

Bidder Questions and Answers Page Three

On exhibit B # 3 it says: "Cost must reflect equipment requirements specified in the RFP and include price of continuous signaling and drive by equipment."

A) Can you please explain what is meant by continuous signaling?

B) This is the only mention of drive by equipment I saw in the RFP. How many drive by's is the agency currently using or looking to have and will the agency be willing to pay for them?

A. System that maintains contact between the transmitter and a monitoring system.

B. Please disregard this question regarding drive by unit's.
