

Implementation Subcommittee Agenda

April 10, 2012

1:00 to 3:00

New Hampshire Fish and Game Department
Concord, NH

1. 1:00-1:30: Review and discussion of what we have accomplished thus far and how it fits in with building a story and making recommendations for future water policy (i.e., the general categories-Do we keep them as overall focus structure. NH lives on water campaign structure-is it still a part of how we want to structure our recommendations?)
2. 1:30-2:00: Review what Alison sent and get feedback on any other committee Members as to other examples of places where water related recommendations are being implemented.
3. 2:00-3:00: Discuss these recommendations that are being implemented, why the Implementation seems to have occurred and how that should frame our recommendations.
