## 1) Choose a Course

### **Basic Rider Course (BRC)**

**NH resident - \$155 Non-NH resident - \$205**

The Basic Rider Course is designed for beginner riders with little or no previous motorcycle experience and anyone working toward getting their motorcycle license. Students need the ability to balance and ride a bicycle. Students learn about different types of motorcycles, their controls, how they operate and will begin developing and practicing the mental and motor skills necessary for safe riding.

The BRC combines classroom instruction with on-cycle riding practice. Class times will vary but students will spend a minimum of 5 hours in the classroom and 10 hours riding. All riding exercises are conducted at slow speeds on a closed range.

Students take a written knowledge test and a riding skill test as part of the course. Students who complete the course and pass both evaluations receive a completion card that will waive the motorcycle skills test given at the NH DMV for a motorcycle endorsement. Non-NH residents need to contact their home state DMV to confirm acceptance of the completion card.

Motorcycles and helmets are provided but students are responsible for providing the following protective clothing: eye protection, gloves, boots that cover the ankles, sturdy pants and a jacket

### **Intermediate Rider Course (IRC)**

**NH resident - \$60 Non-NH resident - \$80**

This one day refresher course is a continuation of the Basic Rider Course. It is designed for riders who completed a BRC within a twelve-month period and who want more practice on the motorcycle. A student who took the BRC and did not pass the riding skill evaluation can re-take the skill evaluation during the IRC in order to receive a waiver for a motorcycle endorsement.

### **Experienced Rider Course (ERC)**

**NH resident - \$65 Non-NH resident - \$85**

This one-day course is designed for riders with at least one year of motorcycle experience and a motorcycle endorsement. The ERC class consists of approximately 7 hours of on-cycle training and discussion sessions. Students use their own registered, state-inspected motorcycles for range exercises. Proper riding gear, including a helmet, is required.

## Frequently Asked Questions

### **Do I need a motorcycle permit to take a class?**

No, you do *not* need a motorcycle permit for the **Basic Rider** class. If under 18 you need a valid Driver License. For the **Experienced** class, you do need a valid Motorcycle License.

### **Do I need to have my own motorcycle?**

For the Basic and Intermediate Rider Courses the DMV supplies motorcycles and helmets. For the **ERC**, students must bring their own street-legal motorcycle and D.O.T. approved helmet.

### **Do I automatically get my Motorcycle license at the end of the course?**

Students that are successful in the skills and written tests given during the course receive a completion card and with this will be able to add the motorcycle endorsement to their NH license without further testing at the DMV.

Non-NH residents need to contact their home state DMV to confirm acceptance of the completion card.

### **I have my motorcycle license but haven't ridden for a while or I am currently riding but would like a challenge. What does MRT have for me?**

Every year many returning and current riders take our courses to rejuvenate or sharpen their skills. All three of our classes are appropriate for those holding a MC license. Feel free to call the office to discuss which would be right for you.

### **How do I sign up for a class with a friend?**

Send separate checks and registration forms for each student in the same envelope. Because class size is limited, we cannot guarantee multiple people being placed in the same class.

### **What if there is bad weather?**

Courses run rain or shine, hot or cold.

### **Can I just drop-in for a class?**

No. Only pre-paid and pre-registered students will be admitted.
