Total Property: 13,361 acres
Criteria 1: Undisturbed Landscape 4,723 acres
(No Timber Harvesting)
Criteria 2: Uneven Aged Management 3,677 acres
(1,509 Manageable Acres, openings up to 1 acre)
Criteria 3: Even Aged Management 4,961 acres
(3,257 Manageable Acres, openings up to 30 acres)

Additional constraints such as, buffer areas outlined in Good Forestry in the Granite State, special sites, and additional areas with difficult access and/or terrain exist in the manageable areas. To account for this and to provide a conservative estimate of harvestable acres, 2/3 of the manageable area is used to estimate the acreage available for timber harvesting.

Estimated Acreage Available for Timber Harvesting
(2/3 of manageable area)
Criteria 2: 1,005 acres
Criteria 3: 2,169 acres
Total: 3,441 acres
