Elections Annual Report – FY 2021

In FY 2021, the Secretary of State, in cooperation with local election officials, continued to implement new election laws in state and municipal elections, provided training to over 8,500 election officials, staff and poll workers, executed the September, 2020 State Primary and the November, 2020 General Election. Office resources were further devoted to implementing a new accessible voting system for voters with print disabilities, working with a contracted accounting firm in reimbursing cities and towns federal CARES Act monies, conducting follow-up on voter affidavits, responding to election law changes, and revising and executing election management software for the 2022 election cycle.

In cooperation with local election officials conducted an inquiry on 797 challenged voter affidavits, 2,979 domicile affidavits and 663 qualified voter affidavits signed by voters in the second half of 2020 and first half of 2021. We are still in the process of verifying affidavits.

Using the statewide voter registration system (*ElectioNet*), an election management system, web reporting tools, and training programs to carry out the Help America Voter Act (HAVA), the Military and Overseas Voter Empowerment (MOVE), the 2020 Election Administration and Voting Survey (EAVS), implement 2020 election legislation, and respond to legal challenges and court decisions, the Secretary of State:

- a. Implemented an increasingly robust election management system that can more efficiently produce 8,640 ballots (640 ballots in the State Primary, plus 320 ballots in the General Election X 9 distinct ballot formats) in an election cycle: printer-ready ballots, UOCAVA ballots, accessible voting system (AVS) ballots-on-demand, AVS pre-printed ballots, AVS voice ballots (with significant improvements), AVS visual user interface ballots, accessible ballots for those who have print disabilities, up-to-date candidate lists, and reports of election results, thereby ensuring compliance with federal and state laws and deadlines.
- b. Programmed candidate and column rotations, distributed candidates' data to ballots, prepared procedures and reports, delivered equipment and rolled out training for one4all accessible voting system relying on commercial off-the-shelf hardware to mark a pre-printed ballot (to protect voter privacy) from the accessible voting system.
- c. Worked with an accounting firm to establish a standard cost methodology, for the CARES Act Grant, to reimburse towns and cities for the additional absentee ballot costs due to the pandemic. Submitted methodology to the EAC for approval, which they granted. Sent Notice of Grant Opportunity to all cities and towns for participation in Sub-Grant program. Reimbursed 139 cities and towns for the State Primary, 152 for the State General and 55 combination payments for the State Primary and General. Total reimbursement to cities and towns was \$2,628,539.66.
- d. Due to the Covid 19 pandemic established a toll-free voter information hotline to assist voters with questions on voting for the Primary and General elections. Also, implemented "Ask Alexa", a virtual assistant artificial intelligence technology device developed by Amazon Web Services that is capable of voice interaction aimed at helping the general public obtain answers to typical voter questions.
- e. Working with clerks and supervisors in researching and merging of duplicate voters, resulting in ongoing extensive staff follow-up with these officials.
- f. Worked with a vendor and clerks relative to the implementation of an accessible vote-by-mail system enabling persons with print disabilities to vote absentee from a location of their choice. Clerks would validate the absentee request and contact the Secretary of State's Office who would send the necessary information and forms to the voter.

- g. Provided written procedures, instructions and time sensitive protocol to Clerks and Supervisors of the Checklist relative to the 10-year Verification of the Checklist. Verification required the Supervisors of the Checklist to post notices of their meetings and review their voter list for any voter that did not vote in any election in the past four years preceding the 10-year verification and has a registration date that is on or before the November 3, 2020 (last state general election). If voters met that criteria, Supervisors of the Checklist needed to send notices stating they would be removed from the checklist and would need to re-register. Their first session could not be before April 2, 2021 and removal of any voters could not occur until on or after June 1, 2021 with final completion by September 1, 2021.
- h. Trained clerks and provided posters to educate voters about a Secretary of State website that enables voters to: (i) determine whether they are registered to vote, (ii) find their clerk, polling place location and official polling hours, (iii) determine their absentee ballot status if they are an absentee voter, (iv) if their absentee ballot has been rejected, ascertain the reason for the rejection; and (v) view their own ballot in the coming election.
- i. Worked with moderators, selectmen, and clerks to upgrade and improve polling places as needed to ensure that all of the state's polling places are accessible, relying on inspectors from the Attorney General's office to personally monitor and report on 2020 election day compliance.
- j. Maintained and updated as needed *ElectionNet* software to integrate new laws and improved procedures.
- k. To ensure compliance with federal and state election laws, the Secretary of State maintains and delivers different election officials training formats and programs aimed at roughly 6,000 election officials. Due to the constraints of COVID-19, many previously training formats were cancelled and we introduced webinars, on-demand webinars and zoom meetings focusing on the roles of moderators, clerks, supervisors of the checklist, selectmen, and inspectors of election, as well as voters:

Corporation Division Summary FY 2021

Both Corporate and UCC filing activity at record highs

Fiscal year 2021 (July 1, 2020 through June 30, 2021) has been a period of unprecedented growth in new business entity formations in New Hampshire. Limited liability companies, or LLCs, formed in this State hit a record 14,426, which far exceeded the State's previous peak of 12,320, which occurred in Fiscal year 2018. Registration of LLCs from neighboring states, as well as LLCs formed in Delaware, also reached an all-time high of 1866, beating FY2018's total again by 170.

The LLC strongly preferred for new businesses/business formations

The continued drop in new trade name registrations (an indicator of new sole proprietorships and general partnerships), along with the growth of foreign and NH LLC numbers, reflect that New Hampshire's entrepreneurs and investors are choosing the LLC as their preferred business structure. And New Hampshire's modern LLC law, 24/7 online availability, a simple on-line formation process, and low fees continue to make New Hampshire an attractive place to form and maintain your business.

Construction

- Completion of construction of new addition (Sections I, J and K), containing new archival vault and space for 90,000 boxes. The Relative Humidity levels in the J Vault rose too high for safe storage of fragile documents, and a study and design was prepared during the spring and summer of 2021, for installation in FY 2022
- Electrical efficiency upgrades were made by Administrative Services under a contract with ConEd, including lighting and weather stripping

Imaging

- Purchased an SMA Book Scanner
- Purchased a microfilm Scanner
- Completed imaging Presidential Primary Voter Checklists
- Imaged State Primary Voter Checklists
- Imaged General Election Voter Checklists
- Completed scanning Petitions Collection
- Miscellaneous (Original) Deeds Collection
- Continued imaging Legislative Committee hearing minutes

Other matters

- The Archives closed to research patrons except on an emergency basis between March 2020 and May 2021. During that time, the Archives staff needed to do the research for the patron that they would typically have done themselves had they come to the Archives and were given the records to examine. Once we have found what we feel the patrons want, we have imaged (“on demand”) as many documents as possible, and sent the images to the requestors. Some of the digital files have been very large, and we have needed to send the files on a USB flash drive by US Mail.
- Brian Burford made presentations to:
 - (a) New Hampshire Archives Group, Keene (Digital Preservation), 2019-10-13
 - (b) Colonial Dames, Concord (Early Roads), 2020-02-12
 - (c) New Hampshire Archives Group, Nashua (Archival Profession), 2020-05-14
- Transcription and redaction of volume of NH Reform School student records from 1850s-1872
- Played a role in delivering ballots to polling places and picking up ballots for recounts for State Primary, Sept-October 2020
- Played a role in delivering ballots to polling places and picking up ballots for recounts for General Election (November 2020)

BUREAU OF SECURITIES REGULATION FY 2021 ANNUAL REPORT

The mission of the Bureau of Securities Regulation is to administer and enforce the N.H. Securities Act, RSA 421-B. Our focus is to protect and educate N.H. investors while promoting the integrity of securities sales and capital formation. 2021 was again a very active period for the Bureau. Although the Covid pandemic continues to impact the day-to-day operation of broker-dealers and investment advisors, the Bureau has maintained in-person operations at the State House Annex without interruption. The number of existing registrants licensed to conduct business in New Hampshire remains strong. 1,284 broker-dealer firms and 118,589 broker-dealer agents renewed licenses in 2021. 2,394 Investment Advisor firms and 4,534 Investment Advisor representatives also renewed during the period. Total registration revenues for all registration types including investment advisors, broker dealers, mutual funds, and a variety of securities filings exceeded \$43.0 million. Several major enforcement actions were initiated with record-setting restitution amounts returned to aggrieved investors as well as fines and penalties assessed to violators of the Securities Act. . Although in-person investor protection presentations were curtailed due to Covid restrictions, the Bureau continues to disseminate investor protection information via various outlets. Bureau leadership and staff attorneys are actively involved and hold leadership positions with the North American Securities Administrators Association. The Bureau also participates as a member of an inter-agency working group of New Hampshire financial services regulators to improve inter-agency cooperation and information sharing.

DIVISION OF VITAL RECORDS FY 2021 ANNUAL REPORT

The Division of Vital Records Administration (hereinafter “DVRA”) oversaw and completed the registration of several different kinds of life events. For the time interval between July 1, 2020, and June 30, 2021 (hereinafter “FY 2021”), the number and types of New Hampshire vital events/records saved in the state database are as follows:

Births	12,123
Deaths	13,461
Marriages	9,111
<i>Opposite gender</i>	8,829
<i>Same gender</i>	282
Divorces	3,597
Legal separations	34
Annulments	5
Civil Union dissolutions	0

A total of 10,553 certificates were issued by DVRA staff during fiscal year 2021. This includes 7,825 first copies, 2,660 additional copies, 19 heirloom birth certificates, and 19 certificates of foreign birth. Demand for pre-adoption records during that time interval stood at 30 requests. DVRA produced an additional 92 vital records for the Vermont Office of Child Support through a pre-paid contract with that office.

DVRA and CNSI, a software vendor have collaborated in creating a new comprehensive electronic system for security of users and registering deaths. This system, which builds upon the current NH Vital Records Information Network system (“NHVRIN”), is called NH Vital Records Information Network Plus system (hereinafter referred to as “NHVRIN*plus*”). The death module and the security module of NHVRIN*plus* was launched on September 23, 2020. Other vital event modules will be launched within the next few years, collaborating with another software vendor named WSD Digital, Inc. The new birth module in NHVRIN*plus* is expected to be launched during late fiscal year 2022.

The COVID-19 epidemic continued to create challenges for DVRA. The Archives & Records Building, which had been on lockdown since March 2020, was no longer in lockdown as of May 2021. The number of customers which have purchased vital records from DVRA in person has increased, although DVRA had accepted walk-in customers since the lockdown began.

The COVID-19 epidemic had influenced New Hampshire vital statistics. While there was a significant reduction in the number of marriages occurring in New Hampshire during the summer of 2020, the number of marriages since then has nearly rebounded to pre-epidemic levels. Although there has been extremely rare and isolated cases of COVID transmission from

mother to newborn during the birthing process, such a transmission has not occurred in New Hampshire since the epidemic started. DVRA, in conjunction with the Centers for Disease Control, monitors New Hampshire deaths due to COVID-19.
