In FY 2017, the Secretary of State, in cooperation with local election officials, continued to implement new voter ID laws in state and municipal elections, provided training to 1,719 election officials, staff and poll workers, executed the September, 2016 State Primary and the November, 2016 General Election. Office resources were devoted to implementing a new accessible voting system, conducting follow-up on voter affidavits, and revising and executing election management software for the 2016 election cycle.

In cooperation with local election officials, the office analyzed and followed up on 1,423 challenged voter affidavits, 6,033 domicile affidavits, and 764 qualified voter affidavits signed by voters in the second half of 2016. The office sent 3 separate batches of letters to the 8,220 affidavit signers in the second half of 2016, and 3 separate batches of letters to the 498 affidavit signers in the first half of 2017, and provided extensive follow-up and reports on voter responses, reporting to the Legislature, the Attorney General, and the Department of Motor Vehicles, as required by law.

Using the statewide voter registration system (ElectioNet), an election management system, web reporting tools, and training programs to carry out the Help America Voter Act (HAVA), the Military and Overseas Voter Empowerment (MOVE), and implement 2016 election legislation, the Secretary of State:

- a. Implemented an increasingly robust election management system that can more efficiently produce printer-ready ballots, UOCAVA ballots, accessible voting system voice improvements, accessible voting system ballots-on-demand, accessible voting system pre-printed ballots, up-to-date candidate lists, and reports of election results, thereby ensuring compliance with federal and state deadlines;
- b. Programmed candidate and column rotations, distributed candidates' data to ballots, prepared procedures and reports, delivered equipment and rolled out training for new one4all accessible voting system relying on commercial off-the-shelf hardware and open source software;
- c. Trained clerks and provided posters to educate voters about a Secretary of State website that enables voters to: (i) determine whether they are registered to vote, (ii) find their clerk, polling place location and official polling hours, (iii) determine their absentee ballot status if they are an absentee voter, (iv) if their absentee ballot has been rejected, ascertain the reason for the rejection; and (v) view their own ballot in the coming election.
- d. Implemented procedures, reports, and training to comply with the requirement to record and report the state of out-of-state drivers' licenses on checklist, and to

- e. Using ElectioNet, the office had found 21,599 possible duplicate voters on local checklists (including 11,325 voters that are active and 10,273 voters that have been removed), created new software interface to reduce duplicate creation, and followed up on duplicates;
- f. Worked with moderators, selectmen, and clerks to upgrade and modify polling places as needed to ensure that all of the state's polling places are accessible, relying on up to 50 inspectors from the Attorney General's office to personally monitor and report on 2016 election day compliance.

 - a. UOCAVA new voter: added dropdown in Voter Registration for military or domestic (was in absentee ballot module)
 - b. Matched NHRVIN Death Records System Reminders & Report
 - c. Updated Qualified Vote Affidavit ("QVA") reports to reflect special elections

THE DIVISION RECORDS OF VITAL RECORDS FY 2017 ANNUAL REPORT

The division oversaw and completed the registration of several different kinds of life events. For the time interval between July 1, 2016, and June 30, 2017 (hereinafter “FY 2017”), the number and types of New Hampshire vital events/records saved in the state database are as follows:

Births	12,210
Deaths	12,160
Marriages	9,254
<i>Opposite gender</i>	8,899
<i>Same gender</i>	355
Divorces	4,205
Legal separations	52
Annulments	8
Civil Union dissolutions	0

The total revenue for FY 2017 was \$170,140.00. This revenue represents 12,152 certificates issued by DVRA staff. This includes 9444 first copies, 2540 additional copies, 20 heirloom birth certificates, 91 certificates of foreign birth.

There were 600 adoptions completed during FY 2016. Demand for pre-adoption records during that time interval stood at 57 requests.

CNSI (the software vendor who created NHVRIN), Databank (a database solutions firm) and DVRA worked together during FY 2017 to bring approximately one million decades-old records into DVRA’s electronic database. CNSI and Databank worked with DVRA to correct any unusual or inconsistent values in Databank’s work. The data was imported into DVRA’s database in March 2017. DVRA continues to perform data quality edits on the imported records.

Since July 2015, DVRA has received funding from the Centers for Disease Control (CDC) to develop a mobile app which will allow death certifiers to certify death certificates from their mobile devices rather than a desktop computer. This application, named the electronic Cause Of Death (eCOD), was created with the assistance of CNSI. The expected go-live date for eCOD is July 2017. Funding from the CDC for the development of eCOD continues until just over two years from the award date. The final payment is expected to be received in August 2017.

DVRA is working with the CDC on two more projects: a plan to improve the timeliness of death registration and the quality of death data, and a plan to take eCOD to US jurisdictions who want their death certifiers to expedite the death certification process. Both contracts went underway in July 2016 and August 2016 respectively. The former contract lasts two years.
