MGT-904 Intermediate ICS-300 for Expanding Incidents

The Intermediate ICS for Expanding Incidents course provides training and resources for personnel who require advanced application of the Incident Command System (ICS). The course expands upon information covered in Introduction to Incident Command System (ICS-100) and ICS for Single Resources and Initial Action Incidents (ICS-200). Topics covered in the course include ICS staffing and organization, reporting and working relationship, information flow, transfer of command, unified command functions in a multi-jurisdictional or multi-agency incident, ICS forms, resource management, and interagency mission planning and procurement.

**Objectives**

* Describe how the NIMS Command and Management component supports the management of expanding incidents.
* Describe the incident/event management process for supervisors and expanding incidents as prescribed by the Incident Command System (ICS).
* Implement the incident management process on a simulated expanding incident.
* Develop an Incident Action Plan for a simulated incident.
