Re: Workers' Compensation Advisory Loss Costs and Rating Values
NCCI Filing Effective January 1, 2012

The State of New Hampshire Insurance Department has approved the National Council on Compensation Insurance's Advisory Loss Cost and Rating Values filing dated August 1, 2011 (amended September 23, 2011) to be effective January 1, 2012.

The approved voluntary loss cost change is an increase of 6.7% on average. The average approved change for Assigned Risk rates is an increase of 3.6%. The residual market loss cost multiplier for 2012 will be 1.627. Insurers should refer to a previous Bulletin (Docket No. INS No. 11-018-AB, issued September 22, 2011) for additional information on incorporating the cost of the NH WC Administration Fund Assessment into their rates for voluntary coverage.

In line with our July 1, 1995 directive, all insurers writing Workers' Compensation coverage in the State of New Hampshire are required to adopt and use NCCI's WC Advisory Loss Cost and Rating Values effective January 1, 2012. No filings are necessary unless the insurer wants to change its loss cost multiplier for 2012. Approval of any such filing will be contingent upon the submission of appropriate justification along with a completed Form RFF-1, Prospective Loss Costs Reference Filing Adoption Form.

Furthermore, any filings received during January 2012 pertaining to this item may be retroactively applied to reflect an effective date of January 1, 2012.

Questions on this bulletin may be addressed to Jim Young at (603) 271-2261 or james.young@ins.nh.gov.
