RE: 2015 QHP Certification
NH Network Data Template Revision

This Bulletin supplements the Department's 2015 QHP certification bulletin, No. INS-14-010-AB, issued April 4, 2014.¹ The purpose of this Bulletin is to amend the NH Network Data Template issuers must complete and submit through SERFF as part of the process of having their non-grandfathered individual and small group health plans certified as Qualified Health Plans (QHPs) to be offered on the federally-operated New Hampshire Health Insurance Marketplace (Marketplace) for calendar year 2015.

NH Network Adequacy Template Revisions

Incorporating feedback from stakeholders, in light of the fact that the information in the NH Network Data Template will be made available to the public, the NH Network Data Template has been modified to reflect:

- (1) Removal of the "National Provider ID" data field;
- (2) Removal of the "Provider Sub-Specialty" data field;
- (3) New Instruction for the "Accepting New Patients" data field. This field is only required to be completed for Primary Care Providers; and
- (4) New instruction for the "Hospital Admit Privileges" data field. This field is only required to be completed for OB/GYN providers.
