HOW TO TURN ON OR "ENABLE" JAVASCRIPT

Instructions for enabling JavaScript in Internet Explorer and Firefox are below.

Internet Explorer

From the "Tools" menu of Internet Explorer, select "Internet Options". Click the "Security" tab. Make certain the "Internet" globe icon is highlighted. Click the "Custom Level..." button to bring up the security options for your browser.

Internet Options							
General Security Privacy Content Connections Programs Advanced							
Select a zone to view or change security settings.							
Internet Local intranet Trusted sites Restricted sites							
Internet Sites This zone is for Internet websites, except those listed in trusted and restricted zones. Sites Security level for this zone Custom							
Custom settings. - To change the settings, click Custom level. - To use the recommended settings, click Default level. Custom level							
<u>R</u> eset all zones to default level							
OK Cancel Apply							

Search through the menu for the "Scripting" "Active scripting" option. Make sure "Enable-ON" is selected. Click the "OK" button.
