

## **Public Meetings on the Draft State Energy Strategy**

Senate Bill 191 of 2013 required OEP, in consultation with the State Energy Advisory Council, to develop a strategy “to ensure that the state’s energy policies and programs support the state’s economic, environmental, and public health goals.”

On May 1, OEP released a Draft State Energy Strategy, and will host six public meetings around the state in June to seek public input on that draft:
