

Playing Streaming WebEx Recordings of Elite Trainings

To play the streaming WebEx recording, you must install the program that pops up when you go to open the recording.

- If your system IT restrictions do not allow you to install a program on your computer, then click the link for “Use Java” and you will be able to play it.
- Allow time for the recording to start loading / buffering before you play it for a group, especially if you have a slower internet connection.
