To register go to the link below for Friday’s High Performance CPR Workshop:

https://littletonhealthcare.org/ems_conf_application.php

October 27, 2017
North Conway Grand Hotel
The Northern New England States of New Hampshire, Vermont and Maine are collaborating on the development of a Northern New England Resuscitation Academy. The goal of the Academy, similar to the Resuscitation Academies in Seattle/King’s County and Maryland, is to improve survival from cardiac arrest. The Northern New England Resuscitation Academy is designed to help EMS managers, directors and medical directors improve cardiac arrest survival in their communities. The program will teach attendees the steps to improve survival from cardiac arrest, develop local leadership in cardiac arrest care and review successes from other New England EMS agencies, learning how these services improved survival from cardiac arrest. Topics will focus on the interventions essential to prehospital cardiac arrest survival, including high performance CPR and the science of resuscitation.

Speakers include:
Sarah Lamb, VT CARES Coordinator
Aaron McIntire, NRP, NH Concord Fire Department
Kevin Seaman, MD, Maryland RA Medical Director
Matthew Sholl, MD, ME EMS Medical Director
James Suozzi, DO, NH EMS Medical Director
Daniel Wolfson, MD, VT EMS Medical Director
Kate Zimmerman, DO, ME Associate Medical Director

Agenda
(Please note - times are approximate)
8:00   Sign-in
9:00   Welcome and Opening Remarks
       James Suozzi, DO
9:15   Keynote – Cardiac Arrest State of the Science
       Elements of CPR
       Performance Measures of EMS
       Kevin Seaman, MD
10:30  Break
10:45  Team focused CPR
       Minimal Interruptions, Assessment Tools, Data and QI
       Kevin Seaman, MD
12:00  Lunch
1:00   High Performance Emergency Medical Dispatch
       James Suozzi, DO
2:00   CPR and Naloxone
       Daniel Wolfson, MD
2:30   Break
2:45   Panel Discussion & Success Stories
       Lamb, McIntire Seaman, Sholl Suozzi, Wolfson, Zimmerman
4:15   Wrap-Up Discussion
