The Union President may then request a meeting with the Chief to discuss the modifications and the impact upon working conditions of employment.

## **Article-13 Grievance Procedure**

- 1. A grievance under this Article is defined as an alleged violation of any provision of this Agreement in which the individual grievant alleges a personal loss or injury, or action by the Town (or its representative) that contradicts the language of this agreement.
  - a. An employee who has a "complaint" must take up the complaint with his immediate supervisor verbally before he can process the complaint as a formal grievance. The immediate supervisor shall give his answer within five (5) business days. It is anticipated that nearly all complaints can be resolved informally without grievance.
  - b. By mutual agreement, the Union and the Fire Chief may initiate the grievance procedure at Step 2.
- 2. Each grievance must be submitted in writing by the Union and must contain a statement of the fact surrounding the grievance, the provision(s) of this Agreement allegedly violated, the relief requested and the extent to which the grievant has sought an informal adjustment of the grievance.
- 3. Procedure
  - a. Step 1 - An employee desiring to process a Grievance must file a written statement of the Grievance with the immediate supervisor no later than ten (10) business days after the employee knew of the facts on which the Grievance is based and in no case, no more than three (3) months from the occurrence. The supervisor shall meet the employee within three (3) business days following receipt of the Notice and shall give a written decision within five (5) business days thereafter.
  - b. Step 2 - If the Union is not satisfied with the decision of the supervisor, the Union may file within ten (10) business days following the supervisor's decision a written appeal to the Assistant Fire Chief setting forth the specific reasons why he believes the Agreement is being violated by the Town action in question. Within ten (10) business days following receipt of the appeal, the Assistant Fire Chief or his designee shall meet with the Union. The Assistant Fire Chief shall give a written decision within five (5) business days thereafter.
  - c. Step 3 - If the Union is not satisfied with the decision of the Assistant Fire Chief, the Union may file within ten (10) business days following the Assistant Fire Chief's decision a written appeal to the Fire Chief setting forth the specific reasons why he believes the Agreement is being violated by the Town action in question. Within ten (10) business days following receipt of the appeal, the Fire Chief or his designee shall meet with the Union. The Fire Chief shall give a written decision within five (5) business days thereafter.
  - d. Step 4 - If the Union is not satisfied with the decision of the Fire Chief the Union may file, within ten (10) business days following the Fire Chief's decision, a written appeal with the Town Administrator setting forth the specific reasons why he believes the Agreement is being violated by the Town action in question. Within ten (10) business days following receipt of the appeal the Town Administrator or his designee shall meet with the Union. The Town Administrator shall give a written decision within five (5) business days thereafter.
  - e. Step 5 - If the Union is not satisfied with the decision of the Town Administrator, the Union may file within ten (10) business days following the Town Administrator's decision, a written request with the Town Administrator for Grievance Mediation by the Federal Mediation and Conciliation Service prior to submitting to arbitration. Providing both parties mutually agree to Grievance Mediation, the parties shall submit a joint written request to the FMCS for assistance. Should either party disagree, then the grievance shall immediately move to arbitration. The parties agree to

abide by all guidelines set forth by the FMCS for Grievance Mediation. The parties further agree to waive all stated time limits herein while pursuing Grievance Mediation through the FMCS. Should the FMCS deny the request for assistance, or the parties fail to reach a resolution through Grievance Mediation, the employee may immediately move the grievance to Step 5.

- f. Step 6 - If the Union is not satisfied with the decision of the Town Administrator or the outcome of Step 4, the Union may file within twenty (20) business days following receipt of the decision of the Town Administrator or his designee a request for arbitration to the American Arbitration Association under its rules and regulations. The decision of the arbitrator shall be final and binding on the parties.
4. The party against whom the decision is rendered shall pay any and all expenses relative to the arbitration.
5. The foregoing time limitations may be extended by mutual agreement of the parties. Such extension shall be agreed to in writing.
6. Failure of the grievant to abide by the time limits set out in this Article shall result in the grievance being deemed settled on the basis of the last decision made by the appropriate "hearing officer" on behalf of the Fire Department.
7. If the Town fails to abide by the time limits set out in this Article then the grievant shall be able to move the grievance to the next available step.
8. The employee will, within three (3) business days prior to the date of a hearing, notify the Fire Chief, or his designee, in writing, of the names of Unit/Union members whom he wants to represent him, and testify on his behalf. The Town agrees to provide coverage for at least the representative and two (2) of the testifying members whose names appear on the list.

## **Article-14 No-Strike**

1. The Union and its members agree not to cause, condone, sanction, or participate in any strike, walkout, slowdown or work stoppage.
2. The Union and its members agree that each and every employee violating this Article shall be subject to disciplinary action by the Department.

## **Article-15 Residency Clause**

1. It is desirable to have all employees live within a thirty (30) mile radius of headquarters.
2. Members of this unit agree to a re-opener limited to a residency requirement should it be deemed operationally necessary and if jointly agreed upon during the term of this agreement.

## **Article-16 Protection of Department Property and Equipment**

1. It shall be the responsibility of any and all employees having custody of any equipment and/or property of the Department to see that it is properly cared for, kept clean, and returned to its proper place of storage.
2. All property issued by the Department to any employee must be returned upon separation from employment.
3. It shall be the sole financial responsibility of any employee for all lost or damaged Department equipment unless such loss or damage occurs in the official line of duty. Such incidents shall be reported immediately to the employees shift supervisor. The shift supervisor may elect to advise the Fire Chief as expediently as is practical.

## **Article-17 Seniority**

1. For the purpose of this Agreement there shall be three (3) types of seniority.
  - a. Department Seniority - Shall be defined as the total length of full-time employment with the Department and shall be determined in the first instance by reference to the date of commencement of employment. Employees hired on or after July 1, 2007 shall be ranked by the Town as of the date hired and a list shall be published. (See Appendix C)
  - b. Seniority shall be determined by continuous service in the Fire Department calculated from the date of employment. Continuous service shall be broken only by resignation, discharge, retirement, or layoff. If employees are hired on the same date, seniority shall be based on the date and order of conditional offer.

- c. Job Classification Seniority - Shall be defined as the total length of full-time employment in a particular job classification, and shall be determined in the first instance by reference to the date of commencement of employment in that job classification.
  - d. Unit Seniority - Shall be defined as the total length of time an employee is a member of the Unit.
2. Should two (2) or more employees be appointed to their present job classification on the same date, the employee with the greater department seniority shall be deemed to have the greater job classification seniority.
  3. Should two (2) or more employees have identical department seniority then the employee with the greater job classification seniority shall be deemed to have the greater department seniority.
  4. The Town will prepare department, unit, and job classification seniority lists on, or about, January 1. Lists will be posted and a copy forwarded to the Union President.
  5. An employee's normal work assignment shall be determined by the Fire Chief or his designee (senior officer on duty), and he shall be assigned to said work provided he is qualified for the job consistent with the requirements established by the Department to maintain the necessary level of proficiency appropriate for efficient operations within the Department.
  6. The Fire Chief, or his designee, shall be the sole judge of qualifications and ability. Preference shall be given based on unit seniority for the selection of earned time. In addition, where all other factors of qualification and ability are equal in decisions relating to promotions, seniority shall be the determining factor regarding such promotion.

## **Article-18 Personnel Reduction and Recall**

1. In case of personnel reduction, probationary employees, including those deemed "temporary" by the Town, shall be laid off prior to any permanent employee.
2. For the purpose of this article, all employees who have achieved ten (10) years of service with the Department will be considered "tenured" and exempt from the layoff process until such time as all non-tenured employees have been laid-off. All non-tenured Unit members will form the initial list from which the personnel reduction will be made. Department seniority will be the primary, but not the only consideration in personnel reduction.
3. The Town agrees that no member of this Unit who was an employee on July 1, 2005 shall be subject to any layoff or demotions during their respective careers with the Town except for just cause.
4. All future reductions in workforce shall occur as outlined in this Agreement except that if there is any staffing reduction involving those members who were employed at the time of the consolidation or merger, or who were hired as a result of an East Derry layoff, or who were employed by the Derry Fire Department at the time those employees were hired, it shall be limited to attrition only.
5. It is understood that the Department must maintain certain numbers of members with specialized skills (i.e. paramedics, dispatchers) to satisfy contractual obligations. If layoffs would affect the Department's ability to provide these services, the employee possessing the required skills may be excluded, and the next member with the least seniority, without consideration of the employees Unit, could be affected. Should such a situation arise, the Union reserves the right to consultation with Management regarding the affected employee(s).
6. The names of employees laid off from the Unit will be maintained on a recall list for twenty-four (24) months. A copy of this list shall be forwarded to the Secretary of Local 4392 within ten (10) days.
7. Such employees will be offered recall when or if vacancies occur in the Unit. Employees shall be recalled in the order of their seniority and qualification. No new employee shall be hired until all laid-off employees have been given an opportunity to return to work.
8. If a laid-off employee is notified by certified letter, sent to his last known address on the records of the Fire Department to return to work, he must notify the Department in person, or by certified mail, within five (5) business days of the notification of his intention to accept, and must report to work within fourteen (14) days of such notification, or he shall cease to have any rights based on seniority and shall be removed from the recall list.

9. Should an opening occur within the Department, in a position other than that in which the next eligible employee worked prior to being laid-off, he may refuse this opening without affecting his position on the recall list.
10. Recalled employees who return to work will be credited with prior length of service. Employees recalled after twelve (12) months must certify at Firefighter/EMS level held at the time of the layoff and pass a physical exam provided such employee has not withdrawn his contribution from the State Fire Fighters Retirement System.
11. In the event of a layoff or reduction in the Officer's Unit, members of this unit may be bumped by an officer with more department seniority than they have and said employee may bump down to dispatch as long as said employee has more department seniority than the least senior dispatcher.
12. In the event that the Town determines the need for any reductions they shall commence discussions with the Union to discuss alternative solutions to layoffs.
13. In the event that the Town determines the need for reductions they agree to notify the Unit of any "buy-out package". Such a package will be offered to all Unit members.

## Article-19 Holidays

1. The following holidays are those that shall be recognized and observed by Agreement:

New Years Day	Labor Day
President's Day	September 11
Martin Luther King Day	Veteran's Day
Memorial Day	Thanksgiving Day
Independence Day	Christmas Day

## Article-20 Holiday Pay

1. In order to qualify for holiday pay, dispatchers, employees assigned to staff positions, and line personnel who are temporarily assigned to staff positions (40 hour per week positions), except for light duty assignments, must have worked their scheduled workday before and after said holiday. For purposes of such eligibility, authorized disability leave or authorized earned time or an approved special leave shall be considered time worked. Any exceptions to this shall only be with the approval of the Fire Chief.
2. Employees assigned to line positions shall receive holiday pay regardless of whether they physically worked the day and/or shift before or the day and/or shift after the holiday.
3. On duty line and dispatch personnel will receive 30% of their gross weekly base pay as holiday pay, when they work 50% or greater of the scheduled hours of duty, as defined in Article 29 Section 3 for line personnel and Appendix B for dispatchers; off duty line and dispatch personnel, and on duty personnel who work less than 50% of the scheduled hours of duty, will receive 20% of their gross weekly base pay as holiday pay.
4. Staff personnel shall have the observed holiday off with pay. When a holiday is observed on the employee's day off the employee shall be given eight (8) hours of additional earned time.

## Article-21 Earned Time

1. Earned time is an alternative approach to the traditional manner of covering absence for vacation, personal days, maternity leave, military leave, and sick leave. Instead of dividing benefits into a specific number of days for each benefit, earned time puts these days together into a single benefit. Earned time can be used for a variety of purposes, including a payment in cash at the time of termination. Earned time is available as soon as it is "earned." The exact number of earned time hours available each year will depend on the years of service to the Town.
2. Employees who are employed in a full time position are covered by earned time. The accrual rates are as follows:

Years of Service	Per Month Hours	Annual hours
0 thru 6 yrs	22	264
After 7 thru 11 yrs	26	312
After 12 thru 15 yrs	30	360

After 16 thru 20 yrs	34	408
After 21 thru 24 yrs	38	456
25 and above	42	504

3. For the purposes of the earned time benefit, years of service will be calculated from the initial date of employment. Employees may accumulate earned time based on regularly scheduled hours worked or in pay status up to those hours budgeted for the position (other non-status hours worked in supplemental compensation such as overtime are excluded) and on years of service to the Town.
4. Excess of 672 hours may, at the employee option, be purchased by the Town at a rate of one earned hour for one hour's pay. An employee interested in selling accrued earned time in excess of 672 hours shall notify the Fire Chief in writing prior to December 1, March 1, or September 1 of their intent to sell the excess hours. The date of purchase will be the third payday in January for the excess as of December 31<sup>st</sup>. For written notices received on or before March 1<sup>st</sup>, the date of purchase will be the third payday in April for the excess as of March 31<sup>st</sup>. For written notices received on or before September 1<sup>st</sup>, the date of purchase will be the third payday in October for the excess of September 30<sup>th</sup>.
5. Accrual limits shall be: 1344 hours.
6. Termination and Restoration of Service Credit: An employee whose break in service from the Town is less than one year will have his service bridged for purposes of computing earned time accrual. For breaks of more than one year, any consideration for prior service shall be at the sole discretion of the Town Administrator.
  - a. For the purposes of this section, termination shall include any approved leave of absence such as for health reasons, military leave, and also includes layoffs.
7. Usage of Earned Time
  - a. Earned time may be used at any time after being earned.
  - b. The Fire Chief or his designee will approve all requests for non-emergency earned time. Once approved the selection is guaranteed.
    - 1) In the event of a non-requested transfer or promotion, the member's previously approved earned time shall be guaranteed.
    - 2) An employee request to use Earned Time in increments of less than one half of the employee's scheduled shift will be granted conditionally and will not be guaranteed until another member agrees to work the hours during which the employee has requested to use Earned Time. This provision shall not apply to fire prevention personnel or mechanical division personnel.
  - c. No more than three (3) line firefighters and one (1) dispatcher shall be on non-emergency earned time from the same duty shift except for Thanksgiving and Christmas when there shall only be two (2) firefighters and one (1) dispatcher on non-emergency earned time.
  - d. All employees requesting non-emergency earned time will fill out an earned time request and submit it to the Fire Chief or designee for approval.
  - e. Non-emergency earned time may be used in increments of one (1) hour with a minimum of two (2) hours.
  - f. Non-Emergency earned time for each calendar year may not be requested prior to January 1<sup>st</sup>.
  - g. Earned time will be approved based on Unit Seniority. Each member of this Unit; based on Unit Seniority on their respective Battalion, will have two (2) weeks to make their selection starting on January 1.
  - h. Non-Emergency earned time may not be signed up for prior to January 1<sup>st</sup> of that year.
  - i. Earned time for line firefighters will be selected based on seniority.
    - 1) Each battalion will divide up into thirds
    - 2) For their selection, each member can only select up to six (6) twenty-four (24) hour shifts
    - 3) The first third will select through the 15<sup>th</sup> of January.
    - 4) On the 15<sup>th</sup> of January the next third will choose their selections until January 28<sup>th</sup>.
    - 5) The last third will select from January 28<sup>th</sup> through February 11<sup>th</sup>.
    - 6) After February 12<sup>th</sup> all other requested earned time would be selected based on availability and all other earned time rules shall apply at this point.
    - 7) After an individual's selection window has passed they must wait for the complete selection process to the end before applying for earned time after February 12<sup>th</sup>.
      1. A senior employee may "bump" a less senior employee who has requested earned time after February 12<sup>th</sup> within fourteen (14) days of that request.
    - 8) Exception: An individual may sign up for earned time for the following year prior to the January 1<sup>st</sup> date, but only with notice and approval of all senior members of their assigned Battalion.

- j. Earned time for dispatchers will be selected based on seniority.
  - 1) Dispatchers will select through the 28<sup>th</sup> of January.

## **Standard on Comprehensive Occupational Medical Program for Fire Departments 2018 Edition**

### **Chapter 5 Essential Job Tasks**

#### **5.1 Essential Job Tasks and Descriptions.**

5.1.1 The fire department shall evaluate the following 14 essential job tasks against the types and levels of emergency services provided to the local community by the fire department, the types of structures and occupancies in the community, and the configuration of the fire department to determine which tasks apply to their department members and candidates:

- (1)\* While wearing personal protective ensembles and self-contained breathing apparatus (SCBA), performing firefighting tasks (e.g., hoseline operations, extensive crawling, lifting and carrying heavy objects, ventilating roofs or walls using power or hand tools, forcible entry), rescue operations, and other emergency response actions under stressful conditions, including working in extremely hot or cold environments for prolonged time periods
- (2) Wearing an SCBA, which includes a demand valve–type positive-pressure facepiece or HEPA filter mask, which requires the ability to tolerate increased respiratory workloads
- (3) Exposure to toxic fumes, irritants, particulates, biological (infectious) and nonbiological hazards, and heated gases, despite the use of personal protective ensembles and SCBA
- (4) Depending on the local jurisdiction, climbing six or more flights of stairs while wearing a fire protective ensemble, including SCBA, weighing at least 50 lb (22.6 kg) or more and carrying equipment/tools weighing an additional 20 to 40 lb (9 to 18 kg)
- (5) Wearing a fire protective ensemble, including SCBA, that is encapsulating and insulated, which will result in significant fluid loss that frequently progresses to clinical dehydration and can elevate core temperature to levels exceeding 102.2°F (39°C)
- (6) While wearing personal protective ensembles and SCBA, searching, finding, and rescue-dragging or carrying victims ranging from newborns to adults weighing over 200 lb (90 kg) to safety despite hazardous conditions and low visibility
- (7) While wearing personal protective ensembles and SCBA, advancing water-filled hoselines up to 2 1/2 in. (65 mm) in diameter from fire apparatus to occupancy [approximately 150 ft (50 m)], which can involve negotiating multiple flights of stairs, ladders, and other obstacles
- (8) While wearing personal protective ensembles and SCBA, climbing ladders, operating from heights, walking or crawling in the dark along narrow and uneven surfaces that might be wet or icy, and operating in proximity to electrical power lines or other hazards
- (9) Unpredictable emergency requirements for prolonged periods of extreme physical exertion without benefit of warm-up, scheduled rest periods, meals, access to medication(s), or hydration
- (10) Operating fire apparatus or other vehicles in an emergency mode with emergency lights and sirens
- (11) Critical, time-sensitive, complex problem solving during physical exertion in stressful, hazardous environments, including hot, dark, tightly enclosed spaces, that is further aggravated by fatigue, flashing lights, sirens, and other distractions
- (12) Ability to communicate (give and comprehend verbal orders) while wearing personal protective ensembles and SCBA under conditions of high background noise, poor visibility, and drenching from hoselines and/or fixed protection systems (sprinklers)
- (13) Functioning as an integral component of a team, where sudden incapacitation of a member can result in mission failure or in risk of injury or death to civilians or other team members
- (14) Working in shifts, including during nighttime, that can extend beyond 12 hours

## **Annex A – Explanatory Material**

A.5.1.1(1) A member, while wearing full protective clothing (turnout coat and pants, helmet, boots, and gloves) and SCBA, is required to safely perform a variety of fire-fighting tasks that require upper body strength and aerobic capacity. For those not familiar with fire suppression, the following specific details inherent to the activities in essential job task 1 are offered:

- (1) Lifting and carrying tools and equipment (e.g., axe, halligan tool, pike pole, chain saw, circular saw, rabbit tool, high-rise pack, and hose) that weigh between 7 lb and 20 lb (3.2 kg and 9 kg) and are used in a chopping motion over the head, extended in front of the body, or in a push/pull motion.
- (2) Advancing a 1 3/4 in. (45 mm) or a 2 1/2 in. (65 mm) diameter hose line, which requires lifting, carrying, and pulling the hose at grade, below or above grade, or up ladders. In addition to the weight of the hose itself, a 50 ft (15 m) section of charged 1 3/4 in. (45 mm) hose contains approximately 90 lb (41 kg) of water, and a 50 ft (15 m) section of 2 1/2 in. (65 mm) hose holds approximately 130 lb (59 kg) of water.
- (3) Performing forcible entry while utilizing tools and equipment (e.g., axe, halligan tool, chain saw, circular saw, or rabbit tool) that requires chopping, pulling, or operating these items to open doors, windows, or other barriers to gain access to victims or possible victims or to initiate firefighting operations.
- (4) Performing ventilation (horizontal or vertical) utilizing tools and equipment (e.g., axe, circular saw, chain saw, pike pole) while operating on a flat or pitched roof or operating off a ground or aerial ladder. This task requires the fire fighter to chop or push tools through roofs, walls, or windows.

Other tasks that could be performed can include search and rescue operations and other emergency response actions under stressful conditions, including working in extremely hot and cold environments for prolonged time periods.
