

PETITION TO ESTABLISH A "NO-WAKE ZONE" BETWEEN THE TIP OF FINISTERRE POINT AND POTATO ISLAND,
BIG SQUAM LAKE, HOLDERNESS, NEW HAMPSHIRE

We are signing and submitting this petition under the provisions enumerated in New Hampshire Administrative Statutes and Rules Chapter 270, Section 270:12. The undersigned are requesting that the Commissioner of Safety or other appropriate authority establish a "no-wake zone" between the tip of Finisterre Point between the southern tip of Livermore Cove extending to Potato Island, a distance of approximately 250 feet. By establishing a no-wake zone in this narrow passage, the safety of swimmers and wildlife would be protected. Most especially, Potato Island is frequently used as a nesting site by loons, and boat traffic in the area is both highly disruptive to loon nesting behavior and dangerous to loon chicks. As neighbors, abutters, and/or Squam Lake property owners, we respectfully request that this area be designated as a no-wake zone in order to minimize the speed with which boats traverse this passage, thereby enhancing public safety and protecting threatened loons. Unless otherwise noted, date of signing is 7/6/19.
