NEWS RELEASE

FEWER THAN 5,000 CUSTOMERS REMAIN WITHOUT POWER IN NEW HAMPSHIRE

State Emergency Operations Center returns to Steady State

CONCORD, N.H. – As of 7:30 p.m. Thursday, fewer than 5,000 customers in New Hampshire remain without power. The State Emergency Operations Center returned to Steady State at 8 p.m. Thursday.

“We would like to thank our local, state and federal partners for their hard work during the storm response and recovery,” said Robert Buxton, Director of the New Hampshire Department of Safety’s Division of Homeland Security and Emergency Management (HSEM). “Crews are working to restore power to the remaining outage areas. If you are still in an area without power, continue to practice power outage safety and make sure to check in on your neighbors.”

Report power outages to your utility provider every 24 hours until it is restored:

| | |
|-------------------|----------------|
| Eversource | 1-800-662-7764 |
| Liberty Utilities | 1-855-349-9455 |
| NH Electric Co-Op | 1-800-343-6432 |
| Unitil | 1-888-301-7700 |

Buxton also makes the following safety recommendations:

- Stay informed by signing up for NH Alerts and monitoring National Weather Service radio or broadcast weather reports.
- Drivers should be alert for crews clearing debris and use caution.
- Use flashlights, rather than candles, for emergency lighting.
- Do not use a gas range or oven as an alternate source of heat.
- Only use a generator that has been wired to the building electrical service by a professional electrician.
- Never run a generator inside a building or in an enclosed space and keep them 10 feet away from buildings with the exhaust pointed away.
- Never drive around barriers or remove them from closed roadways.
