How do I access Census information for my community?

1. Visit American FactFinder at: http://factfinder2.census.gov

2. Begin Your Search

From the Main page:
- Select **Topics** on left
- The **Search Results** page displays
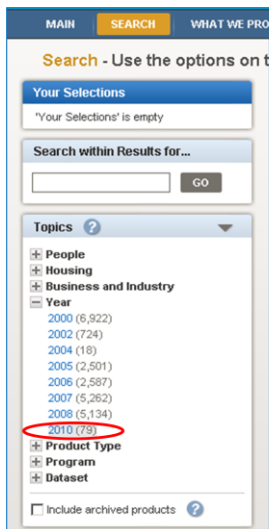

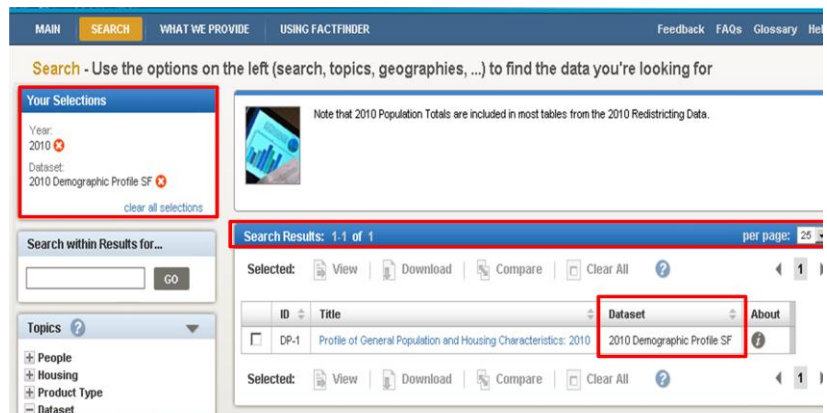

3. Select a Year & Dataset

Expand **Year:**
- Select "2010"

Expand **Dataset:**
- Select "2010 Demographic Profile SF"

"Your Selections" and **"Search Results"** are updated.
- The 2010 Demographic Profile Summary File table is the first item in the "**Search Results**" list
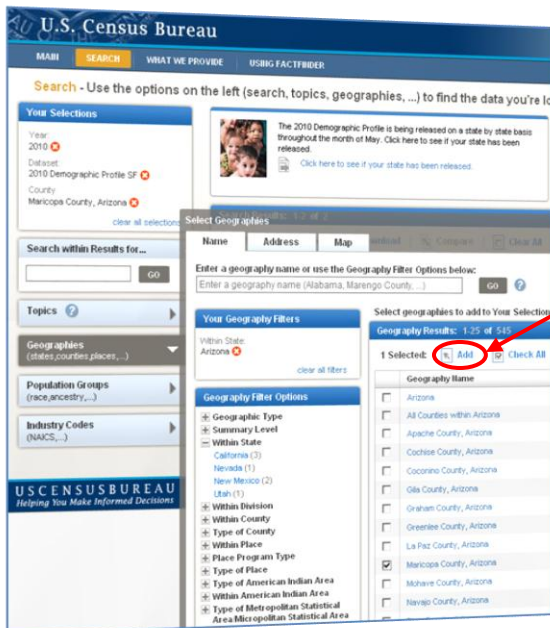

4. Select Your Geography

- **Select Geographies** – This will open the gray-bordered **Select Geographies** overlay window
- Use the **Geography Name** text search option or **Geography Filter Options** to select Geographies
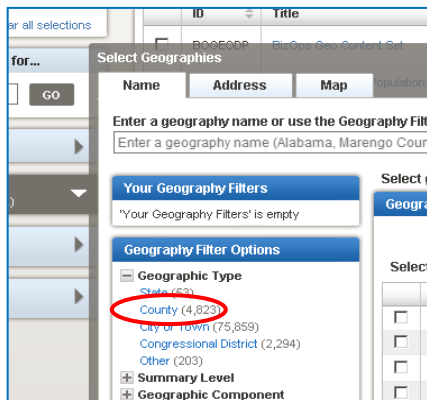

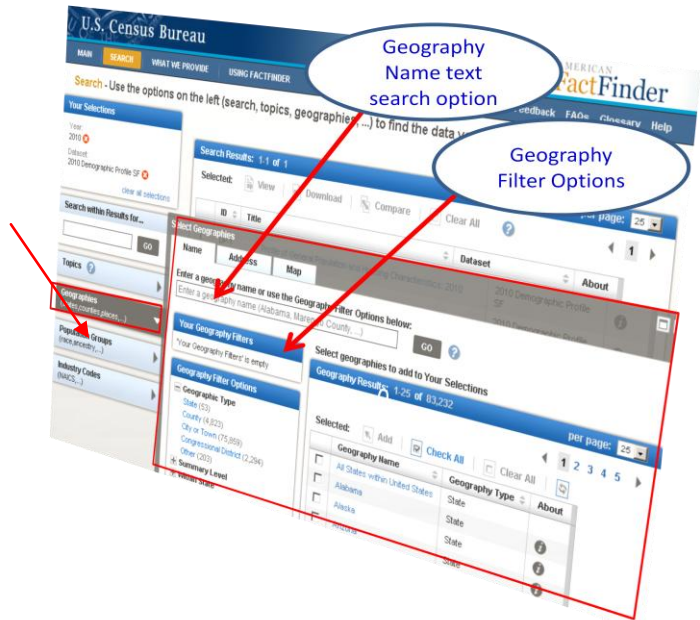

EXAMPLE: Find data for Maricopa County, Arizona

- Use the **Geography Filter Options** to select your Geography type
- Select the **Geographic Type County**

Expand **Within State:**
- Select "Arizona"
- Check box next to "Maricopa County"
- Click **Add**

- **"Your Geography Filters"** and **"Geography Results"** are updated

IMPORTANT NOTE:
- Close the gray-bordered **Select Geographies** overlay window

Select and View Search Results

- Select the Demographic Profile Summary File table from the "**Search Results"** list:
  - o Click on Profile of General Population and Housing Characteristics: 2010 to view the table
    - **OR**
  - o Use the checkbox and the View button to view the table

- The selected table is displayed
- Use the "Actions" menu options to:
  - o **Modify Table**
  - o **Bookmark**
  - o **Download**

    TIP: *Use the Download option to download the table in a database compatible format from the Search Results page.*
  - o **Create Map** (only applies when you have two or more of the same geography types selected (i.e., two or more counties, two or more states, etc.)
  - o **View Table Notes** (If available)
