- **August 8, 2014** - Department submits QHP certification recommendations to federal agency (CCIIO)
- **September 2014** - CCIIO decides which plans to certify for sale on Marketplace
- **November 15, 2014** - Marketplace open to public to enroll, view plan details and rates

Preview of Marketplace Issuer Networks

All information provided in this presentation has been generated from insurance carrier applications and is current as of October 15, 2014.

This information does not represent final networks as they will appear on the Health Insurance Marketplace in 2015. Carriers continually negotiate contract terms with providers, and State review of these networks may result in changes to provider contracts or geographic coverage of health plans.

Hospital listings reflect only those hospitals located in NH. Essential Community Providers (ECPs) are medical care providers who serve predominantly low-income, or medically underserved patient populations as classified by CMS under 45 CFR 156.235 of the Federal Register.

2015 New Hampshire Insurance Market Profile

New Hampshire's insurance market will experience increased competition and selection during 2015
