

Employees of the Dearborn Brothers Tannery, Ca. 1875

The 2018 NH State Conservation and Rescue Archaeology Program Archaeology field school will take place at “the Hollow” located at Livermore Falls, on the Pemigewasset River, in the towns of Plymouth, Holderness and Campton, NH.

A preliminary survey was conducted during the 2016 SCRAP program at Livermore Falls that identified numerous archaeological features associated with the occupation at the “Hollow.” A 2017 survey identified intact features from a Native American occupation. Both components will be studied in 2018.

Field school participants will engage in excavation at one of the foundations previously identified and within the area of Native American sensitivity. Students will document specific activity areas that are associated with the site. Data recovery techniques, artifact identification and excavation documentation skills will be taught.

The field school is structured in two sessions, each two weeks long (July 9-20 and July 23-August 3). Fieldwork will take place daily on weekdays from 8 AM to 4 PM.

SCRAP Field School in Historical Archaeology

The “Hollow” Livermore Falls, NH July 9-August 3, 2018

All fieldwork and instruction will be directed by David Trubey, archaeologist with the NH Division of Historical Resources. The field school will conform to standards for archaeology set by the National Park Service.

2017 Field School Participants

For more information, contact the NH Division of Historical Resources at 603-271-2813.

2018 Field School Registration Form**

NAME _____ **E-MAIL** _____

ADDRESS _____ **PHONE #(S)** _____

Date of Birth _____ (Participants must be at least 16 years of age)

Please check below the sessions(s) you plan to attend and your participation status.

_____ Session 1 July 9 -20

_____ Session 2 July 23 – August 3

_____ SCRAP Volunteer

_____ Undergraduate Credit Student

_____ Graduate Credit Student

VOLUNTEER PARTICIPATION

Participants may obtain academic credit through Plymouth State University at either the undergraduate or graduate levels. Each week of participation is equivalent to one credit, and students may register for two to four credits. Credit students will be evaluated on their participation in field and laboratory work, plus completion of a research project. Costs for field school credit students include \$50 equipment and supplies fee, tuition and mandatory credit fees. These are: Resident undergraduate tuition and fees are \$481 per credit and Non-Resident Undergraduate tuition and fees are \$516 per credit. Resident graduate tuition and fees are \$563 per credit and Non-Resident graduate tuition and fees are \$643 per credit plus a \$30 registration fee. PSU registration forms can be obtained by contacting:

Individuals may participate as **SCRAP** volunteers. There is no fee for participation as a volunteer; however we request a \$40 donation to defray costs of supplies and instructional materials. Volunteers will receive the same instruction as credit students. Successful completion of the fieldwork will earn SCRAP certification for Survey and Excavation Technician status.
