

**New Hampshire's Percent for Art Program  
Request for Proposals for Art / Craft Work (RFP)  
For the New Hampshire Army National Guard,  
Construction and Facilities Management Office, Building F  
Concord, New Hampshire**

**Postmark or Delivery Deadline for Submissions: Friday, October 15, 2010**

The **New Hampshire State Council on the Arts**, in association with the New Hampshire Army National Guard, is pleased to announce a Request for Proposals (RFP) for Art / Craftwork for site-specific and existing artworks for the Construction and Facilities Management Office, Building F in Concord, New Hampshire. This Percent for Art project was made possible through State Arts Funds approved in the State Capital budget in fiscal year 2005.

**Artist Eligibility**

In order to receive a contract from the State of New Hampshire, an artist must be a legal resident of the United States and possess a Social Security number.

**About the Construction and Facilities Management Office, Building F**

The design and construction project called for the design of a new 6,000 square foot administrative office facility for the Construction and Facilities Management Division of the New Hampshire Army National Guard. The project involved renovation and expansion of the existing State of New Hampshire vehicle maintenance facility located on the western side of the military reservation along Airport Road.

The new single story administration facility houses; multiple private offices, open office areas, administrative support space, conference rooms, equipment storage and general core infrastructure. The primary building entrance is identified by a 1 ½ story vestibule which is pulled forward from the general building envelope and is composed of exposed steel beams, glass and a translucent canopy structure. The general facility design; intended to be contextual in nature, draws its conception from the simple, form follows function aesthetic associated with many of the buildings located throughout the military reservation.

**Site Selection Committee**

The selection of artwork for Percent for Art projects is overseen by a Site Selection Committee made up of site and art advisors. Site advisors include representatives from the agency or agencies housed in the building; the project architect if available; a representative from the Bureau of Public Works, Design & Construction; users of the building; and ideally a state legislator from the district where the building is located. Art advisors include one to three

individuals representing professional artists, craftspeople, art educators, or gallery directors. The meetings are facilitated by one or more staff members from the State Arts Council.

### **Selection Criteria**

The Site Selection Committee reviews proposals submitted by artists and makes recommendations for the selection of artwork based on the following criteria:

- Quality, appropriateness, and suitability of the proposed artwork in relation to the RFP:
  - design considerations - artworks must be durable, require minimal maintenance, meet safety standards, and adhere to building codes, and other state regulations.
  - medium, forms, and themes - suitability of the proposed medium, forms, and artistic concept to the stated themes (see below).
  - suggested locations – suitability of the proposed artwork to the location/s.
- The artist’s ability to carry out the commission, to keep the project within budget, and to complete and install the work on schedule. Assessment is based on evidence of successful projects undertaken and completed as noted in the artist’s resume and work samples.

### **Design Considerations**

Site-specific commissioned work and existing works for direct purchase are equally desirable. Due to the nature of this public facility, all work must be durable, low-maintenance, sturdy, and easy to maintain, and must pose no hazard to the public (for example, unprotected sharp edges and breakable mediums are not appropriate).

Selected artists are expected to work cooperatively with the architect, project manager, and building staff (or designated representatives) to make necessary adjustments in relation to building codes and other construction issues, and to assure smooth installation of the work. Particular attention will be directed to meeting security and functional requirements in a building that serves a diverse group of people. Security framing for 2-dimensional artworks and base systems for 3-dimensional artworks are required and must be included in the proposal.

### **Medium, Forms, & Themes**

The State of New Hampshire in conjunction with the New Hampshire Army National Guard seeks proposals for site-specific commissioned or existing art/craft works for interior and exterior spaces. Desired artwork mediums include, but are not limited to: photography, prints, graphic arts, mural painting, low-relief sculpture, fiber, glass, painting, pastel, clay, and free-standing sculpture. Undesirable mediums include fountains or the use of water, artwork that uses electricity and artwork that makes a sound, vibration, or hum (white noise).

The committees used the following words to describe the themes, metaphors, and tone that they hope the artworks will convey (see “Links of Interest” for researching ideas)

- History of the New Hampshire Army National Guard
- History of the Engineering Regiment
- History of the Military Reservation Land

- Service and honor
- Pride and commitment

The Committees are open to both realistic and abstract works for consideration but artists aiming for realism in their artworks need to consider military visual standards and as well as historical accuracy.

**Background on the Percent for Art Program**

The Percent for Art Program was enacted by the New Hampshire Legislature in 1979 to ensure that all forms of visual arts and crafts have an integral and important place in the public spaces of state buildings. The program seeks a genuine integration of art in architecture by giving an opportunity to building designers, planners, artists, state employees, arts professionals, and private citizens to collaborate in planning projects, and selecting, purchasing, or commissioning works of art by artists and craftspeople for state buildings.
