December 2023 Corrective Action Status

Summary: The Department is taking an Adaptive Management approach to the Corrective Action Plan. As work progresses, we will evaluate outcomes and adjust timelines and approaches to ensure each recommendation is fully addressed. Timelines and due dates may change, resulting in earlier or later finish, based on factors such as the rulemaking process, legislative changes, legal actions, federal law, availability of resources and economic considerations. While the Adaptive Management approach may affect timelines and approaches related to any of the audit observations, we anticipate it may particularly affect Observations # 1, 2, 3, 5, 6, 7, 11, 18, 39, 43, 44, and 50.

Obs #	Observation Title	Recommendation	Action Item	Due Date	Completion Status	Comments
1	Strengthen The Department’s Operating Environment And Organizational Culture	The Department develop and maintain an operating environment and culture supporting effective management control. Ensure processes and practices are adequately controlled; ensure existing controls are reviewed to ensure they are sufficiently designed, operating as intended, not circumvented, and are regularly monitored; ensure processes allow employees to report deviations without fear of retaliation or repercussion; and ensure managers demonstrate the importance of management controls.	Strengthen existing management controls, Develop management controls where absent, including process for reporting deviations without retaliation, Establish and implement review timeline for controls, set expectations for managers regarding implementation of management controls and evaluate managers annually based on these expectations.	04/2024	•••	This observation is a summary compilation of the other observations within this report. It will be considered closed when all the observations are complete.
2	Improve Strategic Management And Planning	The Department create a strategic plan. Ensure the	Develop an updated Department strategic		••••	Completed

Obs #	Observation Title	Recommendation	Action Item	Due Date	Completion Status	Comments
		<p>Division of water (Division) and Wetlands Bureau (Bureau) develop complimentary strategies and plans; incorporate remediation of audit findings; develop a remedial action plan; engage the Wetland Council (Council) on long-range planning; develop performance measures tied to strategic goals, plans, and initiatives; and track performance.</p> <p>The Division and Bureau develop strategies and implementing plans to help ensure strategic objectives are achieved.</p>	<p>plan. Develop complimentary strategic and implementation plans for Divisions and Programs. Regularly engage the Wetlands Council. Develop performance measures tied to goals of Strategic Plan and Strategy Implementation Plans.</p>			
3	Establish And Formalize Risk Management Policy And Practices	<p>The Department establish formal agency-wide risk management policy and processes tied to strategy and plans. Develop measurable risk tolerances; and monitor controls.</p> <p>The Division and Bureau implement the Department's risk management policies and practices.</p>	<p>Develop Department risk management policy and processes including measurable risk tolerances.</p> <p>Monitor compliance with risk management policy.</p> <p>Develop and track Program risk management plans.</p>	04/2024	...	The Risk Management policy has been drafted and is under final review.
4	Timely Resolve External Audit And Assessment Findings	Department management comply with Executive Orders on audit reporting; Assign responsibility for audit finding remediation; timely resolve	Develop corrective action plan for 2019 audit and submit to DAS. Report semiannually to DAS on progress. Develop		Completed

		procedures to ensure management monitors training on and compliance with policies and procedures; and publish current and future policies and procedures in a consistent format.	gaps exist. Establish schedule and tracking for policy/procedures updates and training.			
18	Improve Provision, Measurement, And Control Systems Over Customer Service	Department management develop, implement, and refine a holistic, coordinated customer service performance measurement system; ensure performance measurement is coordinated between Department, Division, and Bureau; develop, implement, integrate, and refine a complaint policy and procedure; ensure guidelines and other public-facing materials accurately reflect underlying rule-based standards, are clear, consistent, and readily available; and ensure customer service-related data are reliable and processed timely.	Review and update Public Information and Permitting Unit role. Establish DES Customer Service Committee. Establish customer service policies, procedures, and performance measurement system, including documenting the requirements for review and approval of the content and format of public-facing documents.		Completed
19	Improve Consistency Of Permitting Decisions	Department management ensure consistent outcomes derive from Bureau permitting practices; develop consistency measures; evaluate and report on consistency; and regularly review permit processes and decisions.	Update Bureau Peer Review policy, including review authorities. Establish consistency measures and related schedule for consistency reporting and review.		Completed

Obs #	Observation Title	Recommendation	Action Item	Due Date	Completion Status	Comments
20	Improve Control System Over Permit Conditions	Department management ensure permit conditions are reasonable and comply with State law; ensure conditions are tied to permitting outcomes; adopt permit conditions in rule; adopt a process for modifying permit conditions in rule; and seek statutory changes to accommodate reasonable conditions on Shoreland permits. Bureau management cite relevant State and federal statutory and regulatory requirements when imposing permit conditions.	Update permit condition template language based on rules, statute, and desired outcomes, and cite rules in template language. Seek statute change to allow conditions in Shoreland permits.		Completed
21	Clarify And Formalize Peer Review Policies And Monitor Compliance	Department management develop written peer review requirements; ensure requirements are communicated and employees trained; identify and record data necessary to document peer review; routinely monitor and measure compliance; and address noncompliance	Update Bureau Peer Review policy, including review authorities and how to document peer review. Train employees, monitor compliance, and recognize compliance and follow up on noncompliance.		Completed
22	Improve Timeliness of Wetlands Bureau Permitting	Department management structure permit and notice application review process in rule with applicable time limits; establish goals and targets; ensure the database management system enables performance measurement; develop timeliness reports;	Update procedures and establish measures based on new Wetlands Rules. Update database to track the measures. Establish a schedule for reporting and		Completed

		develop policies on managerial oversight; develop policies and performance targets; and ensure staff compliance.	management review of employee compliance.			
23	Revise Department Of Transportation Permit Application Review Practices	Department management comply with statute and ensure Department of Transportation applications are processed according to statutory time limits, or seek statutory changes to accommodate its practices if necessary.	Process DOT applications according to statutory time limits. Pursue statute amendment to allow memorandum of agreement between DOT and DES.		Completed
24	Improve Wetlands Council Appeals Timeliness And Adherence To Statutory Requirements	Department management timely act on appeals; work with the Council to simplify and correct the Department's guidance documents; and provide clerical and technical support necessary to remediate deficiencies and monitor performance data.	Develop metrics for timeliness of acting on appeals and monitor them. Communicate regularly with the Wetlands Council. Provide support as requested by the Wetlands Council.		Completed
25	Improve Management Of Wetlands Council Remands To The Department	Department management develop policy and procedures to timely resolve remands consistent with statute and Council rules.	Revise Wetlands Rules to address these recommendations and adopt revised rules. Develop measures for timely acting on remands. Management monitor measures and assess compliance.		Completed

Obs #	Observation Title	Recommendation	Action Item	Due Date	Completion Status	Comments
26	Formalize And Leverage Application Receipt Center Processes	Department management adopt Application Receipt Center (ARC) rules; ensure reporting and oversight structures are clarified; establish performance measures and collect data; develop policies and procedures to ensure consistency; conduct adequate peer review; ensure delegations of authority are issued; and ensure Bureau practices conform to applicable requirements.	Revise Wetlands Rules to address these recommendations and adopt revised rules. Develop and revise procedures based on the revised rules. Review ARC practices for compliance with procedure. Ensure delegations of authority are issued.		Completed
27	Formalize Requirements, Procedures, And Processes For Notice-only Wetlands Projects	Department management adopt notification process rules and establish procedures to address requests for more information (RFMI) and reclassifications.	Revise Wetlands Rules to address these recommendations and adopt revised rules.		Completed
28	Formalize Expedited Evaluation of Permit Applications Under Extraordinary Circumstances	Department management adopt the expedited evaluation of permit applications under extraordinary circumstances process .in rule and publicize the process.	Revoke expedited permit review SOP. Propose rules for expedited permit review.		Completed
29	Establish Parameters for Conservation Commission Involvement In Permit Application Reviews Consistent With Statute	Department management base interaction with applicants and conservation commissions on statute; timely align practices, procedures, rules, and forms with statute; develop policies to ensure adequate data is collected; ensure conservation commissions are held to statutory time limits; and limit	Revise Wetlands Rules to address these recommendations and adopt and implement revised rules.		Completed

Obs #	Observation Title	Recommendation	Action Item	Due Date	Completion Status	Comments
		Department integration of conservation commissions into permitting processes to those provided in statute.				
30	Implement Review Framework for Minimum Impact Expedited Projects Consistent With Statute	Department management adopt rules governing the minimum impact expedited (MIE) application process; include timeframes for processing MIE applications and timelines; monitor to ensure timely review; and amend policies, procedures, and forms.	Revise Wetlands Rules to address these recommendations and adopt and implement revised rules.		Completed
31	Improve Wetlands Permit-by-Notification-related Rules, Procedures, And Practices	Department management ensure permit-by notification (PBN) rules align with statute and forms align with requirements; develop policies and procedures to ensure consistent and equitable application of rules; and consider revising rules to ensure requirements for project types are commensurate with level of impact.	Revise Wetlands Rules to address these recommendations and adopt and implement revised rules.		Completed
32	Improve Request For More Information Processes	Department management seek clarification from the Legislature as to whether the Shoreland RFMI response deadline should be extendable, and promulgate rules detailing RFMI processes. Bureau management revise policy and procedure to ensure RFMI practices conform to applicable	Update policy and procedures to align RMFI practices to rules and statute.		Completed

		requirements and develop policy and procedure				
33	Improve Management Of Extensions Of Permit Application Technical Review Time Limits	Department management create rules and policies related to application review extensions; modify the database management system (DBMS) to track and manage extensions to ensure compliance with applicable requirements; and communicate availability of application extensions.	Revise Wetlands Rules to address these recommendations and adopt and implement revised rules. Modify database to track extensions.		Completed
34	Develop Rules and Policies for Reclassifying Applications and Amending Applications and Issued Permits	Department management promulgate rules defining the circumstances under which staff can reclassify and amend applications; and develop policy and procedure to describe reclassification and amendment of applications.	Revise Wetlands Rules to address these recommendations and adopt revised rules.		Completed
35	Comply With Statute And Implement Deemed Approved Permits	Department management discontinue efforts to circumvent legislative intent; adopt rules, policies, and procedures to implement the deemed approved provisions of statute; communicate the availability of the process; develop policy and procedure to ensure compliance; and seek statutory changes to clarify deemed approved provisions.	Train staff on statute. Develop and implement data quality control to prevent database errors that result in deemed approved permits.		Completed

Obs #	Observation Title	Recommendation	Action Item	Due Date	Completion Status	Comments
36	Improve Systems For Managing Emergency Authorizations	Department management structure emergency authorization processes through rules, policies, and procedures; ensure rules are consistent, and practices adhere to delegation of authority requirements in rules; establish strategic objectives, goals, and performance targets for timely processing; ensure the DBMS enables performance measurement; develop reports, policies on managerial oversight, and performance targets; and ensure staff compliance.	Revise Wetlands Rules to address these recommendations and adopt and implement revised rules.		Completed
37	Improve Systems For Managing After-the-fact Permit Applications	Department management structure after-the-fact permitting processes through rules, policies, and procedures; ensure rules are consistent, and practices adhere to delegation of authority requirements in rule; establish strategic objectives, goals, and performance targets for timely processing; ensure DBMS enables performance measurement; develop reports, policies on managerial oversight, and performance targets; and ensure staff compliance.	<p>Revise Wetlands Rules.</p> <p>Update policies and procedures based on new rules.</p> <p>Establish measures based on strategic objectives, goals, and performance targets.</p> <p>Update database to track measures.</p> <p>Establish schedule for reporting and managerial review with follow up for noncompliance.</p>		Completed

Obs #	Observation Title	Recommendation	Action Item	Due Date	Completion Status	Comments
38	Resolve Prior Audit Findings And Other Issues Related To Fees And Mitigation Accounts	Department management review fee structures to ensure fees are appropriate; expunge Shoreland PBN fee forfeitures from rule; collect statutorily-required fees or seek a statutory amendment if there are reasons fees could or should not be assessed; develop and implement policies and procedures; rationalize the cost to administer the Aquatic Resource Compensatory Mitigation (ARM) Fund against the administrative assessment; and seek clarification on the ARM Fund and whether administrative assessments should be a separate account.	Complete resolution of previous audits and document completion.		Completed
39	Strategically Manage Organizational Structure	Department management integrate evaluations of efficiency and effectiveness of organizational structures with strategic and workforce planning and performance management efforts; monitor data and integrate results into planning; with the Council, assess factors affecting the operating environment; evaluate the effectiveness of permit application review processes; ensure organizational charts and human resources data are accurate; and strategically	Update organizational charts and supplemental job descriptions. Plan future organizational changes based to support efficiency and effectiveness for achieving the Bureau's strategic outcomes.		Completed
