PRESS RELEASE

OPERATION BOOSTER BLITZ ATTENDEES SHOULD PLAN FOR EXTRA TRAVEL TIME

CONCORD, N.H. – The National Weather Service in Gray, Maine, has forecasted freezing rain for parts of New Hampshire during the morning hours of Saturday, Dec. 11, 2021. Anyone who is attending Operation Booster Blitz is urged to plan for extra travel time.

If you need to drive, remember these winter weather safety tips:

- Bridges, overpasses, and exposed road areas are the most prone to slippery conditions.
- Leave extra space between your vehicle and the vehicle in front of you.
- Leave early and give yourself extra time to get to your destination.
- Drive slowly so you can arrive at your destination safely.

If you need to cancel your appointment, please call 603-271-1000.

We would like to remind everyone that this clinic is for ages 18 and older and attendees must have an appointment.

People 16 years of age and older can receive a booster dose after completing a primary series, but official CDC guidance is still pending, and until we have that, it's unlikely people will be able to access booster doses (at any location) for their 16- to 17-year-olds. We need that guidance to update protocols and medical orders.

Another Booster Blitz clinic will be held in January.
