## Emergency Buses

If you do not have your own transportation and need a ride, emergency buses will be available if evacuation is necessary for your community. The bus will take you to the reception center.

In most communities, buses will pick up riders along designated routes. The EAS radio station will tell you when buses will start running in your community. Announcements will be made when buses are about to stop running in each community.

If you think you missed the last bus, you can call the local Emergency Operations Center for your community (see page 2 of this calendar). Turn to the bus route map for your community on the following pages. Mark the map where you catch the bus. Make sure everyone in your family knows where they can catch the bus.
