

Q: Are there any union/labor requirements for the 'Professional Septic Services a Two (2) New Hampshire Liquor and Wine Outlet Stores – 2019-03 project?

A: The NH Liquor Commission expects a contractor to ensure that a safe working environment is provided to the employees.

The collective bargaining agreement between the State of NH and the State Employees' Association of New Hampshire does not have any union/labor requirements for a contractor who will be providing "Professional Septic Services".
