefits, meaningful difference review
  » Collection and analysis of plan rate and benefit package information
  » Ongoing issuer oversight
  » Plan monitoring, oversight, data collection and analysis for quality
  » Assist consumers who have complaints about carriers or plans.

Consumer Assistance

• Potential State roles include:
  » State-specific outreach and education
  » Oversee conduct of Navigators
  » Possible supplemental in-person assistance program

• Federal role:
  » Call center operations
  » Website management
  » Written correspondence with consumers on eligibility/enrollment
  » Selection of Navigators

NH DHHS will continue to operate the state Medicaid program, including an interface with the Marketplace.
What Consumers Will See – With Consumer Assistance Partnership

New Hampshire Health Insurance Marketplace – set up and operated by federal government

- Website
- Toll-free hotline.
- Subsidy eligibility determination
- Uniform application for coverage
- Establish a Navigator program that provides grants to entities that assist consumers

The federal government will also set up the SHOP Exchange for small employers.

Plan Management
- NHID reviews and approves plans, rates and forms
- NHID Consumer Services – Assist consumers who have complaints about carriers or plans.

Types of Consumer Assisters

Agents and Brokers (Producers)
- Clear and distinct role as only assister able to recommend a particular plan

Navigators
- Primary non-producer assisters
- Selected and funded by feds

Certified Application Counselors
- Non-funded assisters – assist as part of existing job (e.g., medical provider, Medicaid office staff)

Marketplace Assisters
- Potential supplemental program to address gaps

NH DHHS will continue to operate the state Medicaid program, including an interface with the Marketplace.

Small Employer Options

Employers with fewer than 50 employees will have at least three health insurance options in 2014:

- Offer a **fully insured** plan through either:
  - The SHOP exchange (only way to access tax credit)
  - The private (off-exchange) small group market

- Offer a **self-funded** plan, if allowed by state law, where essential health benefits and metal level requirements don’t apply

- Stop offering coverage; let employees buy through the individual market or Exchange
Large Employer Options

Employers with **50 or more employees** will have at least three health insurance options in 2015 (penalty delayed 1 year):

- Offer health insurance, either fully insured or self‐insured, that meets **minimum coverage definition** (no essential health benefit or metal level requirements) and is **affordable**
- Offer some level of **coverage that does not meet minimum requirements** and pay **employer penalty** based on number of employees **receiving subsidy**
- **Stop offering coverage**, let employees buy through the individual market or Exchange, and pay **employer penalty based on total number** of employees

Clearly we need a strategy...≈$266,000/year new expense

Surveys to Learn Employees Insurance Needs

a. Will they go on spouses plan
b. Will they go on parents plan
c. Will they pay IRS penalty
d. Will they come on to our plan
Of the 109 potential to insure it was determined 79 potential to insure.

We estimate 2/3 of the 79 will opt in = 53

53 X $2,000 = $100,000+

Mailed surveys yielded 10% response.

Subsequently:
General Manager’s surveyed one-on-one.

Employees facing a potential $2,000/year new expense

Challenged with some tough decisions about their lifestyle choices and employment changes.
“Should I get two part-time jobs?”

“...or maybe I’ll just pay the penalty”
“...Looks like I’ll have to work one extra shift every week to pay for health insurance”

Great NH Restaurants Options...

1. Drop Insurance and pay the penalty.
2. Look at Self-Insured.
3. Cut benefits to Managers to pay for increased $100,000 expense.
4. Reduce hours to under 30 hours.
Great NH Restaurants Strategy...

Part of our culture has always been:

*When faced with a liability, find a way to turn it into an asset.*

And so we came up with a 5th option which we think is the right investment in our companies and employees future.
Embrace the opportunity to become the employer of choice for employees in the restaurant industry

1. We will give guidance, to those employees who qualify, about opportunities in the State/Federal Exchange.
2. We will not cut benefits nor hours.
3. Incur small price increase coupled with cuts that won’t affect employees and guests.

We will be very transparent to our employees about the cost and impact of PPACA and appeal to them for support of our tactic.

- Our plan will include operational focus’s so that we may ‘Execute Greatness’ in Food Quality and Service.
- Encourage employees to reach out to elected officials in support of the National Restaurant Associations top 2 concerns.
National Restaurant Association
2 of its top initiatives regarding PPACA

- Definition of Full-Time Employee
  - Should be raised to 40 hours per week.

- Auto-Enrollment Eliminated
  - Redundant and will cause employee confusion

The law is too onerous on business that have a high number of employees as compared to its low margins.

- Still time to find relief in some of the rules within the law.

- Lots of information and guidance available with business associations. - grass roots voices.
Dawn Sweeney – President of the National Restaurant Association:

“The White House's announcement last month, giving employers a year of "transition relief" in the health care law's employer-mandate penalties and some reporting requirements, was welcome news to the NRA and its members.

The National Restaurant Association played a key role in encouraging this action and is widely recognized as being one of the groups having the most significant impact in making the case for change.

10-Minute Break
Agenda

- Essential Health Benefits
- Market Reforms

Essential Health Benefits (EHB)

- Effective January 1, 2014, all coverage sold to individuals and small groups must comply with EHB standards.
- EHB standards specify:
  - Covered benefits, including pediatric dental coverage
  - Cost sharing requirements (the so-called “metal tiers”)
  - Deductible limits for small groups
  - Out-of-pocket maximum limits
EHB Covered Services

- EHB compliant plans must cover the following 10 categories of services:
  - Ambulatory patient services
  - Emergency services
  - Hospitalization
  - Maternity and newborn care
  - Mental health and substance use disorder services, including behavioral health treatment
  - Prescription drugs
  - Rehabilitative and habilitative services and devices
  - Laboratory services
  - Preventive and wellness services and chronic disease management
  - Pediatric services, including oral and vision care
- EHB compliant plans must also cover all services included in the state’s designated benchmark plan
- Annual dollar limits are not permitted on EHB services

EHB Pediatric Dental Coverage

- EHB pediatric dental coverage includes the same services as are covered under the federal employees’ dental plan, including:
  - Cleanings and exams
  - Restorative services
  - Oral surgery
  - Medically necessary orthodontia
- Medical plans sold through the Exchange do not need to include pediatric dental if a stand alone dental plan is available through the Exchange.
- Medical plans sold outside the exchange do not need to include pediatric dental if the group provides “reasonable assurances” that members are enrolled in an Exchange certified dental plan.
EHB Cost Sharing

- EHB compliant plans must “fit” into one of four metal tier categories based on actuarial value
  - Bronze = 60 percent
  - Silver = 70 percent
  - Gold = 80 percent
  - Platinum = 90 percent

- For small group coverage, deductibles may not exceed $2,000 for individuals and $4,000 for families. Higher deductibles may be permitted if reasonably necessary to meet the metal tier requirements.

- Out of Pocket Maximums can be no greater than what is permitted for HSA plans.
  - 2014 limits: $6,350 for individuals and $12,700 for families
  - All in-network cost-sharing must apply to the OOP max. For 2014, there is a safe harbor for group plans under which pharmacy and dental cost sharing do not need to apply to the medical OOP max if the claims are processed separately.

Sample EHB Plans

**Platinum**
- No Deductible
- $2000/$4000 Out of Pocket Maximum
- $25 /$40 OV copay
- Inpatient: $500
- Day Surgery: $500
- ER: $150
- MRI/CT: $150
- Rx $15/$30/$50; $30/$60/$150

**Gold**
- $1000/$2000 Deductible
- $5000/$10000 Out of Pocket Maximum
- $30/$45 OV copay
- Inpatient: Deductible/$500
- Day Surgery: Deductible/$250
- ER: Deductible/$150
- MRI/CT: Deductible/$200
- Rx: $20/$30/$50; $40/$60/$150
### Sample EHB Plans

#### Silver
- $2000/$4000 Deductible
- $6400/$12800 Out of Pocket Maximum
- $30/$50 OV copay
- Inpatient: Deductible/$1000
- Day Surgery: Deductible/$750
- ER: Deductible/$250
- MRI/CT: Deductible/$250
- Rx: $20/$35/$70; $40/$70/$210

#### Bronze
- $2000/$4000 Deductible*
- $6400/$12800 Out of Pocket Maximum
- OV: Deductible/$50/$75
- Inpatient: Deductible/$1000
- Day Surgery: Deductible/$1000
- ER: Deductible/$750
- MRI/CT: Deductible/$1000
- Rx: $30*/50%*/50%*; $60*/50%*/50%*

*Deductible applies to Medical and all RX Tiers

### Benefit Changes for Large Employers (51+)

- Large groups do not need to comply with EHB standards, but:
  - Must comply with the out-of-pocket maximum limitation
  - Must offer a plan with a “minimum value” of at least 60%
Market Reforms

- Effective January 1, 2014, coverage must be offered on a guaranteed-issue basis with no pre-existing condition exclusions.
- For individuals and small groups, the only permissible rating factors are age, geographic location and smoking status.
  - Group size and industry type may no longer be used as rating factors.
  - For 2014, New Hampshire will be considered a single geographic region.
- Rates must be calculated on a “per member” basis, i.e., the number and ages of dependents on the contract must be taken into account.
  - Families will be charged for no more than 3 children under the age of 21.
- Rates to be calculated on a “list bill” basis, but may be converted back to a group-specific composite rate.

Member Level Rating

- Example 1 –
  - Employee 1 = Age 40; Spouse Age 40; 2 Kids Under Age 21
  - Employee 2 = Age 40, Spouse Age 35; 4 Kids Under Age 21
  - Employee 3 = Age 40; Spouse Age 35; 4 Kids (3 Under Age 21; 1 Age 21)
- Example 2 –
  - Employee 1 = Age 40; No dependents
  - Employee 2 = Age 60; No dependents
- Today, the premium attributable to each employee in each example would be the same. In 2014, it will be different.
Affordable Care Act obligations:

- Individuals: Individual mandate
- Employers: Employer Shared Responsibility Payment

Two exchanges:

- Individual
- Small Business Health Options Program (SHOP)

In New Hampshire, one website as portal to either exchange.
Health Premium Tax Credit (Individual):

- Eligibility determined at time of exchange application.
- Only available via plan purchased on individual exchange.
- Available to individuals whose income is below 400% of the federal poverty level but above 133% of FPL.
  Income range: 1 person $14,000 - 44,000 (approx)
- Available as a tax credit at time of tax filing or in advance to realize the benefit during the year.
- Advance Premium Tax Credit - amount determined at application/enrollment and paid to insurer in monthly increments.

Cost Sharing Reduction (CSR) Assistance (Individual):

- Eligibility determined at time of exchange application.
- Available to individuals whose income is between 100-250% FPL.
- Allows for lower out-of-pocket expenses for eligible individuals/families.

Note: While Health Premium Tax Credit available regardless of which level plan one chooses, the CSR only applies to those selecting a silver level plan.
SHOP Exchange:

- Health and dental plans for small employers to offer employees.
- For employers with 50 or fewer fulltime equivalent (FTE) employees.
- Employers are not required to use SHOP to obtain coverage.

- Must offer coverage to all FTEs (30 hr/wk or more).
- Retirees can be included in group.
- 75% minimum participation rate (includes retirees in calculation).
- Multi-state employers may participate in multiple SHOPS but only one SHOP account per state.

Minimum participation rate:

- At least 75% of employees must enroll to meet the minimum participation requirement.

- Employer can register on SHOP, employees can sign up for plans, and if not enough sign up to meet 75% minimum, SHOP will retain all the information submitted and ER can re-apply in the same year.
SHOP Exchange: Tax credit for small businesses

- Must use SHOP to get Small Business Health Care Tax Credit (SBHCTC), a tax credit covering up to 50% of health insurance premium.

- IRS Business Help Line at 1-800-829-4933

The SHOP shopping experience:

Plan Options:

For 2014, Employers can select only one plan to be offered to its employees. Full range of options expected for 2015.

- **October 1, 2013** - small employers access the SHOP to see available plans
- **November 1, 2013** - employees access the SHOP to review and enroll in plan
- **January 1, 2014** - coverage effective date for health and dental plans
Employer shopping on SHOP:

- Directly, without broker assistance
- Brokers
- Web-brokers

Required notice to employees of coverage options:

- Applies to all employers subject to the FLSA.
- Must be sent no later than October 1, 2013.
- New hires must receive within 14 days of start date.
- Department of Labor templates for employers who do and do not offer coverage.

**Required notice to employees of coverage options must include:**

- Notice of exchange’s existence.
- Possibility of employee being APTC eligible if employer’s share of the total allowed costs of benefits provided under the plan is less than 60 percent of such costs.
- Possible loss of any employer contribution if plan purchased via the exchange.

**Taxes and Fees**

**Patient Centered Outcomes Research Institute (PCORI) Fee**
- Applies to both fully-insured and self-insured business
- First plan year ending after 9/30/12, $1 per covered life per year
- Submitted through IRS Form 720; due by July 31 of following year

**Transitional Reinsurance Program Fee**
- Applies to both fully-insured and self-insured business
- In effect 2014 through 2016
- $63/year/covered life ($5.25 per member per month)

**Health Insurance Providers Fee (premium tax)**
- Applies to only fully-insured business; applicable non-profits pay 50% the rate as for-profits.
- In 2014, must raise $8 billion nationally; fee can increase annually.

**“Cadillac” Tax**
- Applies to both fully-insured and self-insured business
- Goes into effect 2018
Informative websites:

- www.Kaiserhealthnews.org
- Kaiser Family Foundation - healthreform.kff.org (subsidy calculator)
- www.Irs.gov (apply here for Small Business Tax Credit)
Large Employer Shared Responsibility (ESR)

When?
- The ESR requirement was set to take effect on 1/1/14. On 7/2/13, the federal government announced a delay in the effective date until 2015.

Who & How Determined?
- Employers having 50 or more full-time employees or a combination of full time employees and part-time employees (full time equivalency test);
  - Full time Employee is defined as an employee who works on average at least 30 hours of service per week
- In 2014, Employers, using employment information from 2013, must average the number of employees across the months in the year

What?
- Offer 95% of FTE’s and their dependents employer sponsored coverage that is “affordable” and provides “minimum value.”
  - Affordable Coverage: Employee’s share of premium cannot exceed 9.5% of Employee’s annual income.
  - Minimum Value: Cover at least 60% of the total allowed cost of benefits that are expected to be incurred under the plan.

ESR- Employee Counting

Step 1: Full Time Employee: Calculate the number of employees who work at least 30 hours per week or 130 hours in a given month.

Step 2: “Full Time Equivalency”: For any non-full time employee - add up the total hours worked during a given month for every employee and divide by 120.
  - **for step 1 and 2 you must include actual hours worked and paid time off**
  - Include fractions at this point.

Step 3: Add the results of Step 2 and Step 1.

Step 4: Repeat steps 1, 2 and 3 for every month.

Step 5: Add up the total for the year.

Step 6: divide the total from Step 5 by 12.
  - Drop all fractions and round down at this point.

Step 7: If the result in Step 6 is 50 or greater, your company is a large employer for purposes of ESR

** Seasonal exception: if your company exceeds the threshold for 120 days or less, and those employees “seasonal” employees, your company is not a Large Employer.
Calculation Example ABC Corporation

Jan – March: 38 FT employees and 1800 hours worth of PT employees

• Step 1: 38 FT employees
• Step 2: \(\frac{1800}{120} = 15\)
• Step 3: 53 total FT and Full time equivalent employees.

April - July: In April, ABC has some PT employees quit and hires one new FT employee

• Step 1: 39 FT employees
• Step 2: \(\frac{1500}{120} = 12.5\)
• Step 3: 51.5 FT and full time equivalent employees.

August - December: eight full time employees unexpectedly quit, ABC adds PT hours

• Step 1: 31 FT employees
• Step 2: \(\frac{2040}{120} = 17\)
• Step 3: 48 FT and full time equivalent employees.

Step 4: done above (repeated steps 1, 2, and 3 for every month)

Step 5: 605

Step 6: 50.4 (drop fractions at this point and round down)

Step 7: the employer is a large employer for purposes of ESR applicability
**Employer Pay or Play**

- Penalties apply if:
  - Employer does not provide coverage to at least 95% of FT employees and any FT employee gets subsidized coverage through the exchange
  
  OR

  - Employer does provide coverage and any FT employee gets subsidized coverage through exchange because employer’s coverage is either unaffordable or does not provide minimum value

---

**Employer Penalties**

**Employers that do NOT offer coverage to at least 95% of full-time employees:**

- $2,000 per full-time employee
- Excludes first 30 employees

**Employers that offer coverage but that coverage is either unaffordable or does not provide minimum value:**

- $3,000 for each employee that receives subsidized coverage through an exchange
- Capped at $2,000 per full-time employee (excluding first 30 employees)
Penalty Flowchart:

- Do you have at least 50 FTE's?
  - No
  - Are any of your FULL TIME employees receiving a subsidy?
    - No Penalty
    - No
    - Do you have more than 30 Full Time Employees?
      - No
      - Do you provide health insurance?
        - No
        - Penalty: $2,000 x # Full Time Employees - 30
        - Yes
          - Penalty: lesser of $2,000 x # Full time employees - 30 or $3,000 x # full time employees receiving subsidy

Look Back Periods: Measurement Period

For Ongoing Employees:
- Employers will establish a Look Back or Measurement Period
- 3 to 12 consecutive calendar months – Chosen by Employer
- Did employee average 30 hours per week?
- If employee is considered full time – the employee will be considered full time for a set period – Referred to as a Stability Period
- Stability Period: the future period during which an employer must offer coverage to a full time employee. Employer can choose the greater of
  - 6 calendar months in a row; or
  - The length of the look back period
Notification of ESR Penalty

How?
• IRS will contact employers to inform them of potential liability and provide opportunity for response. If ESR liability is confirmed, IRS will send notice and demand for payment.

When?
• After the employees’ individual tax returns are due claiming premium tax credits and after the due date employers must file the information returns identifying their FTE’s and describing any coverage offered.

2014-2015
Employee Counting

Small or Large ?
Small Group (outside exchange): (1-50)
• 50 or fewer “Eligible Employees”*

SHOP Exchange
• 50 or fewer using ESR’s full time equivalency calculation

Large Group: (51+)
• 51+ "Eligible Employees"*

ESR / “Play or Pay”?

• Step 1 Full Time Employee: Calculate the number of employees who work at least 30 hours per week or 130 hours in a given month.

• Step 2, “Full Time Equivalency”: For any non-full time employee (see Step 1), add up the total hours worked during a given month for every employee and divide by 120.
On the NH Marketplace:

• Two individual/family and small group options
• Can be purchased for children only or adults and children
• Children’s coverage will have annual out-of-pocket limits and will cover medically necessary orthodontia
