All time worked on Sundays and holidays shall be paid at a rate of one and one-half (1½) times the employee's regular wage rate, provided that an employee who is assigned an overtime shift on Sunday or holiday shall be paid at twice the regular wage rate for all hours worked.

All overtime will be maintained by a seniority list kept in the office. The Chief or Assistant Chief will contact the ranking Union Shift Officer and request a specific number of persons qualified to fill the overtime(s) in the proceeding work schedule. The record shall show the date of call and the response from each person called as to whether it was refused on duty, no answer, sickness, or vacation. All overtime shall be served, and, in the case of an exchange of scheduled overtime, it shall be the responsibility of the employee filling the exchange to assure that the overtime is filled. If a member does not select his one or two week vacation within the allowed time, he shall be passed by the members following him on the seniority list. During the second round of vacation bid selections a member may opt to withhold one week of vacation time in order that he/she may schedule individual vacation days as desired over the course of the year. Requests for the scheduling of such individual days shall be accomplished using a form to be provided by management. Not more than two (2) men may take vacations concurrently, unless the aggregate number of days vacations due all employees covered by this Agreement shall exceed seven hundred and thirty (730).

Section 4. Members of the Fire Department for reasons of sickness or injury occurring prior to the scheduled start of a vacation may cancel such vacation and may reschedule said vacation for any dates left on the vacation list. However, any member who cancels his vacation because of sickness or injury shall not reschedule his vacation until the vacation list has been completed in its entirety by all other employees in accordance with Article 11. Sections 1-2-3. Such rescheduling shall not interfere with vacations already scheduled regardless of seniority. Any Fire Department employee who is injured (on the job or off the job), who has vacation scheduled between the date of said injury and the end of the calendar year, and who, because of said injury, cannot take the remainder of his vacation by the end of the same calendar year, will be permitted an extended period of time, not to exceed six months, from the date of return, in the following calendar year to take that vacation, after which the vacation opportunity will be lost if not taken within the aforesaid six (6) months.

This pertains to Department employees who return to work before the end of the year, but, because of existing vacation schedules, no vacation slots are available; they must carry into the following year the time due. Returning employees who do not avail themselves of remaining and available vacation slots in the same calendar year will lose the opportunity of vacation carry over as set forth in the previous paragraph. Likewise, any employee who qualifies to avail himself of the vacation carry over as set forth herein, above, in the succeeding calendar year and does not do so within the first six (6) months thereof will lose the opportunity of vacation carry over. Employees qualifying for and availing themselves of vacation carry over in the following calendar year may do so but must first await the first two vacation bid selections for employees seeking regular vacation time within the first six months of the succeeding calendar year.
