nhaisLOCAL
The Park Street Foundation

Pricing

This pricing (valid through December 2020) is for a local Koha system installed and supported by ByWater Solutions under contract to The Park Street Foundation.

<u>First Year Costs</u>

Implementation & Training	$1,500
Hosting & Support	$2,500
	$4,000 (due at the start of implementation)

Data Migration at $0.08 per bibliographic record
(due when bibliographic data file is delivered for loading and based on that file's record count)

<u>Annual Costs after the first year</u>

Hosting & Support $2,500
(due at the beginning of each calendar year after your first full year)

<u>The Fine Print</u>
- Systems will be hosted by ByWater solutions on ByWater equipment placed in the virtual networking cloud.
- Training will be done via live webinar for each implementation group over 3-5 days.
- Each library will have a unique IP address for their public catalog which will show only their holdings and information via the web and will include the individual library's logo.
- All public catalogs will have a consistent design across nhaisLOCAL.
- Data migration will be billed based on the number of bibliographic records in your load file. Item records, authority records, patron records, and circulation records will also be loaded into the new system, but are not counted for purposes of setting the data migration fee.
- These prices do not include any development costs, none are anticipated at this time, but if additional functionality beyond what Koha currently offers is needed the cost of that development would be in addition to the listed first year costs.
- Individual libraries will not have direct contracts with ByWater Solutions and all payments will be made by libraries to the Park Street Foundation which will contract with ByWater Solutions.
- In January 2021 we anticipate a price increase for participants of up to 10%. This would bring the annual hosting and maintenance fee (billed each January) to $2,750. You should plan your budgets for 2021 based on this figure. The January 2021 invoices will reflect the new pricing which will be finalized between ByWater and the State Library by August 2020. The 10% figure is the maximum increase we would have at that point which would be in place for the next 2 years (at least).
