

A Comparison of New Hampshire Personal Auto Insurance Premiums

The following exhibits show a comparison of premiums charged by 35 of the largest insurance companies (by 2022 direct written premium) in New Hampshire. These companies have submitted the premium they would charge for 7 different samples of insurance customers as of June 1, 2023. These examples differ by number and age of drivers, whether insured owns or rents their home, number of make/model of cars, number of traffic violations, driving tendencies, and accident history. Also, the companies considered these examples in 9 different sample locations in the state.

These examples all share some general assumptions:

- Bodily injury liability limit is \$100,000 per person, \$300,000 per occurrence.
- Property damage liability is \$100,000.
- Deductibles are \$500 collision and \$250 comprehensive.
- Medical payments are \$5,000.
- Premium is for a 12 month period and for new business.
- Premiums are not considered for multi-policy or package discounts.
- If insurer sells Single Limit Liability coverage only, premiums reflect a combined single limit of \$300,000.
- The insured had prior insurance with a standard carrier at the same limits, and there has been no lapse in coverage.
- If the company considers credit in calculating premium, they assumed that the policy holder has the highest credit rating. (Generally, lower credit scores will generate higher premiums.)
- Vehicles do not have anti-theft, anti-lock or other safety devices unless noted within VIN.

If the companies differed from these assumptions or made further assumptions specific to their product, it is posted in the notes section following the premium exhibits.

It is important to understand that these are only estimates of the premium based on the risk descriptions provided on the next page. Actual premiums will vary based on individual characteristics. In any purchase of insurance, you should talk to your agent about the level of insurance and any special coverages you may need. Remember, different agents service different companies. So, to get the best match of price and coverage, you may have to speak to multiple agents. These exhibits are intended only as a baseline comparison for the described scenarios.

* The companies included on this exhibit are selected based on premium volume for the most recently reported complete calendar year and are displayed in alphabetical order by company name.

* These are only ESTIMATES of the premium based on the risk descriptions provided on the accompanying page. Your premiums will vary based on your own characteristics.

* This exhibit shows only premium examples. In any purchase of insurance, you should evaluate coverage levels & offerings, service, agency vs direct writers and online options, and many other considerations.

* All premiums are based on the assumption that there are no deficiencies for the risk; i.e. the credit score if used should not keep the risk from being in the best priced tier or company.
